About 6 years ago I watched Clark cops stop a vehicle w/ two black men in it on my way home from work at the border of Clark and Linden right in front of Winfield Parks. Something in my spirit didn't sit right and I kept thinking about the men that were pulled over. About an hour later I got back up because something said go back around the corner and see if they still got those men pulled over. Sure enough they did w/ about 3 more squad cars. So I sat in my car for another 30min after I watched those cops tear this white truck apart and couldn't find a single damn thing. So I walked across the road and asked the men if they were ok and said to the cops..it's been an hour and a half and you STILL haven't found what you were looking for, let these men go about their business.

They told me to go back to my car and I told the cops to go back to theirs..soon as I pulled out my phone to record..30 seconds later all the cops left and told them they were good to go.

They were college students from UCC who just happened to ride through Clark to get some Dunkin Donuts smh!

I had an officer pull me over in Clark, ask me where I'm going, in which I denied, he asked me what kind of work I did (as if I didn't deserve to be driving the car I had). To humor him I didn't tell him where I was going but I told him my profession. This Caucasian man said educators don't make that kind of money, I said well when you have 3 degrees and longevity with an organization you get paid your worth. It's not my fault you started your career at 30k. Needless to say he hit me with 3 bogus ass tickets which cost me money to pay for a lawyer. That all got dismissed because they were bogus as hell, but it was just unnecessary. If driving while black was a person, it would be me, "I'm that person."

I'm not from union County originally.... but I recall every person I knew who wasn't from Clark, Roselle park, Fanwood and Westfield specifically.... they WOULD NOT drive thru those towns. They would intentionally drive longer routes to avoid the police. 90% of the time they were just trying to get to work/home.

I've lived in a number of counties in NJ... I've worked with the courts and will say.... the people KNOW a sundown town when they experience one. While they might not be terrorized.... harassment by officers of the law is just as traumatic.

my experience with this was in Shrewsbury pulling out of my job.... 6 male cops and 1 woman.

There maybe better officers in some of these towns now..... it doesn't erase the harm that was done through the years. Clark should know better at this point.

Clark is a good town. Most of the comments are based on hearsay. The people that got stopped shouldn't speed. It's statics. Rahway largest demographic population is black by a huge margin. Hence the majority tax to Rahway residents should follow that pattern. That's not racism, that's stats. I live here, I'm Portuguese, and I got stopped 2x for speeding. It happens. Was I speeding? I sure was. Speeding is not racism. You listen to kkk stories of the 60's and 70's and now we all get classified as a racist town, no way. This is a welcoming town, and the people here are kind. The police department has been there for our family and even the residents of our block. A couple of people don't define us. This really needs to stop. The NJ attorney just has a vendetta against the only republican town in the county. If he actually gave 2 shits about residents, he should be trying these home invasion kids as adults and putting them away for a long time.

There are a couple of things not welcomed in Clark. Hate is not welcomed in Clark, neither are lies. Everyone is welcomed, watch your speed and be respectful.

Last thing, have I heard the stories like all of you have, sure. They are stories, some true but majority of them are false and hearsay. You know if a rumor goes around so much and you hear it so much it almost becomes true. The next time a black person gets pulled over for speeding in Clark it's going to be an automatic racism complaint and not about the fact that they were speeding.

So this "frivolous lawsuit" supersedes decades of instances with Clark and minorities??? I've heard these stories back to the 80's about Clark. From people with first hand experience. Didn't Clark use to proudly be a "sundown" town?

There was no misconduct "found" but you better believe it was happening. Often and always. It never stopped.

Dutchess K Bella Smith no words can even explain your comment but then again I hear roselle and Plainfield have vacancies. As far as the word illegals Nj just became a sanctuary state so see how safe you feel harboring murderers rapists and gang members. Research rabbit hole nice use of words on whatever you're trying to say.....

I grew up in Essex County and I've always heard about the cops in Clark pulling people over for no reason just to harass them. This press release isn't doing anything. Actually start FIRING police officers found to biased. The rest will change or retire.

Ilya Shaikovsky you're on the "right" side of the color spectrum. You were never the target. Tons of people of color i think is a bit of an exaggeration. Like someone else said, this has been a well documented issue with Clark

Hey forgot to mention the comments made by the former corrupt mayor as well . Don't leave that part out of your letter . The inexcusable behavior / culture / beliefs of the township leadership on down to the lifelong residents who felt like black and brown folks didn't belong in their town are just as culpable . This isn't about politics , it's about a longstanding culture that has caused damage to a people who simply have different skin colors by a population of people who have been taught and bred to fear , distrust , dislike , and label people who don't look like them . It's an insult to say that its political when its the reality of black and brown people all across the world . Whats politics is not openly condemning or acknowledging that this affront is and has been happening and that a legitimate and earnest effort should be made to shed light on an inhumane culture that has existed for far too long . The nervous joke / reality spoken by black and brown people unfairly was " don't go to Clark after Dark " . Essentially Clark , like Cranford were sundown towns and that culture persisted and I'm glad that its being spoken about out loud and has made so many uncomfortable . If you're uncomfortable with the truth being spoken out loud , welcome to the silent uncomfortable world black and brown folks had to endure unfairly .

Kwabena Adjei the crime rate is 0% because when the crime is done by their own , its not reported in that town because everyone knows each other and its handled in house so it appears like there's no crime . Common practice to keep everyone else out , live in their utopia as they see it . When there is a threat of the purity being " stained " is when the enforcement comes in and anything not of them is repelled . As long as we come in and behave according to their standard and spend money , all is well as we leave in an orderly fashion .

Black folk from Westfield knew better. We'd drive through multiple towns just to avoid Clark. Mission accomplished; we avoided Clark like the plague.
