

Highland Park Police Officers are dispatched by Rutgers University Police Department as part of a shared-service agreement. As such, some records are maintained by and must be requested through Rutgers University.

Examples of records that are maintained by Rutgers University include:

- CAD Reports
- 9-1-1 Calls Logs
- Radio Transmissions

A CAD Report is the initial documentation of a call and includes information such as date, time, location, officers dispatched, incident notes, and parties involved.

Records may be obtained through the Rutgers OPRA Portal by scanning the code below with a Smartphone or by calling the OPRA Office at (973)972-8000.
