144 Crash Diagram (NOT TO SCALE)

145 Crash Description/Narrative

On the above date and time, I responded to the intersection of North Main Street and Sunrise Boulevard, for a report of a motor vehicle accident with possible injuries. Upon arrival, V1, a white Ford Expedition bearing New Jersey registration 59NBLE was in the eastern most lane of North Main Street, facing north with with disabling damage to the front driver side door. V2, a black Mercedes bearing New Jersey registration N18PNJ, was in the eastern most lane, in front of V1, facing north with moderate damage on the front passenger side quarter panel.

D1 stated, she was at the intersection of Sunrise Boulevard and North Main Street, and attempted to make a right turn on red onto North Main Street. D1 stated, upon attempting to make the right hand turn, V2 was traveling in the eastern most lane of North Main Street and she did not see her coming until she was struck by V2.

D2 stated, she was traveling north on North Main Street in the eastern most lane, approaching the intersection of North Main Street and Sunrise Boulevard. D1 stated, she had a green light and attempted to cross of the intersection while passing the vehicles in the western most north bound lane. D1 stated, upon passing the vehicles, she crossed over the intersection and subsequently crashed into V1, who attempted to make a right turn on red.

Further police investigation revealed, failing to yield to the right of way vehicle and improper turning, committed by D1, were the main contributing factors leading to the crash.
