INFO	04/14/2021 23:59:33	kconnelly
Narrative Description		
I called George Przybylski back to update him on the services that are being sent to help restore power to the buildings. He confirmed RRRS and Sterling Village super is on scene but wanted me to document that the generators are supposed to kick on after 1 minute of power loss and they still have not. Stressed that the lights in the stairwells are out causing the stairs to be pitch black and that the lights on the fire exits are out causing a hazard. Advised George again to call 911 immediately if his mother is having any sort of medical emergency.
