CERTIFICATION IN LIEU OF OATH

I. OWNER SECTION (to be completed if the applicant is the owner in fee)

I hereby certify that I am the owner in fee of the property listed on Page 1.

Mark the following applicable boxes:

A. ☐ I further certify that a new home (private residence) will be constructed on this property for my own use and occupancy. This dwelling is to be occupied by myself and is not to be used for any purpose other than single family residential use. I attest that all construction, plumbing, or electrical work will be done, in whole or in part, by me or by subcontractors under my supervision, in accordance with all applicable laws; and, I further acknowledge that said new home is not covered under the New Home Warranty and Builders Registration Act (N.J.S.A. 46:3B-1 et seq.) and that such fact shall be disclosed to any person purchasing this property within ten years of the date of issuance of a certificate of occupancy.

I UNDERSTAND THAT IN MARKING BOX A, I ACKNOWLEDGE THAT I AM ASSUMING RESPONSIBILITY FOR THE WORK DONE ON SAID PROPERTY, THE CONDITION OF THE PROPERTY PRIOR TO, DURING, AND AFTER ANY WORK PERFORMED, AND FOR THE PERFORMANCE OF THE SUBCONTRACTORS I HIRE, EMPLOY, OR OTHERWISE CONTRACT OR WITH WHOM I MAKE AGREEMENTS TO PERFORM WORK. I AM VOLUNTARILY AND KNOWINGLY ASSUMING THIS RESPONSIBILITY.

B. ☐ I further certify the following as required by the New Jersey Uniform Construction Code, N.J.A.C. 5:23-2.15(e)1.vii:

I personally prepared the plans submitted for: 1) the new home referred to in A.; or, 2) an addition, alteration, renovation, or repair to an existing single family residence owned and occupied by myself and located on the property listed on Page 1; or, 3) a new structure that will be physically separate from, but that will be deemed part of, an existing single family residence that is owned and occupied by myself and located on the property listed on Page 1.

C. ☐ I further certify that I will perform or supervise the following work:

C.1. ☐ Building C.2. ☐ Fire Protection

I further certify that I will perform the following work:

C.3. ☐ Electrical C.4. ☐ Plumbing

D. ☒ I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I understand that if any of the above statements are willfully false, I am subject to punishment.

Signature 

Date 9/16/05

II. AGENT SECTION (to be completed if the applicant is not the owner in fee)

I hereby certify the following as required by the Uniform Construction Code, N.J.A.C. 5:32-2.15(d): the proposed work is authorized by the owner in fee; and I have been authorized by the owner in fee to make this application as his agent.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I understand that if any of the above statements are willfully false, I am subject to punishment.

Check if contractor.

Certificate Comments:

☐ Certificate of Occupancy

This serves notice that said building or structure has been constructed in accordance with the New Jersey Uniform Construction Code and is approved for occupancy.

☒ Certificate of Approval

This serves notice that the work completed has been constructed or installed in accordance with the New Jersey Uniform Construction Code and is approved. If the permit was issued for minor work, this certificate was based upon what was visible at the time of inspection.

☐ Certificate of Continued Occupancy

This serves notice that based on a general inspection of the visible parts of the building there are no imminent hazards and the building is approved for continued occupancy.

☐ Temporary Certificate of Compliance

The following conditions must be met no later than _____ or the owner will be subject to fine or order to vacate: This certificate has an expiration date of: _____

Conditions to be met:

☐ Certificate of Clearance - Lead Abatement 5:17

This serves notice that based on written certification, lead abatement was performed as per NUACS:17 to the following extent.

- ☐ Total removal of lead-based paint hazards in scope of work
☐ Partial or limited time period (_____ years); see file

☐ Certificate of Clearance - Asbestos Abatement

This serves notice that based on written certification, asbestos abatement was performed to the following extent.

- ☐ Total removal of asbestos hazards in scope of work
☐ Partial or limited time period (_____ years); see file

☐ Certificate of Compliance

This serves notice that said potentially hazardous equipment has been installed and/or maintained in accordance with the New Jersey Uniform Construction Code and is approved for use until _____

☐ Temporary Certificate of Occupancy

The following conditions must be met no later than: _____ or the owner will be subject to fine or order to vacate: This certificate has an expiration date of: _____

REQUIRED INSPECTIONS

Construction work must be inspected in accordance with the State Uniform Construction Code Regulations N.J.A.C. 5:23-2.18. This agency will carry out such periodic inspections during the progress of work as are necessary to insure that the work installed conforms with the requirements of the Uniform Construction Code.

The owner or other responsible person in charge of work must notify this agency when work is ready for any required inspections specified below. Requests for inspections must be made at least 24 hours prior to the time the inspection is desired. Inspections will be performed within three business days of the time for which they are requested. The work must not proceed in a manner which will preclude the inspection until it has been made and approval granted.

☐ Required inspections for all subcodes for one- and two-family dwellings are as follows:

1. The bottom of footing trenches before placement of footings, except that in cases of pile foundations, inspections shall be made in accordance with the requirements of the building subcode.
2. Foundations and all walls up to grade level prior to back filling.
3. All structural framing, connections, wall and roof sheathing and insulation; electrical rough wiring, panel and service installation; rough plumbing. The framing inspection shall take place after the rough electrical and plumbing inspections and after the installation of the heating, ventilation and /or air conditioning duct system. The insulation inspection shall be performed after all other subcode rough inspections and prior to the installation of any interior finish material.
4. Installation of all finished materials, sealings of exterior joints, plumbing piping, trim and fixtures; electrical wiring, devices and fixtures; mechanical systems equipment.

Additional required inspections for all subcodes of construction, for other than one- and two-family dwellings, are fire suppression systems, heat producing devices and Barrier Free subcode accessibility, if applicable.

☐ Required special inspections. The applicant by accepting the permit will be deemed to have consented to these requirements:

☐ A final inspection is required for each applicable subcode area before a final Certificate of Occupancy or Approval may be issued. The final inspections include the installation of all interior and exterior finish materials, sealing of exterior joints, mechanical system and other required equipment; electrical wiring, devices and fixtures; plumbing pipes, trim and fixtures; tests required by any provision of the adopted subcodes, Barrier Free accessibility, if applicable, and verification of compliance with NJAC 5:23-3.5, "Posting structures".

☐ A complete copy of released plans must be kept on the job site.
If you do not understand any of this information, please ask.

FOR ALL PERMITS AFFECTING A RESIDENTIAL STRUCTURE
(REGARDLESS IF A FIRE PERMIT IS REQUIRED) A MINIMUM OF 1 (ONE)
BATTERY OPERATED OR ELECTRIC SMOKE DETECTOR IS REQUIRED
ON EACH LEVEL AND IN THE VICINITY OF THE SLEEPING ROOMS. AS
OF APRIL 7, 2003 THE STATE OF NJ REQUIRES THE INSTALLATION OF
AT LEAST 1 (ONE) CARBON MONOXIDE DETECTOR IN THE VICINITY OF
ALL SLEEPING ROOMS. THIS APPLIES TO ALL DWELLING UNITS
CONTAINING A FUEL BURNING APPLIANCE OR ATTACHED GARAGE.

For work not requiring a fire inspection for fire alarms in accordance with the code,
homeowners or their agents (contractors) shall be required to confirm the
installation of these devices. This may be done by signing the below affidavit in lieu
of an inspection.

*******PLEASE READ AND SIGN*******

I hereby certify that a minimum of one smoke detector is installed and is operational on each level of this residential structure in the immediate vicinity of the sleeping rooms. I further certify that a minimum of one carbon monoxide detector is installed and operational in the vicinity of the sleeping rooms. Also, I understand that failure to install and maintain these devices in an operational condition is a violation of the New Jersey Administrative Code 5:23 and may subject me to penalties as prescribed by law.

have gone into every pool we sell!

Stainless Steel Panel

Featured on selected Swim'n Play, Inc. steel pools is the stainless steel panel. There are other stainless steel panels on the market, many are only 33 inches long, and create an unsightly bolted seam up the center of the pool wall.

Our Lifetime Warrantied stainless steel panel is long enough that the bolted seams are located beneath the verticals, lending the pool a more attractive appearance.

Why Use a Stainless Steel Panel?

During our many years of selling above-ground pools, we have discovered that problems some-

times arise in the area of the thru-the-wall skimmer. The steel in this area is cut to facilitate the placement of the skimmer, and the exposed raw steel is vulnerable to rust. By using a stainless steel panel (which is rust-resistant) in the area of the thru-the-wall skimmer, we have eliminated this problem. It does cost a bit

more to provide this extra protection to the pool, but we at Branch Brook Company and Swim'n Play, Inc. have

always strived to improve the quality of our products and provide customers with the very best value for their hard-earned money.

Deluxe Wide-Mouth Skimmer

All the 2005 pool models from Branch Brook Company come with the Wide-Mouth Skimmer. The larger opening of the Wide-Mouth Skimmer makes it possible to remove more debris in less time than with traditional skimmers.

deck & fence

Aluminum Deck & Fence

Imagine lounging at the poolside with a cool drink on a hot summer day, watching your children splash playfully in your new above-ground pool, knowing you're mere steps away from joining them for a refreshing dip. With an extruded aluminum deck and fence from Branch Brook Company, you can lead this kind of luxurious lifestyle. Even better, you can add a deck and fence to your pool whenever you like. Your Branch Brook Company Sales Representative can help you determine which deck and fence style is right for your pool, and tell you about the special pool and deck packages we have to offer. Whether you decide to add a deck and fence to your pool at the time of purchase or years down the road, you will receive the same top-quality product and professional service you have come to expect from Branch Brook Company.

All decks and fences sold by Branch Brook Company are welded extruded aluminum, making them extremely durable and impervi-

End Deck & Fence with oval buttress pool.

ous to rust, and the modular, free-standing design makes them easy to assemble. All decks feature extruded aluminum out-ladders and a self-latching safety gate. Deck packages are available with a 36-inch high extruded aluminum fence which surrounds both the pool and deck areas for added safety and security. Our fence design features triangular pickets for maximum strength. Durable indoor/outdoor carpeting is available on all our decks. A Deluxe All-Resin In-Ladder is included with the purchase of an End Deck, Fan Deck, or Side Deck.

2-speed pumps

You can now customize your filter operation and save money!

Use high speed for vacuuming, water problems, and adding chemicals, or switch to low speed for continuous filtration and circulation.

Normal pumps run only at high speed (3450 RPM), drawing 1903 watts. By running in low-speed mode (1725 RPM) and drawing only 334 watts, two-speed pumps can save up to 55% off electrical costs. Two-speed

pumps are designed for continuous filtration; this improved filtration and circulation also reduces the chemical costs by cutting down on chemical usage. The result is a cleaner pool for less money!

Energy Cost Comparison

Single-Speed Pump Running for 10 Hours
1903 watts = 20.9 cents per hour*

20.9 cents per hour x 10 hours = \$2.09 per day
\$2.09 per day x 30 days = \$62.70 per month

Two-Speed Pump Running for 24 Hours (on low)

334 watts = 3.67 cents per hour*

3.67 cents per hour x 24 hours = 88¢ per day
88¢ per day x 30 days = \$26.40 per month

Savings = \$36.30 per Month
*Based on an average of 1¢ per kWh

ADDITIONAL CHARGES YOU WILL INCUR

Pool Base/Sand

You must buy pool base or sand to use as a base for your new pool. We recommend using both. Your sales representative will advise you as to how much you will need.

included in your base price by the majority of the installers is the cost of first five inches of leveling. Any grade leveling after 5" \$25.00 per inch.

Access to Pool Site

To level the ground where your pool is to be installed, the installer will use a machine called a Bobcat. This machine requires a minimum five-foot opening to the installation site. Any fencing must also be removed to allow entrance of the Bobcat. If for any reason, the Bobcat cannot gain access to the property, the ground will have to be leveled by hand, incurring an additional charge. Check with your installation company on charges.

To determine additional or optional costs, use this worksheet

_____ Foot pool installation cost with five inches
of leveling included (does not include decks or fences). \$ _____
After 5" of Leveling \$25.00 per inch \$ _____
Your installation after 5 inches of leveling will cost \$ _____

We at Branch Brook Company will not recommended any installer of Pools, it is the responsibility of the Pool Buyer to choose, below companies used by customers in the past, this can be your starting point.

HOMEOWNER'S POOL CERTIFICATION

FENCE REQUIREMENTS:

Outdoor private swimming pool: An outdoor private swimming pool, includes an in-ground, above-ground or on-ground pool, hot tub or spa shall comply with the following.

1. The top of the barrier shall be at least 48 inches above finished ground level measured on the side of the barrier which faces away from the swimming pool. The maximum vertical clearance between finished ground level and the barrier shall be 2 inches measured on the side of the barrier which faces away from the swimming pool. Where the top of the pool structure is above finished ground level, such as an above-ground pool, the barrier shall be at finished ground level, such as the pool structure, or shall be mounted on top of the pool structure. Where the barrier is mounted on the pool structure, the opening between the top surface of the pool frame and the bottom of the barrier shall not allow passage of a 4 inch diameter sphere.
2. Openings in the barrier shall not allow passage of a 4 inch diameter sphere.
3. Solid barriers shall not contain indentations or protrusions except for normal construction tolerances and tooled masonry joints.
4. Where the barrier is composed of horizontal and vertical members and the distance between the tops of the horizontal members is less than 45 inches, the horizontal members shall be located on the swimming pool side of the fence. Spacing between vertical members shall not exceed 1 1/4 inches in width. Decorative cutouts shall not exceed 1 1/4 inches in width.
5. Where the barrier is composed of horizontal and vertical members and the distance between the tops of the horizontal members is 45 inches or more, spacing between vertical members shall not exceed 4 inches. Decorative cutouts shall not exceed 1 1/4 inches in width.
6. Maximum mesh size for chain link fences shall be a 1 1/2 inch square unless the fence is provided with slats fastened at the top or the bottom which reduce the openings to not more than 1 1/4 inches.
7. Where the barrier is composed of diagonal members, such as a lattice fence, the maximum opening formed by the diagonal members shall be not more than 1 1/4 inches.
8. Access gates shall comply with the requirements of items 1 through 7, and shall be equipped to accommodate a locking device. Pedestrian access gates shall open outwards away from the pool and shall be self-closing and have a self-latching device. Gates other than pedestrian access gates shall have a self-latching device. Where the release mechanism of the self-latching device is located less than 54 inches from the bottom of the gate: (a) the release mechanism shall be located on the pool side of the gate at least 3 inches below the top of the gate and; (b) the gate and barrier shall not have an opening greater than 1/2 inch within 18 inches of the release mechanism.

BLOCK: 545 LOT: 1 ADDRESS: 454 Jackson Ave

In accordance with the NJAC 5:23-2.23, no pool shall be used in whole or in part until a Certificate of Approval has been issued by the Construction Official.

I certify that I am the owner of the above referenced pool being built. I further certify that the pool will not be used in whole or in part until a permanent fence is installed and a Certificate of Approval has been issued by the Construction Official.

I have read the fence requirements listed above and understand them.

CONSUMER ADVISORY OF HOME IMPROVEMENT CONTRACTOR REGISTRATION STATUS

This advisory is provided, in accordance with instructions from the New Jersey Division of Consumer Affairs, to give you important information about home improvement contracts and my status as an applicant for registration as a home improvement contractor. Please be advised that there is a new law, which went into effect on December 31, 2005, that requires any person engaged in the business of making or selling home improvements to be registered with the New Jersey Division of Consumer Affairs.

Prior to December 31, 2005, I filed a complete application for registration, paid the fee and demonstrated that I have obtained the commercial general liability insurance required under the law. I have not yet received a registration number; however, the Division of Consumer Affairs has notified municipal officials and applicants that, after December 31, 2005, applicants who have completed applications pending, which have not been denied, may continue to receive permits and make or sell home improvements while the application remains pending, without being deemed in violation of the law. Therefore, I am permitted to continue to obtain municipal construction permits without a registration number (unless my application for registration is denied). You should understand that the Division does not represent, warrant, or guarantee that the filing of a completed application will result in its approval.

In accordance with the direction of the New Jersey Division of Consumer Affairs, I have agreed to advise you immediately of any action taken by the Division regarding my application for registration. If you have any questions regarding this matter, you may contact the New Jersey Division of Consumer Affairs at 1-888-656-6225.

In signing this document, I acknowledge that I have made the above disclosures to the consumer whose signature appears below prior to the execution of the contract.
