CERTIFICATION IN LIEU OF OATH

I. OWNER SECTION

I hereby certify that I am the owner of the property listed on Page 1. This dwelling is to be occupied by myself and is not to be used for any purpose, other than single family residential use.

- A. ☐ I further certify that I prepared the plans submitted. This statement is made in accordance with the New Jersey Uniform Construction Code, N.J.A.C. 5:23-2.15(e)vii.
- B. ☐ I further certify that I will perform the work below.
 B1. ☐ Building B2. ☐ Electrical B3. ☐ Plumbing
- C. ☐ I further certify that a new home will be constructed on this property, for my use and occupancy. I attest that all design, construction, plumbing, or electrical work will be done by me or by subcontractors under my supervision, in accordance with all applicable laws; and further acknowledge that said new home is not covered under the New Home Warranty and Builders Registration Act (N.J.A.C. 46:3B-1 et. seq.) and that such fact shall be disclosed to any person purchasing this property within ten years of the date of issuance of a certificate of occupancy.
- D. ☐ I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I understand that if any of the above statements are willfully false, I am subject to punishment.

SIGNATURE _____ DATE _____

II. AGENT SECTION

I hereby certify that the work is authorized by the owner of record and I have been authorized by the owner to make this application as his agent.

I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I understand that if any of the above statements are willfully false, I am subject to punishment.

☐ Check if contractor.

Mr. Fred Holzman, AIA
Maslow - Miller - Holzman
Architects and Planners
400 Lincoln Blvd.
Middlesex, N.J. 08846

Dear Mr. Holzman:

This is with reference to your letter on the movie house
addition in Brick Township, N.J.

We searched our records and since we didn't see your
name we are enclosing membership material for your
information. As you know, BOCA is a membership
organization and the services are available for members
only.

In response, a fire suppression system would be required
in all areas other than those indicated, i.e.
auditorium, etc. (Sec. 1702.2, 1984 Basic/National
Building Code). Standpipes are not required. (Section
1711.2.1).

Very truly yours,

Manuel R. Dominguez

Subject: THEATRE

Block 670 Lot 5

AFFIDAVIT:

I Ernie Realty hereby request a temporary building permit to proceed with construction of footings and foundation (only) on the subject property at my own risk. I understand and acknowledge that the issuance of the full building permit is subject to further approvals as normally required. I understand that adjustments in the foundation and first floor elevation may be necessary in order to comply with the approved plot plan grading. The below department approvals are required prior to issuance of a temporary building permit.

CHECK LIST

Re: Block 670 Lot 5

Please be advised that your application for a construction permit for the subject property has been rejected due to deficiencies in the following areas:

Administrative	_____
Zoning	_____
Engineering	_____
Building	_____
Plumbing	<u>CAS PIPE</u>
Electric	_____
Fire	_____

See attached review check list (s) for details as to the reason your submission has been rejected. Please revise your application accordingly and resubmit to this office.

There is a 20 working day time limit for review of all documents submitted with a building permit application. This time limit ceases in the event of a rejection of any type, and starts over again when the rejection/(s) have been corrected and the application resubmitted.

DEED OF EASEMENT

MADE THIS 17th day of May, 1985, by and between:

KENNEDY MALL ASSOCIATES, having its principal office located at 241 Millburn Avenue, in the Township of Millburn, County of Essex and State of New Jersey, hereinafter referred to as the "Grantor";

AND:

MUSIC MAKERS THEATRES, INC., A Corporation of the State of New Jersey, having its principal office located at 1650 Oak Street, in the Township of Lakewood, County of Ocean and State of New Jersey, hereinafter referred to as the "Grantee".

W I T N E S S E T H:

WHEREAS, Kennedy Mall Associates is the owner of property known as Lots 4, 5, 8, 23 and 25 in Block 670, in the Township of Brick, County of Ocean and State of New Jersey and more particularly described in Schedule A attached hereto; and

WHEREAS, upon said property is erected a Shopping Center together with attendant parking; and

WHEREAS, Music Makers Theatres, Inc. has heretofore entered into a Lease Agreement with Kennedy Mall Associates for the lease of Tenant's building and a portion of the parking lot on property known as Lot 5 in Block 670, in the Township of Brick, County of Ocean and State of New Jersey; and

WHEREAS, Music Makers Theatres, Inc. has erected an addition to the Theatre which will increase their need for parking beyond that which is available on Lot 5 in Block 670; and

WHEREAS, Kennedy Mall Associates has agreed to grant to Music Makers Theatres, Inc. an easement for the use by their patrons, licensees and invitees of the parking facilities located on Lot 25 in Block 670;

NOW, THEREFORE, in pursuance to said agreement and for and in consideration of the sum of One (\$1.00) Dollar paid by each of the parties to each other, receipt of which is hereby acknowledged, and of the mutual covenants, agreements, conditions and stipulations therein contained, it is mutually covenanted, stipulated and agreed by and between the parties as follows:

1. GRANT. The Grantor hereby grants an Easement and Right-of-Way, together with the full and free right for their patrons, licensees and invitees to use the parking facilities located on Lot 25 in Block 670 and more particularly described in Schedule A attached hereto.

2. APPURTENANT. It is further understood and agreed that the easement granted herein is to be held by the respective Grantee, his, her and their heirs and assigns as appurtenant to the land leased by the Grantee.

IN WITNESS WHEREOF, the Grantor has hereunto set its hands and seals the day and year first above written.

COUNTY OF NASSAU) ss

TO WHOM IT MAY CONCERN:

This is to certify that the merchandise described below has been treated with the following
Flame-Retardant Chemical:

AMMONIUM SULFATE OF

1 #10 OZS. PER GALLON

Approval of this chemical for the purpose covered by this certificate has been accorded and
approved by the Board of Standards and Appeals of the City of New York, No. 822-40-SM,
and in conformance with the laws of the State of California and the Rules and Regulations
of the State Fire Marshal. A year's protection is provided.

As the flame-retardant chemical is water-soluble, dry cleaning should be employed when
needed.

REPORT OF TESTS April 19, 1977

Lab. No. & Client — 77-50493(B) - Van Arden Fabrics
Material — One (1) sample of Gold Burlap
Client's Order No. — Letter dated 4/18/77
Identification — Soundfold Flame Retarded Burlap 48-50" Width
Submitted for — Flame Resistance test in accordance with
NFPA-701 "Small Scale Test".

The Procedures used for this test are those outlined in Section 31 of NFPA - 701.

Required

When subjected to the small scale test described in Section 31, a material shall not continue flaming for more than two seconds after the test flame is removed from contact with the specimen. The vertical spread of flame and after-glow (smoldering combustion) on the material, as indicated by the length of char or the measurement from the bottom of the sample above which all material is sound and in original condition, shall not exceed the values listed herein.

Portions or residues of textiles or films which break or drip from the test specimens shall not continue to flame after they reach the floor of the tester.

Results

Property & Unit of Measurement, Average of ten (10) Specimens	Found	Required
Flaming after removal of flame, seconds	None	2" (max)
Drippings from test specimens	None	They shall not continue to flame after they reach the floor of the tester.
Permissible Maximum Average Length of char or destroyed material, inches	1.0625	5-1/2 (max)

Report on sample by client applies only to sample. Report on samples by us applies only to lot sampled.
Information contained herein is not to be used for reproduction except by special permission.
Samples retained for thirty days maximum after date of report unless specifically requested otherwise by client.
The liability of the New York Testing Laboratories, Inc. with respect to the services charged for herein shall in
no event exceed the amount of the invoice.

Lab No. 79-55083 (B)

INTRODUCTION

This report presents test results of flame spread and smoke developed values per ASTM E84-77a. The report also includes material identification, method of preparation, mounting and conditioning of the specimens.

The tests were performed in accordance with the specifications set forth in ASTM E84-77a, "Standard Test Method for Surface Burning Characteristics of Building Materials", both as to equipment and test procedure. This test procedure is similar to UL-723, ANSI No. 2.5, NFPA No. 255 and UBC 42-1.

The test results cover two parameters: flame spread and smoke developed values during a 10-minute fire exposure. Asbestos-cement board and red oak flooring are used as comparative standards and their responses are assigned arbitrary values of 0 and 100, respectively.

The performance of each material is evaluated in relation to the performance of asbestos-cement board and red oak flooring under similar fire exposure.

PREPARATION AND CONDITIONING

Cadabond 427 Insulation Adhesive was applied to three (3) 21" x 8'0" sections of A/C board. The test material was placed over the adhesive, rolled and allowed to cure.

The panels were conditioned at $73^{\circ} \pm 5^{\circ}$ F. and 50 ± 5 percent relative humidity.

TEST PROCEDURE

The tunnel was thoroughly pre-heated by burning natural gas. When the brick temperature, sensed by a floor thermocouple, had reached the prescribed $105^{\circ} \pm 5^{\circ}$ F. level, the sample was inserted in the tunnel and test conducted in accordance with the standard ASTM E-84-77a procedures.

The operation of the tunnel was checked by performing a 10-minute test with A/C board on the day of the test.

NEW YORK TESTING LABORATORIES, INC.

Page 3.

Lab No. 79-55083 (B)

TEST RESULTS **

The test results, calculated in accordance with ASTM E-84-77a for flame spread and smoke developed values are as follows:

Test Specimen:	Soundfold Burlap
Flame Spread Value: *	5
Smoke Developed Value: *	5

* Graphs of the flame spread, smoke developed and time-temperature are shown in Figures 1 and 2 at the end of this report.

OBSERVATIONS

Ignition was noted at 2 minutes and 15 seconds along with charring of the specimen directly exposed to the flame. The flame front advanced a maximum of 1 ft. at 5 minutes and 35 seconds. The specimen exhibited slight after-glow upon test completion.

** Note: Certain code authorities and regulatory agencies have not updated their requirements to conform with the most current issue of the ASTM Standard. Therefore, outlined below are flame spread, fuel contributed and smoke developed values as previously calculated in ASTM E-84-70. It should be noted that the following results are for information only.

Test Specimen:	Soundfold Burlap
Flame Spread Value:	5
Fuel Contributed Value:	5
Smoke Developed Value:	5

ATTN: Mr. David Tuckerman RE: Technikote Projection Screens
furnished for the Circle Theatre
in Bricktown, New Jersey

Dear Mr. Tuckerman,

This is to certify that Technikote Corporation manufactures
theatre screens with Flameproof material.

This material has been approved by the New York City Board of
Standards and Appeals, Calendar #195-76-SM. Also by California
State Fire Marshal #F-119.

Period of Fire Resistance is the life of the product.

Very truly yours,

TECHNIKOTE CORPORATION

REPORT NO. 28093

Certificate of Test

October 13, 1983

This report certifies laboratory testing on one fabric identified by client as:

Motion Picture Screen Material

submitted to determine:

FIRE RESISTANCE (City of New York)

	<u>FLASHING</u>	<u>AFTERFLAME (SECONDS)</u>	<u>AFTERGLOW AT EDGE OF CHAR (SECONDS)</u>
Length	No	0.0	0.0
Length	No	0.0	0.0
Length	No	7.0	0.0
Width	No	0.0	0.0
Width	No	4.0	0.0
Width	No	0.0	0.0
	Avg:	1.8	0.0

REQUIREMENTS

No flashing shall occur at any time on the length of the specimen. (Flashing due to fuzz or bad edges may be disregarded.)

Average afterflame shall not exceed three seconds.

Average afterglow at the edge of the charred area shall not exceed 20 seconds. (Glow confined to the charred area may be disregarded.)

-continued-

EVALUATION

This item does meet the above requirements when tested in accordance with Rules for Tests of Fire Resistive, Flameproofed Materials as specified by the City of New York Board of Standards and Appeals under Calendar No. 294-40 S.R.
