Re: Red Lion Plaze

Att: Pat Bottazzi

Dear Pat,

SHORE FIRE PROTECTION, INC., is pleased to submit our proposal for fire sprinkler work as follows:

Sprinklers

A one pipe system of up-right and pendant automatic sprinklers to be installed in the 65' x 240' store area below wood truss and 2 x 4 ceiling. Concealed piping for 144 up-right sprinklers to be installed above ceiling and 144 pendant sprinklers below. Ceiling is not to be erected until all piping has been tested and installed.
This system is to be installed in accordance with the rules and regulations governing a Group II occupancy as defined in NFPA pamphlet #13, with a design basis of sprinklers being spaced at 130 square feet each or less.

Special sprinklers

Install 26 dry pendant sprinklers in outside over hang.

Alarm

Install one 6" flow alarm and connection in each main supply to one wet pipe system.

Dry pipe system

One dry pipe system at roof level. 75 x 250' area requires 146 fire sprinklers heads.

Dry pipe valves

One 6" dry pipe valve and connections in each main supply to one dry pipe system.

Air compressor

One automatic electric drive air compressor to be furnished and installed at a location designated by the Seller.

Air piping

Air piping between dry pipe valve and air compressor.

Alarms

One electric alarm gong to be installed on wet system
One water motor alarm to be furnished and connected to one dry pipe valve. Gong to be located with 10 feet of valve.

Gate valves - check valves

Two 6" gate valves to be installed in the system
Two 6" check valves to be installed in the system
One 4" check valves to be installed in the system

Drain piping

Drain piping to properly drain system to be run to accessible place for discharge.

Supply piping

Schedule 40 and thinwall piping from sprinkler lines to connection with sprinkler system's mains.

Hangers

Necessary hangers in place for supporting the sprinkler piping. It is assumed that the structure is of adequate strenght to hold the sprinkler piping filled with water.

Sprinkler cabinet

One sprinkler cabinet with six sprinklers and sprinkler wrench to be provided for emergency use.

Fire department connection

One 4" fire department connection to be mounted where fire main enters the building.

Freight and hauling

Deliver materials to Buyer's jobsite, and do all local hauling and handling.

Tax

All applicable tax included

Work not included

Wiring of air compressor
6" fire main to inside of building
Wet tap and connections fees
Sprinkler will not be in center of tile
Permits and fees

Alternates

Add one pendant sprinkler $100.00 per head
Deduct " " "
Relocate one sprinkler $75.00

Payment terms

50% upon delivery of material to jobsite
40% upon complete roughing of the system
10% upon final system test.

Price

$37,500.00 33,600.

We thank you for the opportunity to sulmi; our proposal and look forward to doing business with you.

Very truly yours,
SHORE FIRE PROTECTION, INC.

Priest: Santa's dead

WOODBRIDGE (AP) — A priest's "zeal to emphasize the spiritual dimension" of Christmas prompted him to tell a group of youngsters that Santa Claus is dead and that Rudolph the Red-Nose Reindeer doesn't exist, church officials said Tuesday.

The Diocese of Metuchen issued a statement to clarify comments made by the Rev. Romano Ferraro at the St. John Vianney Roman Catholic Church in Colonia on Saturday.

"He tried to kill Santa," said Joanne Apolonia, a mother who attended the weekend Mass at the church with her Confraternity of Christian Doctrine class. "That's how the kids took it."

Mrs. Apolonia was with her daughter, a first-grader.

The sermon started "very nicely" with Ferraro explaining St. Nicholas' history and telling the children that the saint distributed presents to the poor, a forerunner of gift giving today, she said.

But Ferraro then said that just as Saint Nicholas is dead, so is Santa Claus, she said. He also said there is no North Pole and no Rudolph the Red-Nose Reindeer.

"The emphasis on the birth of Christ and his love always is to be paramount at Christmas," Father Francis J. Sergel, pastor at St. John's, said in the statement.

"It is unfortunate that Father Ferraro, in his zeal to emphasize the spiritual dimension of our celebration, may have appeared to diminish the importance which many, especially children, attach to some of the cultural and secular aspects of the season," Sergel said.

"We reget any lack of sensitivity and any disappointment or disillusionment on the part of children," Sergel added.

He also apoplogized for any awkwardness or difficulty the comments may have caused parents.

Ferraro could not be reached for comment Tuesday. His secretary, who would not give her name, said he would not be available all day.

Robert Madison, whose child also attended the Mass, said the parents "are going nuts" over the priest's comments.

As a follow-up to our recent discussion of the subject site this is to verify that you will contact the Department of Environmental Protection regarding the conditions that exist and further that you will advise Mr. Art Cierzo and Mr. Ed Izzo that no approval or permission is to be granted for construction beyond the footing and foundation without your approval.

I enclose for your file the duplicate copy of the photographs you took during our recent site inspection at the above referenced location.

Please keep me advised as to the ongoing status of this project.

Attention: Building Inspector

Re: Red Lion Plaza

Dear Sir/Madam:

We represent the Franklin Mutual Insurance Company in regards to a building collaspe at the Red Lion Plaza on Drum Point Road and Old Hooper Avenue in your town. This collaspe took place on January 18, 1987. I would greatly appreciate any reports and photograph(s) that may have been taken at the scene by your department. If you would be kind enough to advise me as to any cost involved, I would be happy to remit same immediately.

Thank you in advance for your anticipated cooperation in this matter.

Sincerely,

Dennis J. Fahey

Re: Red Lion Plaza

Dear Mr. Fahey,

We received your letter regarding the above referenced site, inquiring about reports that may have been prepared or photo's taken at the scene, when the collapse of roof took place on January 18, 1987.

I am enclosing a copy of the Stop Work Order, informing owner that to resume construction and in accordance to UCC, Special Technical Services are needed as well as Tests (copy enclosed). There were no photo's taken.

The owner elected to remove all collapsed roof material and building debris and rebuild that section from the footing on up, therefore, no special tech services were required to resume construction.

If I can be of further assistance, please don't hesitate to call.

Very truly yours,

Arthur J. Cierzo
Construction Official

AJC/tl

(f) Department inspections: At the request of an enforcing agency, the department may assist the enforcing agency in the inspection of any construction, provided that the enforcing agency has submitted the plans and specifications for such construction to the department.

(g) The construction official shall serve as an agent of the Bureau of Housing Inspection of the Department of Community Affairs for the purpose of inspecting newly constructed and altered hotels and multiple dwellings in order to enforce the provisions of the regulations for the maintenance of hotels and multiple dwellings (N.J.A.C. 5:10). Responsibility for inspection may be delegated to the appropriate subcode official(s).

5:23-2.19 Special technical services

(a) Whenever the construction official and the appropriate subcode official determine that a need for special technical services exists with regard to a particular project for which the municipal enforcing agency is classified to perform plan review, the construction official may require the applicant to obtain and furnish to the construction official at the applicant's expense, a report from a licensed engineer or registered architect. Such report shall contain the information deemed necessary by the construction official to aid in his determination. Such may include, but not be limited to:

1. Plan review services;
2. Site investigation;
3. Structural analysis;
4. Building systems analysis (that is, mechanical, electrical, vertical transportation, and so forth).

(b) The commissioner reserves the right to further regulate the performance of special technical services.

5:23-2.20 Tests

All tests as required by the provisions of the regulations shall be made and conducted under the direction of the enforcing agency and in accordance with such inspection and test procedures as may be prescribed by the provisions of the regulations with the expense of all tests to be borne by the owner or lessee, or the contractor performing the work. The construction official may accept tests and test reports of the department and other government agencies, and in lieu thereof, may accept signed statements and supporting inspection and test reports filed by qualified licensed professionals.

5:23-2.21 Construction control

(a) Responsibilities: The provisions of this section shall define the construction controls required for all buildings involving professional architecture/engineering
