REQUIRED INSPECTIONS

Construction work must be inspected in accordance with the State Uniform Construction Code Regulations N.J.A.C. 5:23-2.18. This agency will carry out such periodic inspections during the progress of work as are necessary to insure that the work installed conforms with the requirements of the Uniform Construction Code.

The owner or other responsible person in charge of work must notify this agency when work is ready for any required inspections specified below. Requests for inspections must be made at least 24 hours prior to the time the inspection is desired. Inspections will be performed within three business days of the time for which they are requested. The work must not proceed in a manner which will preclude the inspection until it has been made and approval granted.

☑ Required inspections for all subcodes for one- and two-family dwellings are as follows:

1. The bottom of footing trenches before placement of footings, except that in cases of pile foundations, inspections shall be made in accordance with the requirements of the building subcode.
2. Foundations and all walls up to grade level prior to back filling.
3. All structural framing, connections, wall and roof sheathing and insulation; electrical rough wiring, panel and service installation; rough plumbing. The framing inspection shall take place after the rough electrical and plumbing inspections and after the installation of the heating, ventilation and /or air conditioning duct system. The insulation inspection shall be performed after all other subcode rough inspections and prior to the installation of any interior finish material.
4. Installation of all finished materials, sealings of exterior joints, plumbing piping, trim and fixtures; electrical wiring, devices and fixtures; mechanical systems equipment.

Additional required inspections for all subcodes of construction, for other than one- and two-family dwellings, are fire suppression systems, heat producing devices and Barrier Free subcode accessibility, if applicable.

☐ Required special inspections. The applicant by accepting the permit will be deemed to have consented to these requirements:

☑ A final inspection is required for each applicable subcode area before a final Certificate of Occupancy or Approval may be issued. The final inspections include the installation of all interior and exterior finish materials, sealing of exterior joints, mechanical system and other required equipment; electrical wiring, devices and fixtures; plumbing pipes, trim and fixtures; tests required by any provision of the adopted subcodes, Barrier Free accessibility, if applicable; and verification of compliance with NJAC 5:23-3.5, "Posting structures".

☑ A complete copy of released plans must be kept on the job site.

If you do not understand any of this information, please ask.

MAY 08 2014

Dear Mr. Verbos,

It has been brought to my attention that there is some confusion with the drawings for the above referenced project – and the electrical work involved – which has caused a lengthy delay in the issuing of the electrical permit.

Attached are two (2) complete signed and sealed sets of drawings for the above referenced project which includes drawings E000 and E100.

The architectural drawings also indicate the locations of the existing corridor lighting fixtures - which are not being replaced as was the case with Brick Memorial High School.

As was also the case with Brick Memorial High - the lights will be reinstalled as follows:

Lay-in Ceiling Lighting Fixtures Supports: Use grid as a support element.

1. Install ceiling support system rods or wires, independent of the ceiling suspension devices, minimum of two for each fixture. Locate not more than 6 inches from lighting fixture corners.
2. Support Clips: Fasten to lighting fixtures and to ceiling grid members at or near each fixture corner with clips that are UL listed for the application. minimum of two for each fixture
3. Fixtures of Sizes Less Than Ceiling Grid: Install as indicated on reflected ceiling plans or center in acoustical panel, and support fixtures independently with at least two 3/4-inch metal channels spanning and secured to ceiling tees.

4. Install at least two independent support rods or wires from structure to a tab on lighting fixture. Wires or rods shall have breaking strength of the weight of fixture at a safety factor of 3.

Please feel free to call should you have any questions or require any additional information. I can be reached at 732-560-7900 Ext. 112 or by e-mail at frankb@drgaia.

Dear Patrick Seiwell,

The permit applications for the HVAC Upgrades to server/Computer Rooms at Brick Township High School, Brick Memorial High School & Veterans Memorial Elementary School in Brick Township's public schools have been reviewed by our electrical sub code, plumbing sub code and building sub code official. It has been determined the plans are satisfactory but this office cannot release the permit until the contractor information, with seal and signature has been updated to our office .

If you have any questions, please do not hesitate to contact me at 732-262-1030.

Thank you for your anticipated cooperation.

Sincerely,

Daniel Newman, Jr.

DOE Project #: 0530-020-10-1080

Dear Mr. Newman:

The New Jersey Department of Education (NJDOE) has forwarded the above-referenced school district's request for permission to allow your agency to perform plan review in accordance with the requirements of the New Jersey Uniform Construction Code (NJUCC). The New Jersey Department of Community Affairs hereby grants the requested permission.

Please be aware that it is your agency's responsibility to ensure the NJDOE has issued final educational adequacy approval or has determined no such approval is required. Furthermore, your agency must obtain the plans that have been approved by the NJDOE from the school district or its design professional.

In addition to plan review for compliance with all of the subcodes of the NJUCC, as they may be applicable, it is also your responsibility to ensure compliance with N.J.A.C. 5:23-3.11A(c) and the NJDOE's public school facility requirements enumerated in Bulletin #00-3, as appropriate.

If you have any questions, please feel free to contact this office at (609) 984-7609.

Sincerely,

John N. Terry
