Mr Bernard J. Reilly
Plumbing subcode official
Twp. of Brick, NJ

Laurelton Park Baptist Church
1595 Hwy 88
Block 821; Lot 19

Dear Mr Reilly:
Enclosed, please find our application for a variation.
As per our discussions on this matter we also enclose a water usage printout from the BTMUA.
Enclosed also is my water usage for the past year.
We have a 3/4" service with a 3/4" meter which services three people who regularly use (2) toilets, (2) basins, (2) showers, (1) kitchen sink w/ dishwasher, (1) clothes washer, and (2) hose bibbs. As you can see the church's water usage is substantially lower than mine.
It is our contention that any damage that may occur in the water piping as a result of high velocity is virtually non-existent. However, if such a problem should occur at a later time we would address it then.
Thankyou for your consideration on this matter.

Sincerely:

Robert Surbrug, President

APPLICANT STATEMENT

Please state the requirements of the subcode from which a variation is sought. (Use separate application forms for each variation request).: 10.14.1 Water distribution piping....sized according to Appendix B.6. Having been determined that the existing 3/4" water service needs to be upsized to 1"

How would compliance with said provisions result in practical difficulties? Explain the nature and extent of these difficulties.: Installation of a 1" water service would require cutting through the blacktop parking lot. BTMUA requires that a 1" tap from the road to a new curb stop would also be required. This entails cutting the road surface also resulting in possible setling of the road and parking lot requiring further repairs in the future.

Please state an alternative to the subcode requirement that will still protect the health, safety and welfare of the occupants.: Since we would only be required to connect the inside piping to the first tee the velocity problems which may exist would only be alleviated at the main service. We propose to change the entire 3/4" main water piping inside with 1". The overall benefit would be aloser to the intent of the code.
