Dear Mr. Newman,

Please find the enclosed items in reference to the above mentioned project:

1. (2) Complete sets of plans, signed and sealed by the Architect.

This is a copy of the bid set of drawings that includes G-Series sheets which are general notes and drawing A1.1 that simply references the mechanical work detailed on the mechanical and electrical drawings. It also depicts ceiling and lighting replacements that the Brick Board of Education has decided to ***not*** do at this time.

We wanted to submit these for your records as the G and A series drawings were not part of the permit set of drawings submitted last summer.

Please feel free to call should you have any questions or require any additional information. I can be reached at 732-560-7900, Ext. 112 or by e-mail at frankb@drgaia.com.

Dear Mr. Seiwell:

It is the understanding of this office that the selection of contractors for the above project will not take place until the review of the construction plans and permit application is completed.

This office has reviewed the permit application for the above-referenced project. It has been determined that the submitted application and the associated construction documents, plans, and specifications are satisfactory and indicate substantial compliance to the construction codes.

Prior to issuing the permits, the applicant is required to provide contractor information. Once contractors have been determined, some additional information may be required from the contractors such as additional shop drawings, manufacturer installation instructions for specific materials and contractor licensing information.

If you have any questions, please contact the Division of Inspections at 732-262-1030.

Subject: Incomplete Applications

Hello David,

We are in receipt of the school applications for the HVAC systems. The following require a plumbing tech to be completed for the A/C units:

Vets Memorial Middle School
Drum Point Elementary School
Lake Riviera Middle School

Also a reminder, we will require a change of contractors before the applications will be approved through building, electric and plumbing. This includes the above schools and Osbornville Elementary School.

Once I receive the plumbing techs for each school, I can proceed with the review process.

I will be entering the applications for Emma Havens and Lanes Mill Schools for the exterior doors and electric. But again, we will require the change of contractors for all applicable subcodes. (Electric and plumbing)

Thank you
Have a great Day!

Dear Mr. Newman:

The New Jersey Department of Education (NJDOE) has forwarded the above-referenced school district's request for permission to allow your agency to perform plan review in accordance with the requirements of the New Jersey Uniform Construction Code (NJUCC). The New Jersey Department of Community Affairs hereby grants the requested permission.

Furthermore, your agency must obtain the plans that have been approved by the NJDOE from the school district or its design professional.

In addition to plan review for compliance with all of the subcodes of the NJUCC, as they may be applicable, it is also your responsibility to ensure compliance with N.J.A.C. 5:23-3.11A(c) and the NJDOE's public school facility requirements enumerated in Bulletin #00-3, as appropriate.
