REQUIRED INSPECTIONS

Construction work must be inspected in accordance with the State Uniform Construction Code Regulations N.J.A.C. 5:23-2.18. This agency will carry out such periodic inspections during the progress of work as are necessary to insure that the work installed conforms with the requirements of the Uniform Construction Code.

The owner or other responsible person in charge of work must notify this agency when work is ready for any required inspections specified below. Requests for inspections must be made at least 24 hours prior to the time the inspection is desired. Inspections will be performed within three business days of the time for which they are requested. The work must not proceed in a manner which will preclude the inspection until it has been made and approval granted.

- ☒ Required inspections for all subcodes for one- and two-family dwellings are as follows:

1. The bottom of footing trenches before placement of footings, except that in cases of pile foundations, inspections shall be made in accordance with the requirements of the building subcode.
2. Foundations and all walls up to grade level prior to back filling.
3. All structural framing, connections, wall and roof sheathing and insulation; electrical rough wiring, panel and service installation; rough plumbing. The framing inspection shall take place after the rough electrical and plumbing inspections and after the installation of the heating, ventilation and/or air conditioning duct system. The insulation inspection shall be performed after all other subcode rough inspections and prior to the installation of any interior finish material.
4. Installation of all finished materials, sealings of exterior joints, plumbing piping, trim and fixtures; electrical wiring, devices and fixtures; mechanical systems equipment.

Additional required inspections for all subcodes of construction, for other than one- and two-family dwellings, are fire suppression systems, heat producing devices and Barrier Free subcode accessibility, if applicable.

- ☐ Required special inspections. The applicant by accepting the permit will be deemed to have consented to these requirements:

- ☒ A final inspection is required for each applicable subcode area before a final Certificate of Occupancy or Approval may be issued. The final inspections include the installation of all interior and exterior finish materials, sealing of exterior joints, mechanical system and other required equipment; electrical wiring, devices and fixtures; plumbing pipes, trim and fixtures; tests required by any provision of the adopted subcodes, Barrier Free accessibility, if applicable; and verification of compliance with NJAC 5:23-3.5, "Posting structures".

- ☐ A complete copy of released plans must be kept on the job site.

Dear Mr. Newman,

Please find the enclosed items in reference to the above mentioned project:

1. (2) Complete sets of plans, signed and sealed by the Architect.

This is a copy of the bid set of drawings that includes G-Series sheets which are general notes. Drawings A1.1 and A1.2 indicate the locations of the mechanical work detailed on the mechanical and electrical drawings. They also indicate ceiling and lighting replacements that the Brick Board of Education has elected to *not* do at this time. Drawing A1.3 details the work being done adjacent to the Wood Shop.

We wanted to submit these for your records as these were not part of the permit set of drawings submitted last summer.

Please feel free to call should you have any questions or require any additional information. I can be reached at 732-560-7900, Ext. 112 or by e-mail at frankb@drgaia.com.

Dear Mr. Newman,

This is to advise you that the Brick Board of Education is not proceeding with plans to replace the corridor ceilings as shown on drawings A1.1 and A1.2 of the above referenced project (and reviewed by your office). The contractor for this project, Midcoast Mechanical is only proceeding with the HVAC upgrades.

Please feel free to call should you have any questions or require any additional information. I can be reached at 732-560-7900, Ext. 112 or by e-mail at frankb@drgaia.com.

Incomplete Applications

Hello David,

We are in receipt of the school applications for the HVAC systems. The following require a plumbing tech to be completed for the A/C units:

*Vets Memorial Middle School
Drum Point Elementary School
Lake Riviera Middle School*

Also a reminder, we will require a change of contractors before the applications will be approved through building, electric and plumbing. This includes the above schools and Osbornville Elementary School.

Once I receive the plumbing techs for each school, I can proceed with the review process.

I will be entering the applications for Emma Havens and Lanes Mill Schools for the exterior doors and electric. But again, we will require the change of contractors for all applicable subcodes. (Electric and plumbing)

**Thank you
Have a great Day!**

Dear Mr. Newman:

The New Jersey Department of Education (NJDOE) has forwarded the above-referenced school district's request for permission to allow your agency to perform plan review in accordance with the requirements of the New Jersey Uniform Construction Code (NJUCC). The New Jersey Department of Community Affairs hereby grants the requested permission.

Please be aware that it is your agency's responsibility to ensure the NJDOE has issued final educational adequacy approval or has determined no such approval is required. Furthermore, your agency must obtain the plans that have been approved by the NJDOE from the school district or its design professional.

In addition to plan review for compliance with all of the subcodes of the NJUCC, as they may be applicable, it is also your responsibility to ensure compliance with N.J.A.C. 5:23-3.11A(c) and the NJDOE's public school facility requirements enumerated in Bulletin #00-3, as appropriate.

If you have any questions, please feel free to contact this office at (609) 984-7609.

Dear Mr. Seiwel:

It is the understanding of this office that the selection of contractors for the above project will not take place until the review of the construction plans and permit application is completed.

This office has reviewed the permit application for the above-referenced project. It has been determined that the submitted application and the associated construction documents, plans, and specifications are satisfactory and indicate substantial compliance to the construction codes.

Prior to issuing the permits, the applicant is required to provide contractor information. Once contractors have been determined, some additional information may be required from the contractors such as additional shop drawings, manufacturer installation instructions for specific materials and contractor licensing information.

If you have any questions, please contact the Division of Inspections at 732-262-1030.

Very truly yours,

Daniel F. Newman, Jr.
