[illegible][illegible][illegible]

1. The first step in the process of creating a new product is to identify a market need. This involves conducting market research to understand the preferences and behaviors of potential customers. Once a need is identified, the next step is to develop a concept that addresses this need. This concept should be innovative and differentiated from existing products in the market.

[illegible][illegible]

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the team.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources needed to complete each task.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress regularly to ensure that the project is on track.

5. The final step is to evaluate the results of the project. This involves comparing the actual outcomes with the objectives and goals to determine the effectiveness of the project and identify areas for improvement.

Mr. Buono
237 Circle Drive
Brick, NJ 08723

Dear Mr. Buono:

You are currently holding permit #97-2325 for an addition at 237 Circle Drive and you have not received the following inspections:

FIRE, BUILDING, PLUMBING, ELECTRIC

Please be advised that under the State Uniform Construction Code all inspections must be made before work can proceed to become completed. If it is found that work had been completed without the proper inspections obtained you are in violation of NJAC 5:23-2.18 which entails a fine of up to \$500. Please contact the office at 262-4627 to schedule your inspection within the next seven days.

Thank you for your cooperation on this matter.

Sincerely,

Joseph P. Curiazza
