Re: Final Inspection, Block 840, Lot 1

Dear Sir:

This is to confirm the reason for this inspection, which was to reintroduce power to the existing service. It was cut by GPU at our request so that the well driller could safely work on the deep well for the MUA. No additional work was done to the electrical service. If you would like to make another inspection, please contact our office so we can coordinate it with GPU and the MUA.

Should you have any questions, please contact our office.

Very truly yours,

D.J. ADAMS, INC.

Donald J. Adams
