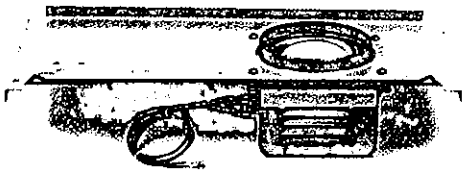
SoftSound™ 80 Gas Furnace
Specially Designed
For Quiet Operation
Comfortmaker
Air Conditioning & Heating

Often Imitated, Never Duplicated

While other major manufacturers now offer non-welded heat exchangers, it's important to remember that we pioneered this technology, introduced the industry's first non-welded heat exchanger, and have more experience with it than any other manufacturer. In fact, the RPJ II is our second generation of non-welded heat exchanger!

Chimney Swift

If your new furnace will be vented through a tile-lined masonry chimney, our chimney venting kit could also mean big savings. In most situations, a chimney with a fan-assisted 80% AFUE furnace vented through it may require the installation of a protective metal lining system. Our chimney venting kit changes the characteristics of vent gases, preventing chimney damage. It eliminates the need for an exclusive metal chimney liner in most applications! Its unique, patented design is another innovation you'll find only with Comfortmaker equipment.



We Stand Behind It

Every Comfortmaker SoftSound 80 gas furnace is covered by a 20 year limited warranty on the heat exchanger, and a 5 year limited warranty on all other parts—see actual warranty certificate for complete details. Get the big time comfort and energy efficiency your home deserves, with a Comfortmaker SoftSound 80 gas furnace!

RE: Letter of Interpretation/Line Verification
File No.: 1506-01-0105.1
Applicant: Kristi – Shay Construction
Block(s): 834, Lot(s): 5-8, 9-12
Brick Township, Ocean County

Dear Mr. Leonard:

This letter is in response to your request for a Letter of Interpretation to verify the jurisdictional boundary of the freshwater wetlands and waters on the referenced property.

In accordance with agreements between the State of New Jersey Department of Environmental Protection, the U.S. Army Corps of Engineers Philadelphia and New York Districts, and the U.S. Environmental Protection Agency, the NJDEP, Land Use Regulation Program is the lead agency for establishing the extent of State and Federally regulated wetlands and waters. The USEPA and/or USACOE retain the right to reevaluate and modify the jurisdictional determination at any time should the information prove to be incomplete or inaccurate.

Based upon the information submitted, and upon a site inspection conducted on August 14, 2001, the Land Use Regulation Program has determined that the wetlands and waters boundary line(s) as shown on the plan map entitled "SURVEY OF PROPERTY/ WETLANDS PLAN LOTS 5 THRU 12 BLOCK 834 SITUATED IN BRICK TOWNSHIP OCEAN COUNTY N.J." dated June 13, 2001, unrevised and prepared by Anthony B. Koval, Professional Land Surveyor, are accurate as shown.

Any activities regulated under the Freshwater Wetlands Protection Act proposed within the wetlands or transition areas or the deposition of any fill material into any water area, will require a permit from this office unless exempted under the Freshwater Wetlands Protection Act, N.J.S.A. 13:9B-1 et seq., and implementing rules, N.J.A.C. 7:7A. A copy of this plan, together with the information upon which this boundary determination is based, has been made part of the Program's public records.

Pursuant to the Freshwater Wetlands Protection Act Rules (N.J.A.C. 7:7A-1 et seq.), you are entitled to rely upon this jurisdictional determination for a period of five years from the date of this letter.

The freshwater wetlands and waters boundary line(s), as determined in this letter, must be shown on any future site development plans. The line(s) should be labeled with the above LURP file number and the following note:

"Freshwater Wetlands/Waters Boundary Line as verified by NJDEP."

In addition, the Department has determined that the wetlands on the subject property are of intermediate resource value and the standard transition area or buffer required adjacent to these wetlands is 50 feet. These classifications may affect the requirements for an Individual Wetlands Permit (see N.J.A.C. 7:7A-3), the types of Statewide General Permits available for the wetlands portion of this property (see N.J.A.C. 7:7A-9) and the modification available through a transition area waiver (see N.J.A.C. 7:7A-7). Please refer to the Freshwater Wetlands Protection Act (N.J.S.A. 13:9B-1 et. seq.) and implementing rules for additional information.

It should be noted that this determination of wetland classification is based on the best information presently available to the Department. The classification is subject to change if this information is no longer accurate, or as additional information is made available to the Department, including, but not limited to, information supplied by the applicant.

This letter in no way legalizes any fill, which may have been placed, or other regulated activities, which may have occurred on-site. Also this determination does not affect your responsibility to obtain any local, State, or Federal permits which may be required.

In accordance with N.J.A.C. 7:7A-12.7, any person who is aggrieved by this decision may request a hearing within 30 days of the decision date by writing to: New Jersey Department of Environmental Protection, Office of Legal Affairs, Attention: Adjudicatory Hearing Requests, P.O. Box 402, Trenton, NJ 08625-0402.

This request must include a completed copy of the Administrative Hearing Request Checklist.

Please contact Vivian M. Fanelli of our staff at (609) 984-0288 should you have any questions regarding this letter. Be sure to indicate the Program's file number in all communication.

Andrew Heyl
