Dear Sir,

A routine inspection revealed that a violation exists due to additional work done without a construction permit and storage in basement.

A construction permit is required whenever partitions or rooms are created in a basement area. Also storage in this area does require a sprinkler system, a domestic system is acceptable. The use of extension cords as permanent wiring is not acceptable. Please have electrical outlets installed by a licensed electrician who will obtain an electrical permit for the electrical work that has to be done.

A Certificate of Approval was issued upon the completion of the addition and alteration to this building on December 14, 1987. The plans did not show anything being done in the basement area.

Please respond to this request immediately or a violation and summons will follow.

Very truly yours,

Arthur J. Cierzo

Re: Site Plan Modifications
Lots 1 & 2, Block 852 - Route #88 West

Enclosed please find plan entitled "Survey Lots 1 & 2: Block 852, Brick Township, Ocean County, New Jersey" prepared by George W. Henn, P.E. & L.S. with latest revision date of June 8, 1987. This plan, which has been administratively approved by this office, reflects certain modifications to the existing commercial shopping center located on the subject property necessitated by the widening of Route #88 in connection with the Laurelton Circle project.

Please contact me if you have any questions regarding the above.
