3. Change in Use Group, Indicate Former:

CERTIFICATION IN LIEU OF OATH

I. OWNER SECTION (to be completed if the applicant is the owner in fee)

I hereby certify that I am the owner in fee of the property listed on Page 1.

Mark the following applicable boxes:

A. ☐ I further certify that a new home (private residence) will be constructed on this property for my own use and occupancy. This dwelling is to be occupied by myself and is not to be used for any purpose other than single family residential use. I attest that all construction, plumbing, or electrical work will be done, in whole or in part, by me or by subcontractors under my supervision, in accordance with all applicable laws; and, I further acknowledge that said new home is not covered under the New Home Warranty and Builders Registration Act (N.J.S.A. 46:3B-1 et seq.) and that such fact shall be disclosed to any person purchasing this property within ten years of the date of issuance of a certificate of occupancy.

I UNDERSTAND THAT IN MARKING BOX A, I ACKNOWLEDGE THAT I AM ASSUMING RESPONSIBILITY FOR THE WORK DONE ON SAID PROPERTY, THE CONDITION OF THE PROPERTY PRIOR TO, DURING, AND AFTER ANY WORK PERFORMED, AND FOR THE PERFORMANCE OF THE SUBCONTRACTORS I HIRE, EMPLOY, OR OTHERWISE CONTRACT OR WITH WHOM I MAKE AGREEMENTS TO PERFORM WORK. I AM VOLUNTARILY AND KNOWINGLY ASSUMING THIS RESPONSIBILITY.

B. ☐ I further certify the following as required by the New Jersey Uniform Construction Code, N.J.A.C. 5:23-2.15(e)1.vii:

I personally prepared the plans submitted for: 1) the new home referred to in A.; or, 2) an addition, alteration, renovation, or repair to an existing single family residence owned and occupied by myself and located on the property listed on Page 1; or, 3) a new structure that will be physically separate from, but that will be deemed part of, an existing single family residence that is owned and occupied by myself and located on the property listed on Page 1.

C. ☐ I further certify that I will perform or supervise the following work:

C.1. ☒ Building C.2. ☐ - Fire Protection

I further certify that I will perform the following work:

C.3. ☒ Electrical C.4. ☒ Plumbing

D. ☐ I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I understand that if any of the above statements are willfully false, I am subject to punishment.

Signature

Date

II. AGENT SECTION (to be completed if the applicant is not the owner in fee)

I hereby certify the following as required by the Uniform Construction Code, N.J.A.C. 5:32-2.15(d): the proposed work is authorized by the owner in fee; and I have been authorized by the owner in fee to make this application as his agent.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I understand that if any of the above statements are willfully false, I am subject to punishment.

Only use these tags: `<math>`, `<img alt="Figure 1: A line graph showing the relationship between the number of people in a group and the time taken to make a decision. The x-axis is labeled 'Number of people in group' and ranges from 1 to 10. The y-axis is labeled 'Time taken to make a decision (minutes)' and ranges from 0 to 10. The data points are: (1, 1), (2, 2), (3, 3), (4, 4), (5, 5), (6, 6), (7, 7), (8, 8), (9, 9), (10, 10). A straight line is drawn through the points, starting at (1, 1) and ending at (10, 10). The line is labeled 'Time taken to make a decision (minutes)'.`

[illegible][illegible]

1. The first step in the process of identifying a problem is to recognize that a problem exists. This is often done by comparing current performance with a desired state or goal. If there is a significant difference, a problem is identified.

Q. Now, you said that you were not sure if you were going to be able to find the person who was the driver of the car that was involved in the accident, is that right?

G6RC Series

High Efficiency / Direct Vent or Non Direct Vent

Condensing Upflow Gas Furnace

Induced Draft - 90+ AFUE Input 40,000 - 120,000 Btuh

The high efficiency upflow gas furnace may be installed free standing in a utility room, basement, or enclosed in an alcove or closet. The extended flush jacket provides a pleasing "appliance appearance." Design certified by the American Gas Association (AGA) Laboratories and the Canadian Gas Association (CGA) Laboratories. The product is truly designed with the contractor and the consumer in mind.

Features and Benefits

Best warranty in the business —

- A lifetime warranty on the heat exchanger
- 6-year limited warranty on all parts
- 100% fired and tested — All units and each component (both mechanical and electrical) are tested on the manufacturing line.
- Best packaging in the industry — Unique design assures product will arrive to the homeowner dent free.
- Clean and quiet operation — Due to the unique design of in-shot burners, location of inducer and use of insulation.
- Fixed 30 second blower delay at burner start-up assures a warm duct temperature at furnace start-up. Adjustable blower off settings (60, 120, 160 and 180 seconds).
- Fixed 30-second post purge increases life of heat exchanger.
- Dependable, shock-mounted hot surface ignitor — Innovative application of an appliance type ignitor with a 20-year history of reliability, assures no call-backs because of handling.
- Color coded wire harness — Designed to fit the components, all with quick-connect fittings for ease of service and replacement.
- Tubular primary heat exchanger — Heavy gauge aluminized steel heat exchanger assures a long life.
- Stainless steel secondary heat exchanger assures a long life.
- 90-second fixed cooling cycle blower-off delay (TDR) increases cooling performance when matched with a NORDYNE coil.
- Approved for direct vent furnace, category IV venting system — May be vertically or horizontally vented using either a one-pipe or two-pipe system for maximum flexibility in installation.

- Variable speed blower kit is available to maximize air conditioner and heat pump efficiencies. On selected units, SEER ratings up to 14 and HSPF ratings up to 8.5 are ARI listed.
- Multi-speed direct drive blower — Designed to give a wide range of cooling capacities. 40VA transformer included.
- LP convertible — Simple burner orifice and regulator spring change for ease of convertibility.
- Factory installed drain system for reliable performance.
- Diagnostic light flashes identify limit failure, pressure switch failure and improper ground and polarization — for easy troubleshooting.
- Incorporates new integrated control board with connections for electronic air cleaner, humidifier and twinning.
- New two piece door design enhances furnace appearance and uses screw fasteners for great fit and accessibility.
- 3 amp fuse protection against high and low voltage shorts; protects transformer and control board.
- Low voltage terminal board for easy field wiring.
- Components and Controls — Designing quality into our products means selecting manufacturers that have a reputation for delivering high quality, dependable products.

FEATURES

High Efficiency Upflow 90+ Gas Furnace

STANDARD EQUIPMENT

Direct vent; draft inducer; pressure switch; redundant main gas control; hot-surface ignition; timed ON/OFF blower controls (TDR); 40VA transformer for air conditioner application; limit controls; direct drive motor; all models can be converted to use L.P. (propane) gas. Factory approved kits *only* must be used and are available as an optional accessory from your NORDYNE distributor.

* Factory wired cooling speed tap. ** Factory wired heating speed tap. - Not Recommended

NOTE: Airflow rates of 1800 CFM or more require two air return connectors. Data is for operation with filters.

NOTE: Temperature rise in the table are approximate. Actual temperature rises may vary.

IDENTIFICATION CODE

VENTING

All models are approved for vertical non direct (1 pipe) and direct (2 pipe) venting applications. See Vent Table below for specified sizes and allowable lengths.

VENT TABLE

APPLICATION PVC, CPVC or ABS SCH. 40 Pipe Size	SINGLE PIPE LENGTH (ft.) with 1 long radius elbows*.		DIRECT VENT, DUAL PIPE LENGTH (ft.) with 1 long radius elbows on each pipe.*					
	Outlet 2"	Outlet 3"	Inlet/Outlet 2"	Inlet/Outlet 2"	Inlet/Outlet 3"	Inlet/Outlet 2"	Inlet/Outlet 3"	Inlet/Outlet 3"
Models G6RC, D, L 040	80	150	40	40	50	50	90	90
Models G6RC, D, L 060 & 080	60	150	30	30	35	35	90	90
Models G6RC, D, L 100 & 120	30	150	15	15	25	25	90	90

* NOTE:

1. Subtract 2.5 ft. for each additional 2" elbow and 3.5 ft. for each additional 3" elbow.
2. Two 45 degree elbows are equivalent to one 90 degree elbow.
3. One short radius elbow is equivalent to two long radius elbows.
4. Do not include termination elbows in calculation of vent length.
5. This table is applicable for elevations from sea level to 2000 ft. For higher elevations decrease vent pipe lengths by 8% per 1000 ft. of altitude.
6. Only the above pipe materials are approved for use with G6 Condensing Furnaces.

GENERAL TERMS OF LIMITED WARRANTY **

NORDYNE will furnish a replacement for any part of this product which fails in normal use and service within the applicable periods stated below, in accordance with the terms of the warranty.

G6RC Models Warranty

Gas Heat Exchanger Lifetime Limited Warranty*
Any Other Part 6-Year Limited Warranty

* For original owner only – not transferable.

** For complete details of the Limited Warranty, including applicable terms & conditions, see your local installer or contact the factory for a copy.

As an Energy Star Partner, NORDYNE has determined that this product meets the Energy Star guidelines for energy efficiency.

The ultimate
in residential
home comfort

High-efficiency gas furnaces

High-efficiency home comfort

When it's cold outside, you can make your home cozy inside with the help of a dependable furnace. It not only keeps your home warm and comfortable, but it's also energy efficient, quiet and built to last. Our systems are designed with your comfort in mind. And your contractor will help you find the right furnace to meet your heating requirements and your budget. Our contractors are chosen for their integrity, reliability and expertise. So you'll be dealing with both a company and a person you can trust. When you choose our quality products, your comfort extends well beyond the temperature of your home.

THE ECONOMY OF ENERGY-EFFICIENT GAS FURNACES

If your furnace is over 10 years old, chances are it's only around 60% efficient. That means almost half of every dollar you spend heating your home is wasted. Worse yet, studies have shown that if a furnace is not well maintained, its efficiency may drop even more.

With one of our high-efficiency furnaces, it's easy to save money on your energy bill and improve your comfort level at the

same time. We offer a complete line of upflow, downflow and horizontal gas furnaces with A.F.U.E. energy efficiencies ranging from 80% to 93.5%. Which means more of your money is working for you.

What's more, all of our 90+ furnaces meet the guidelines for energy efficiency as described in the Environmental Protection Agency (EPA) Energy Star program. Use of Energy Star products maximizes your monthly energy savings, comfort and indoor air quality while also helping reduce the nation's energy consumption and pollution.

Choosing the right efficiency furnace for your home depends on three important variables:

- the number of heating hours required
- the size of your home
- the cost of fuel in your area

Based on these variables, your experienced contractor can recommend the furnace that will give you the best return on your investment.

THE RELIABILITY OF QUALITY DESIGN AND MANUFACTURE

You can feel confident that your gas furnace will give you a long life of efficient, trouble-free service. Every one of our furnaces represents proven technology, sturdy construction and many other features that ensure its safety and durability.

Our efficient, serpentine-design heat exchangers provide quiet operation and long life. They are assembled with mechanical expansion connections rather than welds, which eliminates the risk of weld joint failure and makes the heat exchanger much less susceptible to corrosion. We guarantee our heat exchangers with a 20-year,

limited warranty on

our 80+ furnace and a full, lifetime warranty on our 90+ furnace.

In addition, all of our furnaces have a built-in time delay relay. This feature automatically sets the blower cycle to increase

the efficiency of your air conditioner by 3-4%.

Another standard feature is the flame prover. It senses the presence of a gas flame on all burners to ensure safe operation. If any of the flames are not lit, the flame prover will shut off the unit to prevent a gas leak.

These are just some of the ways we give you a feeling of great comfort.

80+ GAS FURNACE

Six-Pass Tubular Heat Exchanger
Designed for long life and low maintenance, our heat exchanger comes with a 20-year warranty.

Fused Integrated Board
Guards against costly repairs due to overloads or power outages. If a power surge occurs, the fuse will protect the furnace components.

Blower Motor
Adjustable by your contractor to help prevent cold air from blowing before and after each heating cycle.

Satin-Finish Cabinet
Provides durability and scratch resistance.

90+ GAS FURNACE

Integrated Board
Already has taps for the easy addition of electronic air filters or humidifiers to match up with the furnace controls.

Sealed Combustion
Designed to bring the combustion air from outside so that the furnace will perform safely and draft-free.

Pressure Switch
If the airflow is interrupted, the pressure switch signals the furnace to shut down. It will attempt to restart the furnace hourly to avoid freezing pipes.

Induced Draft Blower
For added safety, the induced draft blower clears the cabinet of any combustion gases before and after each heating cycle.

Stainless Steel Secondary Heat Exchanger
Provides added efficiency by extracting residual heat from the air after it passes through the primary heat exchanger. It has a lifetime warranty.

Our serpentine, non-weld design provides efficiency and long life.

PEACE OF MIND

When a furnace is truly built to exacting standards of quality and durability, the manufacturer's confidence shows in its warranty. And we offer the best warranty in the business — a six-year warranty on replacement parts. In addition, most of our furnaces feature 20-year or lifetime warranties on their heat exchangers. An extended six-year labor protection plan is also available.

Ask your contractor for specific details on warranties, utility rebates and consumer financing programs.

THE EXPERIENCE OF SEVENTY YEARS

For decades, we've been in the business of providing comfort. And though the technology has changed over the years, one thing remains the same — our philosophy: Find out what people need to be comfortable, and then provide it reliably and affordably.

Every gas furnace is backed by a reputable company you can trust. We understand that your comfort depends on many factors in addition to temperature. That's why, for over 70 years, we've provided products and service that give our customers peace of mind.

THE SUPPORT OF A NATIONWIDE DEALER SERVICE NETWORK

To help you select the right furnace for your home and keep it in top operating condition, we offer a nationwide dealer service network. Our heating contractors are chosen for their integrity and reliability as well as their expertise. They receive extensive training in the installation and care of your equipment. So you'll know you're dealing with an experienced professional.
