☐ **Certificate of Occupancy**

This serves notice that said building or structure has been constructed in accordance with the New Jersey Uniform Construction Code and is approved for occupancy.

☒ **Certificate of Approval**

This serves notice that the work completed has been constructed or installed in accordance with the New Jersey Uniform Construction Code and is approved. If the permit was issued for minor work, this certificate was based upon what was visible at the time of inspection.

☐ **Certificate of Continued Occupancy**

This serves notice that based on a general inspection of the visible parts of the building there are no imminent hazards and the building is approved for continued occupancy.

☐ **Temporary Certificate of Compliance**

The following conditions must be met no later than or the owner will be subject to fine or order to vacate:
This certificate has an expiration date of:

Conditions to be met:

☐ **Certificate of Clearance - Lead Abatement 5:17**

This serves notice that based on written certification, lead abatement was performed as per NJAC5:17 to the following extent.

- ☐ Total removal of lead-based paint hazards in scope of work
☐ Partial or limited time period (years); see file

☐ **Certificate of Clearance - Asbestos Abatement**

This serves notice that based on written certification, asbestos abatement was performed to the following extent.

- ☐ Total removal of asbestos hazards in scope of work
☐ Partial or limited time period (years); see file

☐ **Certificate of Compliance**

This serves notice that said potentially hazardous equipment has been installed and/or maintained in accordance with the New Jersey Uniform Construction Code and is approved for use until

☐ **Temporary Certificate of Occupancy**

CERTIFICATION IN LIEU OF OATH

I. OWNER SECTION (to be completed if the applicant is the owner in fee)

I hereby certify that I am the owner in fee of the property listed on Page 1.

Mark the following applicable boxes:

- A. ☐ I further certify that a new home (private residence) will be constructed on this property for my own use and occupancy. This dwelling is to be occupied by myself and is not to be used for any purpose other than single family residential use. I attest that all construction, plumbing, or electrical work will be done, in whole or in part, by me or by subcontractors under my supervision, in accordance with all applicable laws; and, I further acknowledge that said new home is not covered under the New Home Warranty and Builders Registration Act (N.J.S.A. 46:3B-1 et seq.) and that such fact shall be disclosed to any person purchasing this property within ten years of the date of issuance of a certificate of occupancy.

I UNDERSTAND THAT IN MARKING BOX A, I ACKNOWLEDGE THAT I AM ASSUMING RESPONSIBILITY FOR THE WORK DONE ON SAID PROPERTY, THE CONDITION OF THE PROPERTY PRIOR TO, DURING, AND AFTER ANY WORK PERFORMED, AND FOR THE PERFORMANCE OF THE SUBCONTRACTORS I HIRE, EMPLOY, OR OTHERWISE CONTRACT OR WITH WHOM I MAKE AGREEMENTS TO PERFORM WORK. I AM VOLUNTARILY AND KNOWINGLY ASSUMING THIS RESPONSIBILITY.

- B. ☐ I further certify the following as required by the New Jersey Uniform Construction Code, N.J.A.C. 5:23-2.15(e)1.vii:

I personally prepared the plans submitted for: 1) the new home referred to in A.; or, 2) an addition, alteration, renovation, or repair to an existing single family residence owned and occupied by myself and located on the property listed on Page 1; or, 3) a new structure that will be physically separate from, but that will be deemed part of, an existing single family residence that is owned and occupied by myself and located on the property listed on Page 1.

- C. ☐ I further certify that I will perform or supervise the following work:

C.1. ☐ Building C.2. ☐ Fire Protection

I further certify that I will perform the following work:

C.3. ☐ Electrical C.4. ☐ Plumbing

- D. ☐ I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I understand that if any of the above statements are willfully false, I am subject to punishment.

Signature _____ Date _____

II. AGENT SECTION (to be completed if the applicant is not the owner in fee)

I hereby certify the following as required by the Uniform Construction Code, N.J.A.C. 5:32-2.15(d): the proposed work is authorized by the owner in fee; and I have been authorized by the owner in fee to make this application as his agent.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I understand that if any of the above statements are willfully false, I am subject to punishment.

REPORT

LAKEWOOD DISTRICT

November 10, 2000

Brick Township
Building Dept.
Fire Inspector
401 Chambersbridge Rd.
Bricktown, NJ 08723

Dear Sir:

Attn: Kevin

This is to confirm the disposition of the 2 underground tanks removed from Chambersbridge & Route 70 on October 24 & 25th. Both tanks were emptied by us on site. One tank was removed to our yard at 137 Ocean Ave, Lakewood and the other to Beacon Metal Co. Inc. at 216 Throckmorton St., Freehold.

I trust this is the information you are looking for. If I can be of further assistance, please do not hesitate to call me.

Thank you,
MGS Corporation

Lorraine Thomas

Introduction

On October 13, 2000, five soil test pits were excavated by conventional rubber-tired backhoe for the purpose of subsurface exploration. The information obtained from these excavations is used herein to facilitate foundation design.

Site Description

The site is identified as Block 672, Lot 8, Township of Brick, Ocean County, NJ on a plan provided to us entitled *Preliminary & Final Major Site Plan*, prepared by D.W. Smith Associates, P.A. of Lakewood, NJ, and dated Aug. 16, 1999. There is an existing retail building occupying the northeastern portion of the site. An existing structure at the southeast corner of the site has been demolished. The remainder of the site consists of paved parking areas.

Project Description

The site plan shows a proposed retail store of 25,500 square feet at the southeast corner of the site. We estimate maximum column loads to be approximately 100 kips and maximum exterior masonry wall loads to be approximately 3 kips per linear foot.

Subsurface Conditions

A layer of poorly-graded, medium-brown fine sand exists from the surface to between approximately 6 to 7 feet below the surface. Here, there is a transition to a well-graded light-brown fine to medium sand containing small amounts of coarse sand and fine gravel. As we have seen no evidence to the contrary, we assume that the surface layer consists of naturally-deposited soil.

Foundation Design

Undisturbed, naturally-deposited sands are satisfactory loadbearing materials for spread footings. The presumptive loadbearing value at or near the surface for sandy soils is 3,000 pounds per square foot. Load tests conducted in the field may justify the use of higher values. We recommend the use of a conventional spread-footing foundation bearing on the undisturbed, naturally-deposited soils. The bottoms of all exterior footings shall be placed at least three feet below final grade for frost protection.

The concrete floor slab may be supported on-grade following preparation of the surface according to Item 1 of the Appendix and following the placement of any additional subgrade materials, granular base, membranes, or utilities as may be specified.

Appendix

1. All existing topsoil and vegetation shall be removed from within the proposed building and pavement areas. After removal of the topsoil, the subgrade soils shall be compacted by means of a heavy vibratory roller. Any soft or unsuitable materials that are detected during compaction shall be dried and recompactd or excavated and replaced with prepared fill.

Note: Locations are approximate
