CERTIFICATION IN LIEU OF OATH

I. OWNER SECTION (to be completed if the applicant is the owner in fee)

I hereby certify that I am the owner in fee of the property listed on Page 1.

Mark the following applicable boxes:

- A. ☐ I further certify that a new home (private residence) will be constructed on this property for my own use and occupancy. This dwelling is to be occupied by myself and is not to be used for any purpose other than single family residential use. I attest that all construction, plumbing, or electrical work will be done, in whole or in part, by me or by subcontractors under my supervision, in accordance with all applicable laws; and, I further acknowledge that said new home is not covered under the New Home Warranty and Builders Registration Act (N.J.S.A. 46:3B-1 et seq.) and that such fact shall be disclosed to any person purchasing this property within ten years of the date of issuance of a certificate of occupancy.

I UNDERSTAND THAT IN MARKING BOX A, I ACKNOWLEDGE THAT I AM ASSUMING RESPONSIBILITY FOR THE WORK DONE ON SAID PROPERTY, THE CONDITION OF THE PROPERTY PRIOR TO, DURING, AND AFTER ANY WORK PERFORMED, AND FOR THE PERFORMANCE OF THE SUBCONTRACTORS I HIRE, EMPLOY, OR OTHERWISE CONTRACT OR WITH WHOM I MAKE AGREEMENTS TO PERFORM WORK. I AM VOLUNTARILY AND KNOWINGLY ASSUMING THIS RESPONSIBILITY.

- B. ☐ I further certify the following as required by the New Jersey Uniform Construction Code, N.J.A.C. 5:23-2.15(e)1.vii:

I personally prepared the plans submitted for: 1) the new home referred to in A.; or, 2) an addition, alteration, renovation, or repair to an existing single family residence owned and occupied by myself and located on the property listed on Page 1; or, 3) a new structure that will be physically separate from, but that will be deemed part of, an existing single family residence that is owned and occupied by myself and located on the property listed on Page 1.

- C. ☐ I further certify that I will perform or supervise the following work:

C.1. ☐ Building C.2. ☐ Fire Protection

I further certify that I will perform the following work:

C.3. ☐ Electrical C.4. ☐ Plumbing

- D. ☐ I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I understand that if any of the above statements are willfully false, I am subject to punishment.

Date _____

II. AGENT SECTION (to be completed if the applicant is not the owner in fee)

I hereby certify the following as required by the Uniform Construction Code, N.J.A.C. 5:32-2.15(d): the proposed work is authorized by the owner in fee; and I have been authorized by the owner in fee to make this application as his agent.

I further certify the following as required by the Uniform Construction Code, N.J.A.C. 5:23-2.15(a)5: All required State, county, and local prior approvals have been given, including such certification as the construction official may require.

I agree to advise all contractors on this project that they are required to be registered with the New Jersey Division of Taxation and to comply with all New Jersey tax laws.

I understand that if any of the above statements are willfully false, I am subject to punishment.

Swim' N Play A-Frame Ladder

This sturdy all-resin A-Frame ladder features removable steps, 21-inch handrails, and is covered by a 5-year Limited Warranty. Available on pools with either a 48-inch and 52-inch wall height. (fig. 14a)

In-Pool Stair

Large five step all resin staircase for people of all ages. Two sturdy, contoured handrails and non-slip step surfaces make it easier to exit the pool. This stair is for in-pool use only. Attaches to any deck. Fits 48-inch to 54-inch wall height pools.

Pool Entry System

The big brother of the Confer In-Pool Stair (see above), the Pool Entry System (fig. 14b) is a free-standing modular unit which can be joined together to form an extremely sturdy staircase for your pool. The all resin construction is not susceptible to rust or corrosion, and will not affect water chemistry. Ventilated construction allows water to circulate through the unit, preventing algae growth. The non-slip step surfaces keep you and your family safe, while the optional gate attachment insures your pool's security.

Extruded Aluminum Decks

You may choose from many different sizes and styles of decks to accompany your new Branch Brook Company Pool. All decks are free standing and fashioned from sturdy extruded aluminum, insuring their continuing strength and stability for years to come. For more information on your deck options, please refer to page 10 of this catalog. 3-foot x 5-foot deck shown. (fig. 14c)

Fig. 14a

Fig. 14b

Branch Brook Company offers a variety of entry systems designed to insure the safety of your swimmers as well as the security of your pool.

Eco Spring System

The natural alternative to chlorine. Working in-line with your pool filter, Eco Spring (fig. 16a) purifies your pool by directing water through a patented, coated ceramic mineral bed which kills bacteria, algae, and viruses on contact. Next, Eco Spring releases trace amounts of silver and copper into the pool to help prevent growth of new bacteria and algae. A small amount of chlorine must still be added to your pool water, but at the recommended chlorine level of 0.4 ppm, you won't feel, smell or be affected by chlorine.

Fig. 16a

Manta Automatic Pool Cleaner

Don't break your back cleaning your pool this summer. Let a Manta Automatic Pool Cleaner (fig. 16b) take the work out of pool maintenance. The ultimate in above ground pool cleaners, the Manta combines the best of pool maintenance technology and convenience with its revolutionary FlowKeeper™ feature. FlowKeeper™ regulates water flow and eliminates the need for manual adjustment, thereby ensuring peak performance of the vacuum at all times. The Manta is covered by a two-year manufacturer's warranty on all parts.

Fig. 16b

Darkbuster Pool Light

Why limit the enjoyment of your above ground pool to the daylight hours? With the Darkbuster Pool Light (fig. 16c), you and your family can enjoy a refreshing swim whenever you like. The Darkbuster Pool Light shares the return fitting on your pool, eliminating the need to cut the pool wall and making installation hassles a thing of the past! UL Approved.

In addition to the items shown on the preceding and following pages, Branch Brook Company carries a huge selection of top-quality pool chemicals, filters, pool toys and games, inflatables, in-ladders, pool stairs, in-pool fountains, pool alarms for added safety and security, and much, much more!

With hundreds of in-stock accessories for Pools, spas, patio, and grills, Branch Brook is your best home recreational resource.

Solar Covers

Increase your enjoyment of your pool with a top quality solar cover from Branch Brook Company. How does it work? The solar cover is an expanse of durable plastic material covered with small air bubbles which you draw across the surface of your pool (fig. 15a). The air within the bubbles is then superheated by the sun's rays, and the captured heat is, in turn, radiated into the pool water. The plastic material of the cover also helps keep the heat from escaping. Studies show a properly used solar cover can raise the water temperature in your pool 8 to 10 degrees! All covers are cut to fit various pool sizes, eliminating the need for trimming. Available in round, oval, and rectangular sizes.

Fig. 15a

MiniMax™ Plus Heater

Don't let a little chill in the air stop you from enjoying that early-morning or late-night swim. PacFab Inc.'s MiniMax™ Plus heaters (fig. 15b) utilize the most advanced heating technology available to provide the latest in comfort, efficiency and durability. PacFab's stainless steel burners deliver even flame distribution and long lasting, corrosion-free operation. Patented bronze inverted header and Quick-Flange allows direct PVC pipe connection and eliminates the need for costly heat sinks. Also, with the balanced flue stackless top, there is no need for high wind stacks.

The new MiniMax™ Plus 100M and other sizes are now available at an affordable price. Please consult your Branch Brook Company Sales Representative can help you determine which MiniMax™ Plus pool heater is right for your pool.

Fig. 15b

SunSaver™ Solar Heating System

Put the power of the sun to work for you! SunSaver™ solar panel pool heaters use your pool's existing pool pump to circulate water through a solar collector to heat your pool. (You can see the black rectangular shape of the solar collector laying beside the pool in fig. 15c). Now you can enjoy a warm dip in your pool whenever you like while saving on energy costs at the same time!

Resin Tank & Base
1.5 Horsepower / 2 Speed Pump & Motor
6-Way Valve
2520 Gallons per Hour Flow Rate
8-Hour Turnover of 20,160 Gallons

You can now customize your filter operation and save money! Use high speed for vacuuming, water problems, and adding chemicals, or switch to low speed for continuous filtration and circulation. Normal pumps run only at high speed (3450 RPM), drawing 1903 watts. By running in low-speed mode (1725 RPM) and drawing only 334 watts, two-speed pumps can save up to 55% off electrical costs. Two-speed pumps are designed for continuous filtration; this improved filtration and circulation

Energy Cost Comparison

Single Speed Pump Running for 10 Hours

1903 watts = 20.9 cents per hour*
20.9 cents per hour x 10 hours = \$2.09 per day
\$2.09 per day x 30 days = \$62.70 per month

Two-Speed Pump Running for 24 Hours (on Low)

334 watts = 3.67 cents per hour*
3.67 cents per hour x 24 hours = 88¢ per day

Why It Makes Sense...

Why Aluminum?

Aluminum is the perfect building material for products designed to be kept outdoors because it does not rust, and is not affected by drastic changes in temperature, or moisture.

The Use of Aluminum in Pool Manufacturing

There are two fabrication methods used in the manufacture of above-ground swimming pools. Respectively, they are *Roll-Formed* and *Extruding*.

Roll-Formed Aluminum

The process in which the aluminum stock is bent into a desired shape. The only disadvantage to using the Roll-Formed method is that production requires the aluminum not exceed a specified thickness in order to be processed properly by the forming machines. Not wanting to sacrifice the strength and durability of their aluminum pools due to the limitations imposed by using the Roll-Formed method, Swim' N Play, Inc. examined alternative manufacturing techniques and discovered the advantages of using Extruded Aluminum.

Extruding Aluminum

The process in which molten aluminum is pressed through a die-cut mold to exacting specifications. By extruding the aluminum, Swim' N Play, Inc. discovered they could cast the aluminum in any shape and thickness they desired. The end result is extruded aluminum products which are actually stronger and more durable than some types of steel, while remaining impervious to rust.

Why Use Anything Else?

The answer is simple: *price*. Steel pools are less expensive to manufacture than Extruded Aluminum pools. By keeping manufacturing costs down, Branch Brook Company and Swim' N Play, Inc. are able to pass the significant savings on to our customers. Remember, no matter which model pool you buy from Branch Brook Company, whether it be steel or aluminum, you will be getting a top-quality pool for a lower price than you could find anywhere else.

Re: Block: 822 Lot(s): 35
1585 Larsen Street
Zoning Permit Application

Dear Mr. Rivera,

Your zoning permit application for a chainlink fence with a 6' stockade fence is denied.

Under Section 190-33.1 of the Township Code the only fences permitted less than 25' from the front property line are post and rail, chainlink or picket fences with 2" spacing not exceeding a height of 4'.

In order to build the fence as proposed a variance must first be approved by the Board of Adjustment.

Very truly yours,

Sean P. Kinnevy
Zoning Officer

Request to be exempted from the plot plan requirement for an addition as outlined in the Brick Land Use Book, Chapter 190.31, part B.

Applicant's Signature

The following shall be submitted with this request:

1. Submit survey locating existing dwelling and proposed addition. Dimensions of addition should be included.
2. Proof that the property is not located in a Flood Hazard Area.

Note: Prior to approval, a site inspection by the Engineering Department will be performed to verify that the proposed addition will not create a drainage problem.

Municipal Engineer
401 Chambers Bridge Rd
Brick, N.J. 08723

RE: Block: 822 Lot: 36

I, Peter A. Rivera of 1585 LARSEN ST. Brick
(name) (address)

request to be exempted from the plot plan requirement as outlined in
the Brick Land Use Book, Chapter 190.31, part 0. The property (please
circle one) is is not located in a flood zone.

Respectfully yours,

[Signature]
applicant's signature

1. Submit survey showing location of addition with proposed
dimensions, grading. If driveway is being added, show type,
width and length.

2. Proof that the property is not located in a Flood Hazard Area.

Note: Any excavations to be removed from the Township requires a
mining permit.

MODEL BARRIER CODE ENCLOSURE

Swim' N Play A-Frame Ladder

This sturdy all-resin A-Frame ladder features removable steps, 21-inch handrails, and is covered by a 5-year Limited Warranty. Available on pools with either a 48-inch and 52-inch wall height. (fig. 14a)

In-Pool Stair

Large five step all resin staircase for people of all ages. Two sturdy, contoured handrails and non-slip step surfaces make it easier to exit the pool. This stair is for in-pool use only. Attaches to any deck. Fits 48-inch to 54-inch wall height pools.

Pool Entry System

The big brother of the Confer In-Pool Stair (see above), the Pool Entry System (fig. 14b) is a free-standing modular unit which can be joined together to form an extremely sturdy staircase for your pool. The all resin construction is not susceptible to rust or corrosion, and will not affect water chemistry. Ventilated construction allows water to circulate through the unit, preventing algae growth. The non-slip step surfaces keep you and your family safe, while the optional gate attachment insures your pool's security.

Extruded Aluminum Decks

You may choose from many different sizes and styles of decks to accompany your new Branch Brook Company Pool. All decks are free standing and fashioned from sturdy extruded aluminum, insuring their continuing strength and stability for years to come. For more information on your deck options, please refer to page 10 of this catalog. 3-foot x 5-foot deck shown. (fig. 14c)

HOMEOWNER POOL CERTIFICATION

BLOCK 822 LOT 36

In accordance with N.J.A.C.5:23-2.23, no pool shall be used in whole or in part until a Certificate of Approval has been issued by the Construction Official.

I certify that I am the owner of the above referenced pool being built. I further certify that the pool will not be used in whole or in part until a permanent fence is installed and a Certificate of Approval has been issued by the Construction Official.

I have read the fence requirements listed below and understand them.

Owner's Signature

Peter A. Rivera

Print Name

Sworn and subscribed to before me this 2 day of June 1999

Notary Signature

FENCE REQUIREMENTS

Barrier shall be a minimum of 48 inches above ground level. Openings shall not be greater than 4 inches for vertical balusters with horizontal concentrated load of 200 pounds applied on a 1-square foot area at any point of fence. Maximum mesh size for chain link fencing shall not exceed 1 1/4 inches square. Where the barrier is composed of horizontal and vertical members and the distance between the tops of the horizontal members is less than 45 inches, the horizontal members shall be located on the swimming pool side of the fence. Spacing between vertical members shall not exceed 1 3/4 inches in width.

Pedestrian gates shall open outward only, away from the pool, and shall be self-closing with a self-latching device. If the self-latching device is located less than 54 inches from the bottom of the gate, then the release mechanism shall be located on the pool side of the gate at least 3 inches below the top of the gate. The gate and the barrier shall not have an opening greater than 1/2 inch within 18 inches of the release mechanism.
