Subject: Clark Reservoir Proposed Recreation Area

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I'm STRONGLY opposed to this development.

I believe that the proposed plan for the Clark Reservoir be limited to reservoir dredging and aeration and ongoing maintenance. Most of the people I know in Clark feel that the current plan is over the top. No one wants a kiddy train, or a concession stand. Most people do not want further deforestation which would happen with this plan. This area was meant to be a natural wildlife habitat and this must be respected. I fear the serenity of our neighborhood will be destroyed.

Regards,
Shirley and Louis Donnini

Vikki

We are waiting for you to confirm the parameters before we send anything out, do you want to limit it to an hour? Which I do not think is enough time. Are you OK with it being an announced council meeting so we can manage it through Roberts Rules and the 5-minute speaking time? Or do you think a forum would be better? It is up to you, if you want to get on a quick call that is also OK.

Thanks
Jim

Good morning Jim. Can you let me know when you intend to publicize the public meeting with the county on the reservoir.?

I want to make sure that whatever parameters the county has agreed to will be in the notice. I am confirming that information now.

Thank you

Good afternoon, Jim. I am reaching out to find a date for the meeting we would like to hold in Clark about the Clark Reservoir. We would prefer something in late June, if possible, as we have a Commissioners Meeting on June 19, 2024.

Our professional engineers are key to the presentation, so if you could provide a few dates that would work for Clark that would be most helpful. I can coordinate availability on our end.

Thanks and let me know if you need anything further from me.

Hi Vikki,

We are currently underway performing additional soil borings for the Clark Reservoir Improvements. In order to perform borings associated with the retaining wall along the DPW property and pedestrian bridges proximate to the high school, the crew will need access through the respective properties. Do you have a contact for Clark's DPW and AL Johnson High School we can notify? The borings for the DPW area are currently scheduled for tomorrow (6/4) afternoon and the borings in the high school area are scheduled for 6/10.

Just to clarify that the soil borings will be performed on the County property, and the crew will just need to drive through and park within the DPW and High School properties. Please feel free to give me a call if you have any questions,

Thanks,
Peter Bednarsky, PE
Program Manager
