I have noticed issues when acknowledging officers over the radio they are indicating that they are not recieving dispatches initial response even though dispatch can hear themselves over the WC radio clearly.
Another officer stated that when he is standing outside his patrol car and transmitting off his walkie or when dispatch is calling him he can only hear it from his patrol car. however if he moves away from his vehicle it works fine

Notations

Notations
On 11/24/2019 I was scheduled to work 2000-0700 and sat at desk #3. During my shift, I dispatched Arbor rescue squad twice for medical calls. After a few minutes of not calling in, Arbor called me both times asking if I dispatched them to a call. My partners sitting at desk #1 and desk #2 dispatched Arbor 1 or more times during the shift and Arbor received and responded to the calls with no problem. There may be some sort of issue with dispatching Arbor on desk #3, or possibly Arbor radios.
