Good afternoon,

Today I inquired if the fire alarm was actively working at the recreation center and was told it was not and had not. The importance and need for a working system were discussed at our initial meeting. Not having a working fire alarm presents a significant health risk to our students and staff, and with the ongoing construction and no alarm, further places us in danger. As such, we will no longer go to the recreation center until this is remedied.

Further, it is disheartening to learn this information second hand since, at this meeting, we were assured that any changes to what was outlined would be immediately communicated to the school so that we would not be affected in our daily instructional programming.

Sincerely,
Dr. Bagolie

Good morning,

Is the information accurate? If so, how long will it take for it to be remedied.

Sincerely,
Rosaura Bagolie, Ed.D.
