Chris,

When you get a chance give me a call. (732) 718-6650. I have a Raritan bay als unit that is going to make a complaint against me for not transporting to JFK, when they had a transport capable truck, and it was not my primary coverage area. I have it in my SOP's that we transport to 4 specific hospitals, besides the burn center for obvious reasons.

Chris,

Hope the holidays went well for you. I have a question regarding certification. The volunteers were wondering if by covering up an EMT patch on a piece of clothing would it still be considered Impersonating an EMT? or is it acceptable because the patch is covered up. If you can't answer this can you point me in the right direction of someone that can?

Thanks Kyle, when we kicked on the high idle it seemed to get things going in the right direction. At any rate I would let the vehicle cool, restart and check it a couple of times. I would think the step is not a big fix. That being said, when both are consistently operational you may put the vehicle in service with no further need to reply.

Christina,

A licensed agency can be affiliated with the NJ EMS Council. The EMS council does not license vehicles, however they do inspect them.
