Good morning Ms. Sudo,

As you are aware, the Office of Emergency Medical Services (OEMS) is currently conducting an audit on South River EMS. As such, you met with investigators on May 24, 2018 where a number of documents were requested including, but not limited to Standard operating procedures, staff roster, staff credentials, billing statements, financial records, etc. To date, OEMS has yet to receive anything from your organization. Please understand that failure to comply will constitute hindering an investigation and will result in action being taken against your provider license, up to summary suspension. If a summary suspension is issued, all operations will cease immediately and OEMS will arrange for coverage to be provided until such time we can ensure there is not an immediate threat to public health, safety and welfare.

Good Morning,

While reviewing charts this morning 06/10/2018 for billing needs. I started to notice a trend with some of the volunteer charts ever since they have been served with the civil suit papers from the Borough and the Borough Attorney. I have noticed a select few of the volunteers are not putting in address or apartments numbers or house number or they are leaving out the city and state. Or they are putting addresses that do not exist. When we place a flag on the chart the flag either does not get answered or the they relock the chart regardless of the flag. I have only noticed this with in the past two weeks or so and only with select members. If you have access to our online database for charts and need the case numbers for the calls please let me know and I will supply them.

I wanted to make you aware of this because I am unsure if this will be useful in the on going investigation.

If you have any questions please feel free to contact me.
Thank You

I sent an email to him the day you left and it's coming up on my email thread at May 31st. I also checked the schedule to see who was working the day you came in and it was Joe Nairooz, and Kyle Fleming. They both worked on May 31st. I was on the ambulance on May 24th, and I know it was an office day for me when you guys came in.
