I'm requesting a copy of the memorandum of understanding, as well as copies of the contracts. And anything else related to storm water management the township has on file. I disagree that this request has been fulfilled. If you are claiming that the list provided is everything you have related to my request, you have made your argument clear. Thank you and have a great weekend.

Mr. Schroeder,

Township Manager Riculfy forwarded me the below email chain which includes your OPRA request for the meeting records and recording of the Mount Laurel Township Municipal Utilities Authority's May 12, 2025 Special Meeting to adopt a resolution prior to closing for the DEP Loan financing program. The Special Meeting was required when the DEP changed the loan closing date, bringing it forward to ensure that the loan closed before the proposed cuts in federal spending become effective. Please note that this firm represents both Mount Laurel Township and the MLTMUA. They are separate entities and each operates independently of the other, including records requests. I am not aware of the below email address, however, due to recent reorganization of the Authority, perhaps that address is no longer assigned to anyone. By copy of this email I am forwarding your request to the MLTMUA. As this request is being received by the Authority on May 27, 2025, it will have 7 business days to respond with tomorrow being considered day one. I am sure that the Authority will work to respond to your request quicker than the allowable seven days. Please note, future requests for MLTMUA documents must be made directly to the Authority.

Please further note, that a records custodian may tell you where to file a separate request if the custodian does not possess the records and knows what other agency may have those records.

I understand you may have other requests pending with Mount Laurel Township which will be addressed shortly.

Thank you,

George Morris

Meredith, perhaps I should remind you that you took an oath to protect and uphold the laws and duties of the office. By law, YOU are required to make these communications. Besides, the emails I send them bounce back. management@mtlmua.com does not work. Do they have their own records department? Help me understand this better, please.

I'm curious as to how 1029, 1021, and 1015 Union Mill road are included in the list of active parks. I was told 1021 union mill road is owned by an LLC. However, on the list of active public parks, it includes all these properties (named Dicurcio/Laurel Acres Park) Could you please elaborate on that? The total acreage on the plan does in fact include these properties.
