**Re: Warren County, Borough of Alpha
Homa Lane Drainage Improvements
Pre-Application Technical Assistance**

Dear Mr. Seney:

Thank you for providing the Historic Preservation Office (HPO) with the opportunity to review and comment on the potential for the above-referenced undertaking to affect historic properties. Based upon the documentation submitted, there are no buildings, structures, sites, objects, or historic districts on or adjacent to the project location that are listed on, or that have been identified as eligible for listing on the New Jersey or National Registers of Historic Places. However, the project area is adjacent to the Still Valley Prehistoric District, a grouping of Native American archaeological sites that are eligible for listing on the National Register of Historic Places (SHPO Opinion 7/7/1983.)

Therefore, if future project activities require any federal funding, licensing, or permitting, a Freshwater Wetlands permits, Waterfront Development permits, and Upland Development permits issued by the State of New Jersey's Division of Land Use Regulation, as well as environmental assessments under Executive Order 215, the HPO would likely recommend that a Phase IA archaeological investigation be completed to assess the project's potential impact to any such related archaeological resources.

Additional Comments

Thank you again for providing the opportunity to review and comment on the potential for the above-referenced undertaking to affect historic and archaeological resources. If additional consultation with the HPO is needed for this undertaking, please reference the HPO project

This information is provided as informal notes to you, and does not constitute identification level cultural resources survey under Section 106 of the National Historic Preservation Act or other law or regulation. These notes do not constitute project review under any state or federal law. The absence of previously identified cultural resources does not imply that there are no eligible historic properties in the requested area.
