20161118131543090.pdf;

Please read the below and attached for discussion tomorrow.

If Frank can get us a proposal to perform the work, I'd like to get it on the agenda tomorrow.

Thanks.

Subject: Homa Lane - Additional Study

As you can read the NJDEP is requiring a Phase IA archeological study which is a desk top light field type research – no heavy digging. It is a specialty as we cannot perform the work. Richard Grubb Associates typically does the work for us so we will try and get a proposal from her before Tuesday.

If you know a firm and want to contract directly that would be fine as well. The cost would be around 5 to 6 K
