Subject: Homa Lane Drainage Improvements

We are ready to make the NJDEP permit application submission and but we still need the certified property owners list for the people within 200 feet. Kevin from our office sent it to Victor but we need him to certify it.

We will have plans for you to review at the January 10th meeting and will also have the excavation quantity. It would be nice to have the quarry open to receive the excavation. The link below will get you to the Phase IA report. As discussed do not worry that they are recommending a Phase IB as NJDEP does not always take their recommendation.

Thanks
