Kevin Jay Cammhall

SUMMARY

I have had a rewarding and varied career in the Brick Township school system. I have worked as either a teacher or as a coach at the elementary, middle, and high school levels. At each level I have demonstrated the ability to team build, communicate, motivate, research, and plan. As a teacher and as a coach, I have welcomed the challenge and thrived when placed in positions of leadership and accountability. I look forward to the possibility of entering a new phase of my professional career by joining the Brick Township administrative team in their pursuit of educational excellence

KATHERINE A. BERRY

August 13, 2002

Maryann Ceres
Brick Township Board of Education
101 Hendrickson Ave.
Brick, NJ 08724

To Maryann Ceres,

Hello! I am a recent graduate of The College of Saint Elizabeth in Morristown, New Jersey. I earned a Bachelor's degree in Elementary Education and Psychology, and my special education certificate on May 18th. I was named to the Dean's List six semesters out of eight, with a cumulative GPA of 3.73. I am seeking a position in any of Brick Township's elementary schools for the approaching school year.

I eagerly anticipate obtaining a full-time position as a regular education teacher, and hope to do so in Brick Township because of the commitment Brick schools have shown to keeping per-pupil costs down, while maintaining outstanding standardized test scores. I am proud to have attended Brick Township Public Schools, and would like to continue the tradition of excellence in teaching that Brick represents to me.

I was employed by the Camp Beadleston program for eight years, and any of my coworkers, including Donna Stump and Betty Diou, would agree that I would be an asset to any school or district in which I am employed. I am enthusiastic, and consider teaching the most important thing any person can do. If given the opportunity, I will excel as a teacher in Brick's school system.

When we have the opportunity to meet, I'll elaborate on my field experiences and supply you with strong references. I can be reached at my home at

I look forward to discussing the position with you.

Sincerely,

Katherine A. Berry

Katherine A. Berry

Available upon request.

My reasons for wanting to teach in the Brick Township Public School System are simple. To start, I am very familiar with Brick Town's education program. I have spent close to six months teaching in the system under another teacher as well as on my own. In that six months, I had a chance to see the new and innovative ideas Brick has decided to include. After reading different teaching periodicals I have concluded that they are on the cutting edge of today's education and this is where I would like to continue my teaching career.

It is also very important to me to have a chance to give back to my community. Living in Brick Township since I was young has been very rewarding. I was given a chance to receive a wonderful education which has led to a promising career. I would love to be part of that beginning education for other children in our community.

To the school system and youth of Brick I would be able to offer my creativity in teaching, enthusiasm towards the field, and desire to help children when they have to overcome learning and physical disabilities.
