- ✎ The intake process is a critical period in which an inmate is evaluated for suicide risk, symptoms of drug/alcohol withdrawal, and elevated risk for engaging in behaviors dangerous to both the inmate and others. An accurate assessment of such risks is a crucial means of ensuring that appropriate interventions are provided during the vulnerable, high-risk period when new inmates are transitioning to incarceration. CFG believes that having nursing and medical screenings completed within generally accepted timeframes is necessary for maintaining an intake process that meets the expectations of the correctional healthcare community. The current standard timeframe for completion of the medical assessment is within four (4) hours of admission. This evaluation serves as the foundation for accurately determining which services (such as suicide precautions, mental health consultation and withdrawal protocols) may need to be initiated. The evaluation itself should specify the timeframes in which any such services should be provided.
- ✎ It is an imperative that withdrawal protocols be provided, in order to minimize the risk for self-destructive behavior, as well as to allow inmates to meaningfully benefit from behavioral healthcare interventions. Without effective management of the signs and symptoms of withdrawal, which falls under the purview of the facility's Medical Director, an accurate assessment of an inmate's specific behavioral healthcare needs is greatly curtailed, if not impossible, in some cases. Current correctional community standards governing assessment and management of medical problems associated with withdrawal include:
- ✓ monitoring a withdrawing inmate's vital signs at regular intervals
 - ✓ administration of appropriate medication, specific to the type of substance(s) abused
 - ✓ maintaining proper nutrition and hydration

CFG's Experience

CFG attests to being uniquely qualified to continue to meet Salem County's evaluative and screening needs. As a local behavioral healthcare company, CFG is structured to directly recruit, hire and employ a large and exceptionally diverse group of select psychiatrists and advance practice nurses with distinct specializations, as well as therapists, social workers, psychologists and substance abuse counselors – all to meet the needs of a variety of contracts. Presently, **CFG is the largest psychiatric provider in the region**, employing over 1,100 individuals, including 44 psychiatrists, 25 psychologists and 89 psychiatric advanced practice nurses.

CFG's team of clinicians is especially adept at producing quality reports, as providers are well-trained on the issues and protocols involved in completing thorough fitness-for-duty evaluations and risk assessments, especially of local law enforcement personnel. **Over the past 21 years, CFG has conducted fitness-for-duty and pre-employment psychological evaluations for sheriff's departments, townships and jails located in Burlington, Camden, Mercer, Middlesex, Monmouth, Salem and Union counties.**

The CFG Team

CFG has a corporate profile that includes an extensive history in healthcare services. This affords us a corporate orientation with a clinical perspective, allowing us to look at care holistically. In addition, key corporate personnel have clinical underpinnings – all have been involved in the provision and management of healthcare for their entire professional careers. Our Clinical Director, Dr. Joel Friedman, and our Corrections Mental Health Director/Mental Health Training

evaluators consult with professionals who have provided mental health or medical care to ensure a full and accurate assessment of an employee’s ability to perform his or her job is obtained.

Testing Battery

CFG has extensive experience in the completion of evaluations for both established employees and officer candidates. As such, we have developed an evaluation process that includes instruments relevant to assessing an individual’s suitability for employment in a correctional environment. CFG employs a standardized assessment process to ensure all candidates for employment and all employees who are re-evaluated and assessed for fitness-for-duty are apprised in a fair and consistent manner.

CFG will continue to administer a testing battery that distinguishes between newly-recruited officer candidates and existing employees considered fit for officer work versus those deemed unfit for duty. This testing battery, developed by CFG, has been designed to produce a comprehensive evaluation of each examinee, enabling the psychologist conducting the evaluation to make a well-informed decision about an individual’s relative suitability for a career in law enforcement. The tests used in the battery have been proven to provide reliable and defensible data regarding the assessment of officers and officer candidates.

CFG will administer each test listed below for each applicant or candidate in need of evaluation. It should be noted that the instruments selected for the testing battery are known to preclude selection bias based upon ethnic/racial group, sex or religion. All tests performed adhere to Americans with Disabilities regulations and New Jersey Law Against Discrimination (LAD).

CFG will be responsible for scoring each testing battery, with test results made available to the New Jersey-licensed psychologist conducting the interview.

The time needed to administer the testing battery will vary to some degree, based upon the speed with which an examinee completes the instruments. The typical time needed to complete each instrument is as follows:

✂ Shipley – 2	20 - 25 minutes
✂ Minnesota Multiphasic Personality Inventory – 2	90 - 120 minutes
✂ Writing Sample	30 minutes

TESTS:

The Shipley-2

The Shipley-2 is a brief written test of intellectual ability with demonstrated correlations to other lengthier intelligence tests, including the Wechsler Intelligence Scales. The instrument is one of the most widely used means of measuring the intellectual capacity of potential law enforcement personnel. Though the Shipley-2 has been used with people from diverse backgrounds and has been shown to avoid selection bias, alternative intelligence measures are available should the need to validate the intelligence score obtained by an examinee ever arise (see below).

Fitness-for-Duty Evaluations

Fitness-for-duty evaluations are customized and structured to provide feedback specific to the question of employment referral. Typically, a review of the employee's work history is performed, the employee completes a personality test or other psychological instrument, and the psychologist conducts an extensive clinical interview as part of the evaluation process. When necessary, consultation with professionals who have provided mental health or medical care to the employee occurs to ensure a full and accurate assessment of an employee's ability to perform his or her job.

Services for Inmates

As requested in the RFP, CFG shall continue to provide individual psychotherapy, group psychotherapy and risk assessments for suicidal inmates, as well as other evaluations as ordered by the court.

In addition to the services requested in the RFP, CFG will continue to provide: evaluations for the prescription and administration of psychotropic medication; follow-up medication management services; consultations with correctional and administrative staff regarding inmates with mental health concerns; consultation regarding mental health policy development; and implementation of group and individual psychotherapy programs that target specific problems and diagnoses.

Throughout our time at the Salem County Correctional Facility, CFG has helped to refine and expand mental health documentation and shall continue to do so. Working in tandem with custody, medical and administrative staff, we have provided input and encouraged the County to revise the suicide risk screening form used by officers to better identify, assess and assuage inmates with suicidal ideation.

Additionally, over the past several years, in response to a large influx of Gloucester County inmates housed at the Salem County Correctional Facility, CFG has increased on-site hours and added several new clinicians to the roster to ensure adequate coverage. CFG shall continue to provide a sufficient number of hours of psychiatry and psychology services each week at the Salem County Correctional Facility. The number of weekly hours of psychiatry and/or psychology services may be modified upon mutual agreement between CFG Health Systems, LLC and Salem County Correctional Facility Administration, based on changes in clinical need.

Program Modifications Moving Forward

Please see pages 2-3 for suggested program modifications.

Training Services

CFG staff members are notable for their significant national and international exposure. Our professionals have presented to members of the Mid-Atlantic State Correctional Association (MASCA), the New Jersey Association of Counties, the NJAC, the New York State Sheriff's Association (NYSSA) and the at American Psychological Association conferences.

CFG staff also has extensive experience in training state, county and federal correctional officers in both adult and juvenile settings. JAIL CONTRACTS

CFG marked its foray into correctional healthcare services in 1999 as the mental health sub-contractor for the entire New Jersey Department of Corrections, servicing over 25,000 inmates. Since then, CFG has gone on to expand the scope of its care, obtaining numerous contracts in correctional facilities over the past 20 years. Working with various accrediting bodies, CFG has also developed surveys, protocols and programs to meet the distinct and specific needs of correctional institutions and detention facilities. Several of these programs and services have garnered praise and accolades from individual sites and NCCHC auditors, among others. [Our experience, combined with our philosophy of service, demonstrate CFG's unwavering dedication to the provision of exceptional clinical care and client services.](#)

In providing any aid, benefit, or service on behalf of the County pursuant to this contract, the Contractor agrees that the performance shall be in strict compliance with this Act. In the event that the Contractor, its agents, servants, or employees, or subcontractors violate or are alleged to have violated this Act during the performance of this contract, the Contractor shall defend the County in any action or administrative proceeding commenced pursuant to this Act. The Contractor shall indemnify, protect, and save harmless, the County, its agents, servants, and employees from and against any and all suits, claims, losses, demands, or damages of whatever kind or nature, arising out of or claimed to arise out of the alleged violation.
