Subject: OPRA request - Safety Stick Program

Dear Town of Dover,

Please accept this electronic request for public records made under OPRA and the common law right of access. I am not required to fill out an official form or use a particular software platform to submit my request per NJSA 47:1A-6(f), which states that an email from a requestor including all of the information required on the adopted form shall suffice in place of a completed form as a valid government record request.

I HAVE NOT been convicted of any indictable offense under the laws of New Jersey, any other state, or the United States.

I WILL NOT use the requested government records for a commercial purpose.

I AM NOT seeking records in connection with a legal proceeding.

Records requested:

1. All images, photographs, or still frames captured by the Town of Dover's Safety Stick traffic enforcement cameras or license-plate recognition cameras between January 1, 2026 and January 31, 2026.

2. Any associated metadata or logs connected to those captures, including but not limited to:

Date and time of capture

Location of the camera

License plate number captured

Vehicle description if available

Any associated violation or enforcement action taken.

3. Any spreadsheets, databases, reports, or summaries generated from Safety Stick camera captures during January 2026.

4. Any records showing whether captured vehicles resulted in enforcement action, summons issuance, or referral to any enforcement unit.

If the requested records are maintained electronically, I request they be provided in electronic format (such as PDF, CSV, or Excel).

If any portion of this request is denied, please provide the specific statutory basis for the denial pursuant to N.J.S.A. 47:1A-5(g).

If the request will incur a special service charge due to the volume of records, please advise of the estimated cost prior to fulfilling the request.

My preferred delivery method for response(s) to this request is by E-mail as attachments. Please confirm you have received this request. If you are not the custodian of records, please forward my request to that person and provide their email address to me for future reference.

Yours faithfully,

James Ganin

I agree this is extensive and deals with cameras, security, and privacy. The attorneys really need to let us know as this work can be costly and I believe beyond an opera request.
