|               |                                | Cylinder OP477404 customer states that cylinder won't close properly. Drained air from cylinder, Disassembled hand wheel, bonnet and seat. Found seat crushed due to over tightening of hand wheel. Performed visual inspection on valve and found internal components were destroyed from the crushed seat and the threading where the seat goes was damaged and could not be repaired. Replaced valve on cylinder with new one. Filled cylinder with air and tested. |       |                 |        |
