Gentlemen:

On December 1, 1980 you drilled a well in Hopewell Township on the above block and lot. To date we have no record of having received the well report. I am enclosing a copy of our form to be filled in. We are particularly interested in the depth and gallons per minute on this property.

We would appreciate receiving this report as soon as possible.

Thank you.

Dear Mr. Guarino:

Enclosed is a copy of the Jack Stover's well report pertaining to the property we discussed by telephone in past weeks.

I would be most appreciative for any help you could give us pertaining to this matter.

Sincerely yours,

Ref; Request of Irving and Deborah Kelly to test well at the Corrigan Residence
430 Pleasant Valley Road, Hopewell Township

To Whom it may concern;

Be advised that on the latter part of June I went to the above mentioned site.

Upon first checking with Sam Stothoff of the Samuel Stothoff Co. who drilled the original well, he informed me his records show the well produces less than one quart per minute. When I relayed this information to Mr. Corrigan, he agreed this was probably so.

This is an insufficient amount of water to run an household.

Mr. Corrigan proceeded to show me a cistern with pipes extended from the roof to fill it.

This is not considered a well.

Hopewell Township requires that any well drilled in there township must have a minimum of 30 feet of casing, and the casing must be sealed with cement. They also require that they must inspect the casing going in the well and sealing of same. The casing and sealing is required to shut off any surface water from entering the well.

The state of N.J. and Hopewell Township both require the issuance of well permits before any well is constructed. They also require that an N.J. licensed well driller drill any and all wells.

Yours truly,

Jack Stover

To Whom It Concerns:

I'm sorry about this permit but
when the owner told me he was employed
by the township I told him to take care of
this permit.

Hope it won't happen again.
There isn't enough water to get a water line.

Sincerely,

Sam Stothoff
