Dear Mayor Jiampetti,

The New Jersey Department of Environmental Protection (Department) has completed a review of the Hazardous Discharge Site Remediation Fund (HDSRF) funding request received November 14, 2025. The request was submitted for the remedial action (RA) activities that have been proposed at Egg Harbor City Landfill aka Antwerp Avenue Landfill (site), which is part of Egg Harbor City's Antwerp Avenue Brownfield Development Area (BDA).

Based on a review of the request, the Department has determined that it is technically eligible for HDSRF funding. Therefore, the Department has recommended that the New Jersey Economic Development Authority (NJEDA) obligate funds in the amount of **\$3,046,580** for the proposed RA work. The Department is not recommending a disbursement at this time.

The Department's recommendation for the award of a grant from the HDSRF, and its determination that certain remediation costs are eligible for grant funding, is subject to the review and approval of the NJEDA, which, if in agreement with the Department's recommendation, will forward the recommendation for delegated authority approval. Any award by the NJEDA is subject to the appropriation of money to the Fund in an amount adequate to pay the grant. Any grant awarded from the HDSRF is to cover remediation costs for the calendar year covered by the application. An applicant seeking a grant to cover remediation costs for subsequent calendar years must re-apply to the HDSRF. There is no guarantee of any funding in this year or future years.

If you have any questions regarding this letter, please contact Rachel Stopper at (609) 940.4768.

Sincerely,

A handwritten signature in black ink, appearing to read "Ron, [unclear]". The signature is written over the word "Sincerely,".
