John,

Here are the pictures I took of the chromebook on Friday.

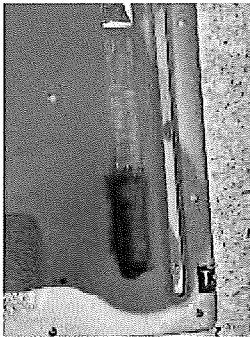

The student did not sign up to take the chromebook home.

John,

This chromebook was one of the summer of 2022 chromebooks that were purchased for the current 7th grade class.

I checked with Acer and they confirmed that batteries are a component that is made by another company.

There are a handful of battery manufacturers that make batteries for all chromebook companies.  
Even if we were to shop for another brand of chromebook they may or may not contain the same battery cells.

Louis

John,

He did not get back to me yesterday or today.

Good Morning,

I met with the team this morning who was directly involved with the device. We are awaiting further specifics from the Fire Marshall today, and Mr. Pelissier, Tech Supervisor, copied here, will be meeting with them so that we can gain their insight after reviewing the device and damage related to our response therein.

Hope you were able to rest this weekend.

Mrs. Gibbons

On Fri, Jun 6, 2025 at 4:44 PM [REDACTED]

Hi-

Thank you for the updates. It was quite a scene being there for the 5th grade float parade when all of this happened.

Do you now plan to recall all of the students' chromebooks given it was a "malfunction"?

Begin forwarded message:

**From:** Tricia Zifchak <noreply@rumsonschool.org>  
**Date:** June 6, 2025 at 3:45:22 PM EDT  
**To:** [REDACTED]  
**Subject:** Evacuation Follow Up  
**Reply-To:** Tricia Zifchak <noreply@rumsonschool.org>

As a follow up to today's 3:06 PM email, both the Rumson and Monmouth County Fire Marshal were consulted. It was determined that the smoking chromebook was a malfunction. No further action was deemed necessary.
