RE: EXISTING FIRE ALARM SYSTEM
 LEONIA HIGH SCHOOL
 SERVICE DATES: 2/16/2024 & 2/20/2024

N

Customer requested service for the existing fire alarm system, due to a "ground fault" condition on the system. BPS technicians performed troubleshooting and found a damaged outdoor fire horn / strobe. BPS technicians then replaced that damaged outdoor fire horn / strobe.

Y

BPS technicians continued to troubleshoot the "ground fault" condition and found damaged fire alarm wiring, which appeared to have been chewed by rodents in multiple places (in the general area near the Guidance Office). Due to the extent of the apparent damage and uncertainty over how much of the wiring had been damaged, BPS recommended replacement of that entire section of fire alarm wiring.

BPS technicians then returned and installed new replacement fire alarm wiring in that section.

N

The fire alarm system was in a "normal" condition upon the departure of BPS's technicians.
