BERKELEY TOWNSHIP ELEMENTARY SCHOOL
10 EMORY LA
BAYVILLE, NJ 08721

QUOTE DESCRIPTION

Scope of proposed work is to supply and install materials needed to correct deficiencies noted during the recent fire alarm system inspection conducted by Fire Security Technologies.

Repairs are to include the following:

- Sensitivity testing will be performed on **all** smoke detectors. This is to be done every other year in accordance with The International Fire Code, New Jersey Edition section 907.20.3 (Required)
- Replace 2 batteries.

Owner shall provide Fire Security Technologies reasonable and safe access to all areas where the equipment and/or wiring is to be installed or tested.

Upon completion of all repairs listed above, you will be provided with an updated inspection report.

Normal working hours are Monday through Friday, 7:30am to 4:30pm.

Sales and/or use tax has NOT been included in this proposals pricing. If this project is exempt from sales tax the appropriate tax exempt certificate must be included with the purchase order and/or signed proposal. If an approved tax exempt form is not received, invoicing for the project will include applicable taxes which will be in addition to the quoted price in this proposal.

Excessive height, where lifts and ladders are needed, will be the responsibility of the owner, or Fire Security Technologies, Inc. can provide this equipment at an additional cost.

In order to proceed, please sign, date and fax this proposal to 732-938-5796. Upon receipt, we will order the material and schedule the work to be done.

QUOTE DESCRIPTION

This proposal is to provide fire alarm system inspection and testing services. A detailed report shall be provided following the inspection and testing including a list of initiation and signaling devices tested along with the associated circuit and test results for each device. System field devices including pull stations, smoke and heat detectors, duct smoke detectors, fire sprinkler water flow and supervisory devices, audible and visual indicating appliances and auxiliary controls will be functionally tested.

Fire alarm control panel shall be completely inspected and functionally tested to confirm all input/output functions. Each zone or field circuit shall be checked for opens, shorts, or grounds. All Conventional Zones will be tested in accordance with the latest addition of NFPA 72

Fire alarm field devices shall be visually inspected and functionally tested to confirm proper alarm activation.

System smoke detectors shall be cleaned in accordance with the manufacturer's recommendations following the satisfactory activation of the smoke detector during testing.

Fire alarm and detection system control-by-event functions shall be functionally tested and the proper operation confirmed including all functions such as but not limited to; Door closers, Air handler shutdown, Elevator recall, Remote alarm and trouble signaling, Remote annunciation, Door releases, and Smoke hatch activations.

Manual pull stations shall be inspected, tested, cleaned, and adjusted as required to confirm satisfactory operation.

Heat detectors shall be functionally tested via the application of rate-of-rise or fixed temp heat generation to confirm proper detector response and restoral of the device.

Audible and visual signaling devices shall be activated and satisfactory operation shall be confirmed.

Waterflow and tamper switches shall be tested.
Sensitivity testing is not included in this proposal

Field devices shall be tagged with a bar code sticker indicating that Fire Security Technologies, Inc. inspected the specific device at the time and on the date of testing indicated on the inspection report.

A comprehensive inspection report shall be provided to the client following the inspection. The report shall include the following:

- A complete list of all field devices tested along with the appropriate zone response and device test results
- A complete panel checklist including all audible and visual panel indicators and their response to each specific test.
- A complete list of all panel user functions and their confirmed operation as designed by the manufacturer.
- A full description of the system including control panel, field devices and related components indicating the overall systems response to alarm or trouble conditions.

Sales and/or use tax has NOT been included in this proposals pricing. If this project is exempt from sales tax the appropriate tax exempt certificate must be included with the purchase order and/or signed proposal. If an approved tax exempt form is not received, invoicing for the project will include applicable taxes which will be in addition to the quoted price in this proposal.

Owner shall provide Fire Security Technologies reasonable and safe access to all areas where Fire Alarm Equipment will be tested.

Excessive height, where lifts and ladders are needed, will be the responsibility of the owner, or Fire Security Technologies, Inc. can provide this equipment at an additional cost.

All work to be completed during normal working hours of Monday through Friday 8:00 A.M. to 4:30 P.M. If overtime or weekend work is necessary it will be at an additional charge. **The Berkeley TWP BOE will coordinate with their elevator co. at time of inspection to provide Fire Security Technologies, Inc. with safe access to elevator shaft.**

BERKELEY TOWNSHIP BOE MAINT. BLDG
10 EMORY
BAYVILLE, NJ 08721

QUOTE DESCRIPTION

Scope of proposed work is to supply and install materials needed to correct deficiencies noted during the recent fire alarm system inspection conducted by Fire Security Technologies.

Repairs are to include the following:

- Sensitivity testing will be performed on **all** smoke detectors. This is to be done every other year in accordance with The International Fire Code, New Jersey Edition section 907.20.3 (Required)

Owner shall provide Fire Security Technologies reasonable and safe access to all areas where the equipment and/or wiring is to be installed or tested.

Upon completion of all repairs listed above, you will be provided with an updated inspection report.

Normal working hours are Monday through Friday, 7:30am to 4:30pm.

Sales and/or use tax has NOT been included in this proposals pricing. If this project is exempt from sales tax the appropriate tax exempt certificate must be included with the purchase order and/or signed proposal. If an approved tax exempt form is not received, invoicing for the project will include applicable taxes which will be in addition to the quoted price in this proposal.

Excessive height, where lifts and ladders are needed, will be the responsibility of the owner, or Fire Security Technologies, Inc. can provide this equipment at an additional cost.

In order to proceed, please sign, date and fax this proposal to 732-938-5796. Upon receipt, we will order the material and schedule the work to be done.

QUOTE DESCRIPTION

Scope of proposed work is to supply and install materials needed to correct deficiencies noted during the recent fire alarm system inspection conducted by Fire Security Technologies.

Repairs are to include the following:

- Sensitivity testing will be performed on **all** smoke detectors. This is to be done every other year in accordance with The International Fire Code, New Jersey Edition section 907.20.3 (Required)

Owner shall provide Fire Security Technologies reasonable and safe access to all areas where the equipment and/or wiring is to be installed or tested.

Upon completion of all repairs listed above, you will be provided with an updated inspection report.

Normal working hours are Monday through Friday, 7:30am to 4:30pm.

Sales and/or use tax has NOT been included in this proposals pricing. If this project is exempt from sales tax the appropriate tax exempt certificate must be included with the purchase order and/or signed proposal. If an approved tax exempt form is not received, invoicing for the project will include applicable taxes which will be in addition to the quoted price in this proposal.

Excessive height, where lifts and ladders are needed, will be the responsibility of the owner, or Fire Security Technologies, Inc. can provide this equipment at an additional cost.

In order to proceed, please sign, date and fax this proposal to 732-938-5796. Upon receipt, we will order the material and schedule the work to be done.
