|      |             | 22 10-05 - Returned next day to service fire alarm system. Trouble on fire alarm system caused by loose smoke detector in room 301 that was not fully screwed in. Tightened smoke and cleared trouble. Teacher in room 301 said that the ceiling tiles were recently replaced because of water leaks which is a possible reason for not being screwed in all of the way. |            | Y   |        |
