Upon arrival met with Jeff, maintenance, to test smoke detector on 3rd floor. Customer stated due to a resident burning a pot in apartment a great amount of smoke was in the hallway, between A & B wing. I explain to Jeff that there was not enough smoke in the hallway to activate the smoke detector. Also tested the detector with smoke to show that it is an operational device. Panel went into alarm and was also sent to central station. At departure return panel to normal and system is back online.
