[REDACTED]
This morning I called about a woman driving carelessly on route 31 south. She had NY plates and was drifting over the double lines. It was such frightening experience to watch her. I called the Clinton Police Dept and they immediately dispatched a police car who was able to pull her over before she killed someone this morning. I believe today was not her day to die. Thank you for your service!

Wrong Clinton Township. Still, is this considered animal abuse?
