Subject: RE: OPRA request - The glen rock covid testing site

Good evening,

As submitted, your request is denied as it fails to specify with reasonable clarity those documents that are desired, *Bent v. Stafford Police Department*, 381 N.J. Super. 30, 37 (App. Div. 2005). To determine whether requests meet this requirement, the Government Records Council established specific criteria that must be met by the requestor in order for that individual's request to identify specific government communications. The GRC determined that to be valid, the request must contain:

1. the content and/or subject;
2. the specific date or range of dates during which the email(s) were transmitted; and
3. the identity of the sender and/or the recipient thereof

You can revise your request and resubmit it.

Thank you,

Sgt. Trover

Dear Glen Rock Police Department,

This is a request for public records made under OPRA and the common law right of access. I am not required to fill out an official form. Please acknowledge receipt of this message.

Records requested: All emails sent 12/20/2021 to current day (the day this OPRA is processed) that contains the words:

COVID
or
testing site
or
Harding
or
Testing
or
morieko

Yours faithfully,

This is BS

Please use deliver records electronically via email to the below UNIQUE address for all replies to this request:

Subject: Extra Covid Precautions & Completion of No Shave November / December

All,

Just two quick notes:

1. We have a bunch of officers out either sick or with exposure issues due to Covid. This leaves us very low when it comes to having officers to draw from if more officers fall ill or have an exposure issue. With that said, we are asking that all GRPD employees wear a mask while in HQ if you are passing through a common area or are in a room with other employees. If you are sitting alone in a room and want to remove it that's fine, but please put them back on when you are around others. Also please keep up with sanitizing HQ and the vehicles when you can. Tom Jennings has also been very helpful if you ask him to assist with spraying down a certain area of HQ or vehicle when he is around and available. If you have any Covid related questions or need assistance with Covid testing, please reach out to Sgt. Carter.
2. As per Chief Ackermann's 2021 No Shave special order, the last day officers had a no shave option was December 25th. From this point forward, if you are not a member of the detective bureau, you must shave for your next patrol shift or road job.

Subject: Ridgewood Diagnostics COVID Testing Site Extra Duty Job

Scott,

I forgot to leave this information before I left for my week off.

For the Extra Duty Job at the COVID Testing Site:

The regular officers will be billed at Extra Duty Rate with \$20 per hour service charge and the OT will be contra to 016 Off Duty Employment as usual.

The special officers will be billed at the actual rate, with no service charge. Please make sure the funds are contra to 012 Special Officers.

Thanks and best wishes for the New Year!

Subject: RE: COVID-19 Cases GRPD

Kristine,

Attached is our most recent reminder and policy update which was coincidentally issued before we knew we had anyone who was sick. For public safety personnel if you can point to a work related exposure we submit to Bergen Risk as with any other work related exposure or injury. If the officer is exposed off duty or has not been working within the time frame of exposure (in other words there is no way to tell) it would be sick time.

Other than shift change and roll call we seldom have more than one officer in any office at any time, on occasion passing in the hallway. Necessary enhanced precautions are taken when dealing with custodial arrests. We have single officer patrols and it is very rare in the situation where we would have two officers in the same patrol vehicle. The bulk of our officers are not office workers, do not have offices, and unless engaged in responding to a call for service we basically work by ourselves. With the 24/7 schedule we are unlike other Borough Departments where most work at the same time. The reality of our workplace is not comparable to any other borough employee. Unfortunately, the downside to any public safety organization is that we must respond and provide assistance to those individuals who are ill, be it Covid 19 or anything else. Often those that we arrest or have the necessity to field contact are not people who generally take good care of themselves and often have visible illness or infections. This was the case well before Covid 19. It is also sadly not uncommon that people will attack officers with bodily fluids or bite them. We also will have situations where our officers and ambulance corps members will be doing CPR on people in the community who have Covid 19. Those in Public Safety who by our very nature run into danger while others are running away tend to take these things into stride and protect ourselves to that degree which may be possible.

After January 1 when we are back to the state mandated training that we must send officers to I will be very interested to see what precautions are going to be put in place to protect officers who are attending this training. Most notably since there is a physical aspect to the training. Not to mention how the Academy will be coordinating training concerns for our new officer who will begin basic training. I have expressed concerns to both the AG's Office and BCPO that the majority of our officers who have contracted COVID-19 have done so during training not under the immediate control of the department. The prior size of these classes may need to be reexamined and reconciled against the state mandates which don't seem to take COVID-19 into account. But, all of that is well beyond our control.

After today I will be out of the office until January 3, both lieutenants are available in my absence and I am only a phone call away if needed.

Best wishes to all for the holidays and I wish each of you a very safe happy and healthy new year,

Dean

Thank you Lenora yiu took the words out of my mouth.

What is our policy for those on quarantine? Are we following a negative test then return?

And how is their time being accounted for? I'm dealing with this at work now - and we have been advised that any employee who must quarantine, regardless of where they picked it up, is to take personal sick time.

I wish you all a happy and healthier holiday!

That is concerning on a professional and personal level. The omicron variant has certainly taken on a life of it's own and this, and future cases will be the result. As we have very well seen from the line of cars consistently in the parking lot waiting for testing.

This is a good opportunity to remind employees – all employees – of the policies that have been in place since the building reopened – masks are mandatory as soon as you leave your own personal space in the office. If it is community office space, or locker room, or kitchen, masks are required, as well as multiple employees in the same vehicle. Given that we have a mix of vaccinated and unvaccinated employees, this adherence is a must.

Thanks for the update, and I only wish good health for us all now, and in 2022.

Enjoy the holidays and stay safe.

Subject: COVID-19 Cases GRPD

Mayor and Public Safety,

Consistent with what's going on nationwide we have had some Covid 19 issues within the GRPD, this includes breakthrough cases of the fully vaccinated. As a result of a training exercise conducted at the New Jersey State police academy in Sea Girt we have one officer who was confirmed positive with Covid and two other officers were exhibiting symptoms and are awaiting test results. Luckily all are moderate to minor cases. The appropriate contact tracing has been done with appropriate quarantines and a total of nine sworn and civilian personnel are being tested as a precaution. We offered testing even to personnel who may not have actually been considered as exposed. I should point out that the testing site in Glen Rock has gone out of their way to accommodate us.

Of course all of this comes as we were leading to Christmas and at minimum staffing to begin with. As an immediate result we have incurred about 66 hours of overtime, hopefully no one else will test positive and that will be the end of it.

Best wishes,

Dean Ackermann

Subject: Notice about COVID Testing:

Megan and Ashley,

ASAP/would you please put the below message out on all of the Borough's and police departments social media and other forms of communication.

Notice concerning Covid-19 testing on Harding Plaza by Borough Hall.

This testing site is being run by Ridgewood Diagnostic Lab as a free service to anyone seeking a Covid test. This is being conducted at numerous locations in the region including Glen Rock. Neither the Glen Rock Police Department nor the Borough of Glen Rock are running this testing site. The Glen Rock Police Department is dealing with traffic related conditions only. Periodically access to the testing site is being cut off due to traffic backups. Once the workers at the site get caught up and access is possible it will be reopened.

Registering for this site may be done online at testnj.online. For questions about this test event, you may email info@ridgewoodlab.com.

Please do not call the Glen Rock Police Department, the operators at our regional dispatch center have no information available beyond what is posted here, nor does the staff at Borough Hall.

Thanks you for your cooperation.

I have just spoke to Rami. They are willing to pay all costs for a police officer to be present. This is happening at all Covid testing sites right now. Also they will be open until 3 on Christmas Eve.

Subject: COVID Testing Line

CORONA SQUAD,

I'm sure it comes as no surprise to anyone that the Covid testing line has seen a tremendous spike in activity. In the early morning hours it was

not much of a problem, however, as noon time approached it became a traffic hazard. For today we were able to rearrange the hours for Special Officers Friedman and Harte, however, I am limited as to the amount of hours our part-time special officers can legally work and I cannot offer S.P.O. Aliano overtime unless every regular officer who is available turns down the overtime. Moving forward for the next couple of weeks I would imagine that the lines are going to be pretty long, at the time of this email we have about 70 cars lined up stretching from the parking lot out onto Harding Plaza. We will not let them stretch onto Maple Avenue or Rock Road, and also must ensure that buses can get through. Rush hour should be a bit of a challenge, luckily this testing site closes at 6:00 PM and our special officers will stay till that time if needed.

This is going to pose a challenge as we are at minimum staffing for the rest of the year and are going to have to explore our options. If the testing group can station an employee in the parking lot at the northernmost entrance to the Harding Plaza commuter lot (across from the bus stop) to coordinate their line that would help tremendously. Beyond that, once things start backing up into the street we are going to incur the expense of having either a regular or special officer there depending upon availability. Do we know if this site will be open on Christmas Eve and Christmas Day? Are there any changes in hours for the remainder of the year. Clearly this is going to be an unanticipated cost.

Please let me know what your thoughts are on this as I will have to have Lieut. Riggio start scheduling at least through the remainder of this week.

Thanks,

Dean Ackermann

Subject: COVID Testing Line

CORONA SQUAD,

I'm sure it comes as no surprise to anyone that the Covid testing line has seen a tremendous spike in activity. In the early morning hours it was not much of a problem, however, as noon time approached it became a traffic hazard. For today we were able to rearrange the hours for Special Officers Friedman and Harte, however, I am limited as to the amount of hours our part-time special officers can legally work and I cannot offer S.P.O. Aliano overtime unless every regular officer who is available turns down the overtime. Moving forward for the next couple of weeks I would imagine that the lines are going to be pretty long, at the time of this email we have about 70 cars lined up stretching from the parking lot out onto Harding Plaza. We will not let them stretch onto Maple Avenue or Rock Road, and also must ensure that buses can get through. Rush hour should be a bit of a challenge, luckily this testing site closes at 6:00 PM and our special officers will stay till that time if needed.

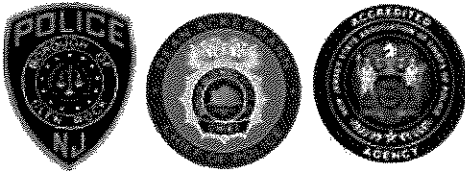

This is going to pose a challenge as we are at minimum staffing for the rest of the year and are going to have to explore our options. If the testing group can station an employee in the parking lot at the northernmost entrance to the Harding Plaza commuter lot (across from the bus stop) to coordinate their line that would help tremendously. Beyond that, once things start backing up into the street we are going to incur the expense of having either a regular or special officer there depending upon availability. Do we know if this site will be open on Christmas Eve and Christmas Day? Are there any changes in hours for the remainder of the year. Clearly this is going to be an unanticipated cost.

Please let me know what your thoughts are on this as I will have to have Lieut. Riggio start scheduling at least through the remainder of this week.

Thanks,

Dean Ackermann

Subject: RE: COVID Testing Line

All,

We just had to shut the line down because it has become far too much of a hazard. Once the workers can get caught up and Harding Plaza clears it will be opened up again. Lieut. Riggio is having central put out a Nixle message.

We will schedule people on an extra duty assignment for the remainder of the week, we clearly have no choice in this is not something patrol will be able to handle. Most likely this will continue into next week, we will reevaluate based upon our exposure from this week and schedule accordingly.

I will keep you posted.

Subject: COVID Testing Line

CORONA SQUAD,

I'm sure it comes as no surprise to anyone that the Covid testing line has seen a tremendous spike in activity. In the early morning hours it was not much of a problem, however, as noon time approached it became a traffic hazard. For today we were able to rearrange the hours for Special Officers Friedman and Harte, however, I am limited as to the amount of hours our part-time special officers can legally work and I cannot offer S.P.O. Aliano overtime unless every regular officer who is available turns down the overtime. Moving forward for the next couple of weeks I would imagine that the lines are going to be pretty long, at the time of this email we have about 70 cars lined up stretching from the parking lot out onto Harding Plaza. We will not let them stretch onto Maple Avenue or Rock Road, and also must ensure that buses can get through. Rush hour should be a bit of a challenge, luckily this testing site closes at 6:00 PM and our special officers will stay till that time if needed.

This is going to pose a challenge as we are at minimum staffing for the rest of the year and are going to have to explore our options. If the testing group can station an employee in the parking lot at the northernmost entrance to the Harding Plaza commuter lot (across from the bus stop) to coordinate their line that would help tremendously. Beyond that, once things start backing up into the street we are going to incur the expense of having either a regular or special officer there depending upon availability. Do we know if this site will be open on Christmas Eve and Christmas Day? Are there any changes in hours for the remainder of the year. Clearly this is going to be an unanticipated cost.

Please let me know what your thoughts are on this as I will have to have Lieut. Riggio start scheduling at least through the remainder of this week.

Thanks,

Dean Ackermann

Subject: Ridgewood Diagnostics COVID Testing Site Extra Duty Job

Scott,

I forgot to leave this information before I left for my week off.

For the Extra Duty Job at the COVID Testing Site:

The regular officers will be billed at Extra Duty Rate with \$20 per hour service charge and the OT will be contra to 016 Off Duty Employment as usual.

The special officers will be billed at the actual rate, with no service charge. Please make sure the funds are contra to 012 Special Officers.

Thanks and best wishes for the New Year!

Subject: UPDATED COVID PROTOCOL FOR 2022

Good Morning – please see updated covid protocol for 2022. It has been a trying time dealing with this up-tick in cases, and January looks no different.

Please remind your staff to be aware, if they are not feeling well please do not come to work, wear a mask in common areas and in vehicles with more than one person, and continue to protect yourself and your fellow employees as best you can.

All the best for a Happy New Year, and here's to a healthier 2022.

Workplace violence couldn't happen at your organization... or could it? At this live online seminar you'll:

- Learn how to evaluate visitor access to your organization and increase security in your lobby and front desk area
- Discover foolproof ways to discourage guests from "finding their own way" through your facility
- Know the very best responses to a variety of emergency situations — from bomb threats to fire to medical emergencies
- Find out how you should respond when weapons are involved
- Suggestions on steps to take beginning at the front desk to keep workers safe
- And much more

Onsite group training—Addressing skill gaps. Maximizing efficiency. Live at your location, or online. Learn more.

*To receive your special 20% DISCOUNT, you must register for the seminar online and provide your Express Code #804054 during checkout. This offer is available only for new online registrations for the seminar, *Front Desk Safety & Security*, and cannot be combined with any other offer. Offer expires January 28, 2022. Chiefs,

Our partners at Lawman supply, in Garfield, has informed me that they have at home COVID-19 tests for purchasing. They are selling the Abbc Binax NOW POC (point of Care) COVID 19 self-test. Our point of contact (POC), Brian Bruton, is assuring that there will be prompt delivery within 12 days as well as having an ample supply nationwide.

Mr. Bruton is selling the kits in the following quantity:

- **Box-----40 tests per box**
- **Case -----640 tests**
- **Pallet-----6400 tests**

If you have any questions you can contact Brian Bruton at:

Municipal Emergency Services & Lawmen Supply Company
Office: 862-295-1011

Mobile Number: 917-843-4311

Brian.bruton@lawmensupply.com

Subject: Off Duty Police Traffic Control at the Harding Plaza Covid Testing Site

All,

I spoke with the employees at the Harding Plaza Covid testing site and they advised me that as of yesterday, they changed up the way appointments are made and discontinued allowing walk ups to the site. Officers working the detail have noticed that traffic has been greatly reduced since Monday and it seems at most 7 or 8 cars have been there at one time. With that said, I spoke to Rami from Ridgewood Diagnostics and we are going to do away with the need for off duty police traffic control beginning tomorrow since the volume of traffic is no longer there. I told him we would reassess if something changes and traffic starts to become an issue again in the future.

From: Lt. F. Riggio
Sent: Sunday, December 26, 2021 1:36 PM
To: GRPD - All Staff
Subject: Extra Covid Precautions & Completion of No Shave November / December

All,

Just two quick notes:

1. We have a bunch of officers out either sick or with exposure issues due to Covid. This leaves us very low when it comes to having officers to draw from if more officers fall ill or have an exposure issue. With that said, we are asking that all GRPD employees wear a mask while in HQ if you are passing through a common area or are in a room with other employees. If you are sitting alone in a room and want to remove it that's fine, but please put them back on when you are around others. Also please keep up with sanitizing HQ and the vehicles when you can. Tom Jennings has also been very helpful if you ask him to assist with spraying down a certain area of HQ or vehicle when he is around and available. If you have any Covid related questions or need assistance with Covid testing, please reach out to Sgt. Carter.
2. As per Chief Ackermann's 2021 No Shave special order, the last day officers had a no shave option was December 25th. From this point forward, if you are not a member of the detective bureau, you must shave for your next patrol shift or road job.

CLEARY | GIACOBBE | ALFIERI | JACOBS LLC

CLIENT ALERT
DECEMBER 22, 2021
OSHA EMERGENCY TEMPORARY STANDARD
COVID-19 VACCINATION AND TESTING

On November 4, 2021, the U.S. Department of Labor, Occupational Safety and Health Administration ("OSHA") announced a new emergency temporary standard (the "ETS") to protect workers from the coronavirus disease 2019 ("COVID-19") while at work.[1] The ETS became effective when published in the Federal Register on November 5, 2021.[2]

On November 6, 2021, the U.S. Court of Appeals for the Fifth Circuit (the "Fifth Circuit") temporarily stayed enforcement of the ETS pending expedited judicial review.[3] On November 12, 2021, the Fifth Circuit conducted an expedited judicial review and reaffirmed its initial stay of the ETS and ordered that OSHA take no steps to implement or enforce the ETS.[4]

Pursuant to 28 U.S.C. § 2112(a)(3), several petitions challenging the ETS filed across the country were consolidated into the U.S. Court of Appeals for the Sixth Circuit (the "Sixth Circuit"). On December 17, 2021, pursuant to 28 U.S.C. § 2112(a)(4), the Sixth Circuit dissolved the stay issued by the Fifth Circuit.[5]

Requirements of ETS – Mandatory Vaccination or Testing Policy:

- Covered employers must establish, implement and enforce a mandatory COVID-19 vaccination policy, see 29 C.F.R. 1910.501(d)(1); **OR, ALTERNATIVELY,**
- Covered employers must establish, implement and enforce a policy requiring employees who are not fully vaccinated against COVID-19 to provide proof of weekly COVID-19 testing and wear a face covering at work, see 29 C.F.R. 1910.501(d)(2).

Additional Requirements of ETS – Covered Employers must:

- Determine the vaccination status of each employee, obtain acceptable proof of vaccination status from vaccinated employees and maintain records and a roster of each employee's vaccination status, see 29 C.F.R. 1910.501(e); **and**
- Provide employees reasonable time, including up to 4 hours of paid time, including travel time, to receive each primary COVID-19 vaccination dose, and reasonable time and paid sick leave to recover from any side effects experienced following such doses, see 29 C.F.R. 1910.501(f); **and**
- Ensure each worker who is not fully vaccinated is tested for COVID-19 at least weekly (if the worker is in the workplace at least once a week) or within 7 days before returning to work (if the worker is away from the workplace for a week or longer) and maintain a record of each test result provided by such employees, see 29 C.F.R. 1910.501(g)(1)-(2), (4); **and**
- Require employees to provide prompt notice when they test positive for COVID-19 or receive a COVID-19 diagnosis; remove the employee from the workplace, regardless of vaccination status; and disallow the employee from returning to work until they meet required criteria for discontinuing isolation, see 29 C.F.R. 1910.501(g)(3), 29 C.F.R. 1910.501(h); **and**
- Ensure that, in most circumstances, each employee who has not been fully vaccinated wears a face covering properly when indoors or when occupying a vehicle with another person for work purposes, see 29 C.F.R. 1910.501(i); **and**

- Provide each employee with information, in a language and at a literacy level the employee understands, about the requirements of the ETS and workplace policies and procedures established to implement the ETS; vaccine efficacy, safety, and the benefits of being vaccinated (by providing the CDC document “Key Things to Know About COVID-19 Vaccines”[6]); protections against retaliation and discrimination; and laws that provide for criminal penalties for knowingly supplying false statements or documentation, see 29 C.F.R. 1910.501(j); **and**
- Report work-related COVID-19 fatalities to OSHA within 8 hours of learning about them, and work-related COVID-19 in-patient hospitalizations within 24 hours of the employer learning about the hospitalization, see 29 C.F.R. 1910.501(k); **and**
- Make records available for examination and copying to an employee (and to anyone having written authorized consent of that employee) or an employee representative, see 29 C.F.R. 1910.501(l).

Covered Employers:

- Private employers with 100 or more employees (firm- or corporate-wide); **and**
- In states with OSHA-approved State Plans (e.g., New Jersey):
 - State-and local-government employers with 100 or more employees.
 - Private employers with 100 or more employees.[7]

New Jersey PEOSH

New Jersey has an OSHA-approved State Plan created under the Public Employees Occupational Safety and Health (“PEOSH”) Act, which is co-administered by the New Jersey Department of Health (“NJDOH”) and New Jersey Department of Labor & Workforce Development (“NJDOL”).

Within 30 days of the promulgation date of the ETS, the NJDOH and NJDOL must either amend the PEOSH standards to be identical or “at least as effective as” the ETS, or show that an existing PEOSH standard covering this area is “at least as effective” as the ETS. Any new or existing PEOSH standard must remain in effect for the duration of the ETS. New Jersey must notify OSHA of the action it will take within 15 days.

Ultimately, public employers in New Jersey will be required to follow the New Jersey PEOSH standard. It is possible that the New Jersey PEOSH standard may be more restrictive than the ETS (e.g., requiring all state- and local-government employers to follow the requirements of the ETS, regardless of number of employees). In addition, it is possible that the New Jersey PEOSH standard may impose different requirements regarding who is responsible for costs associated with COVID-19 testing and face coverings, for employees who choose not to be vaccinated.

Employers Not Covered:

- Workplaces covered under the Safer Federal Workforce Task Force COVID-19 Workplace Safety: Guidance for Federal Contractors and subcontractors.
- Settings where any employee provides healthcare services or healthcare support services when subject to the requirements of the Healthcare ETS (§ 1910.502).
- Workplaces of employers who have fewer than 100 employees in total.

Accommodations to the ETS:

Under the ETS, a mandatory vaccination policy must include all employees, including all new employees, except employees who fall into one of the following categories:

- Those for whom a vaccine is medically contraindicated;
- Those for whom medical necessity requires a delay in vaccination; or
- Those legally entitled to a reasonable accommodation under federal civil rights laws because they have a disability or sincerely held religious beliefs, practices, or observances that conflict with the vaccination requirement.

Employers must consider requests for accommodations from employees who:

- Have a disability or pre-existing health condition precluding them from getting a COVID-19 vaccine;
- Have been specifically advised by their doctor not to get a COVID-19 vaccine while pregnant or breastfeeding; or
- Have a sincerely held religious belief, practice, or observance precluding them from getting a COVID-19 vaccine.

ETS requirements do not apply to:

- Employees who do not report to a workplace where other individuals are present.
- Employees while working from home.
- Employees who work exclusively outdoors.

Costs:

The ETS does not require the employer to pay for any costs associated with testing or providing face coverings to employees. *However employer payment for testing and face coverings may be required by other laws, regulations, or collective bargaining agreements or other collectively negotiated agreements.*

With respect to the ETS, OSHA determined that it would not be “appropriate”, pursuant to 29 U.S.C. 655(b)(7), to impose on employers any costs associated with COVID-19 testing for employees who choose not to be vaccinated, which is considered a less protective option compared to vaccination.[8]

Compliance:

The text of the ETS included the following compliance dates:

- Employers must comply with all requirements of this section, except for testing requirements, by December 6, 2021. See 29 C.F.R. 1910.501(m)(2)(i).
- Employers must comply with testing requirements by January 4, 2022, but employees who have completed the entire primary vaccination by that date do not have to be tested, even if they have not yet completed the 2-week waiting period. See 29 C.F.R. 1910.501(m)(2)(ii).

Due to the Fifth Circuit stay and the Sixth Circuit’s recent dissolution of the stay, OSHA has advised[9] that it will relax enforcement of the ETS to permit employers to come into compliance (as long as employers are exercising reasonable, good faith efforts to come into compliance with the ETS), as follows:

- OSHA will not issue citations for noncompliance with any requirements before **January 10, 2022**.
- OSHA will not issue citations for noncompliance with testing requirements before **February 9, 2022**.

The information provided in this Client Alert is subject to revision and modification based on additional or updated guidance from State and Federal officials and/or pending litigation. Guidance and requirements related to COVID-19 are continuously changing. Please contact our office for additional assistance.

Interestingly enough I just received a last-minute notice that the mandated use of force training next week at the Bergen County police Academy has been canceled. Moving forward they will be scheduling on a week by week basis.

Kristine,

Attached is our most recent reminder and policy update which was coincidentally issued before we knew we had anyone who was sick. For public safety personnel if you can point to a work related exposure we submit to Bergen Risk as with any other work related exposure or injury. If the officer is exposed off duty or has not been working within the time frame of exposure (in other words there is no way to tell) it would be sick time.

Other than shift change and roll call we seldom have more than one officer in any office at any time, on occasion passing in the hallway. Necessary enhanced precautions are taken when dealing with custodial arrests. We have single officer patrols and it is very rare in the situation where we would have two officers in the same patrol vehicle. The bulk of our officers are not office workers, do not have offices, and unless engaged in responding to a call for service we basically work by ourselves. With the 24/7 schedule we are unlike other Borough Departments where most work at the same time. The reality of our workplace is not comparable to any other borough employee. Unfortunately, the downside to any public safety organization is that we must respond and provide assistance to those individuals who are ill, be it Covid 19 or anything else. Often those that we arrest or have the necessity to field contact are not people who generally take good care of themselves and often have visible illness or infections. This was the case well before Covid 19. It is also sadly not uncommon that people will attack officers with bodily fluids or bite them. We also will have situations where our officers and ambulance corps members will be doing CPR on people in the community who have Covid 19. Those in Public Safety who by our very nature run into danger while others are running away tend to take these things into stride and protect ourselves to that degree which may be possible.

After January 1 when we are back to the state mandated training that we must send officers to I will be very interested to see what precautions are going to be put in place to protect officers who are attending this training. Most notably since there is a physical aspect to the training. Not to mention how the Academy will be coordinating training concerns for our new officer who will begin basic training. I have expressed concerns to both the AG's Office and BCPO that the majority of our officers who have contracted COVID-19 have done so during training not under the immediate control of the department. The prior size of these classes may need to be reexamined and reconciled against the state mandates which don't seem to take COVID-19 into account. But, all of that is well beyond our control.

After today I will be out of the office until January 3, both lieutenants are available in my absence and I am only a phone call away if needed.

Best wishes to all for the holidays and I wish each of you a very safe happy and healthy new year,

Dean

Thank you Lenora yiu took the words out of my mouth.

What is our policy for those on quarantine? Are we following a negative test then return?

And how is their time being accounted for? I'm dealing with this at work now - and we have been advised that any employee who must quarantine, regardless of where they picked it up, is to take personal sick time.

I wish you all a happy and healthier holiday!

That is concerning on a professional and personal level. The omicron variant has certainly taken on a life of it's own and this, and future cases will be the result. As we have very well seen from the line of cars consistently in the parking lot waiting for testing.

This is a good opportunity to remind employees – all employees – of the policies that have been in place since the building reopened – masks are mandatory as soon as you leave your own personal space in the office. If it is community office space, or locker room, or kitchen, masks are required, as well as multiple employees in the same vehicle. Given that we have a mix of vaccinated and unvaccinated employees, this adherence in a must.

Thanks for the update, and I only wish good health for us all now, and in 2022.

Enjoy the holidays and stay safe.

Mayor and Public Safety,

Consistent with what's going on nationwide we have had some Covid 19 issues within the GRPD, this includes breakthrough cases of the fully vaccinated. As a result of a training exercise conducted at the New Jersey State police academy in Sea Girt we have one officer who was confirmed positive with Covid and two other officers were exhibiting symptoms and are awaiting test results. Luckily all are moderate to minor cases. The appropriate contact tracing has been done with appropriate quarantines and a total of nine sworn and civilian personnel are being tested as a precaution. We offered testing even to personnel who may not have actually been considered as exposed. I should point out that the testing site in Glen Rock has gone out of their way to accommodate us.

Of course all of this comes as we were leading to Christmas and at minimum staffing to begin with. As an immediate result we have incurred about 66 hours of overtime, hopefully no one else will test positive and that will be the end of it.

Best wishes,

Dean Ackermann

Attachments: Extra Duty Agreement - Open Contract 2022.pdf

Tom,

Attached is our extra duty job agreement that Rami will need to sign off and send back to me. I made it an open contract so that he does not have to re-sign one each week. Just let him know that this is going to be both regular officers and special officers (based on who is available) where we use a Special the rate will be lower, but I cannot predict from day to day who is going to be available.

Thanks,

Dean Ackermann

Megan and Ashley,

ASAP/would you please put the below message out on all of the Borough's and police departments social media and other forms of communication.

Notice concerning Covid-19 testing on Harding Plaza by Borough Hall.

This testing site is being run by Ridgewood Diagnostic Lab as a free service to anyone seeking a Covid test. This is being conducted at numerous locations in the region including Glen Rock. Neither the Glen Rock Police Department nor the Borough of Glen Rock are running this testing site. The Glen Rock Police Department is dealing with traffic related conditions only. Periodically access to the testing site is being cut off due to traffic backups. Once the workers at the site get caught up and access is possible it will be reopened.

Registering for this site may be done online at testnj.online. For questions about this test event, you may email info@ridgewoodlab.com.

Please do not call the Glen Rock Police Department, the operators at our regional dispatch center have no information available beyond what is posted here, nor does the staff at Borough Hall.

Thanks you for your cooperation.

Subject: COVID Testing Line

CORONA SQUAD,

I'm sure it comes as no surprise to anyone that the Covid testing line has seen a tremendous spike in activity. In the early morning hours it was

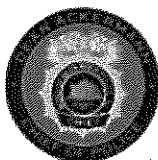

not much of a problem, however, as noon time approached it became a traffic hazard. For today we were able to rearrange the hours for Special Officers Friedman and Harte, however, I am limited as to the amount of hours our part-time special officers can legally work and I cannot offer S.P.O. Aliano overtime unless every regular officer who is available turns down the overtime. Moving forward for the next couple of weeks I would imagine that the lines are going to be pretty long, at the time of this email we have about 70 cars lined up stretching from the parking lot out onto Harding Plaza. We will not let them stretch onto Maple Avenue or Rock Road, and also must ensure that buses can get through. Rush hour should be a bit of a challenge, luckily this testing site closes at 6:00 PM and our special officers will stay till that time if needed.

This is going to pose a challenge as we are at minimum staffing for the rest of the year and are going to have to explore our options. If the testing group can station an employee in the parking lot at the northernmost entrance to the Harding Plaza commuter lot (across from the bus stop) to coordinate their line that would help tremendously. Beyond that, once things start backing up into the street we are going to incur the expense of having either a regular or special officer there depending upon availability. Do we know if this site will be open on Christmas Eve and Christmas Day? Are there any changes in hours for the remainder of the year. Clearly this is going to be an unanticipated cost.

Please let me know what your thoughts are on this as I will have to have Lieut. Riggio start scheduling at least through the remainder of this week.

Thanks,

Dean Ackermann

Subject: COVID Testing Line

CORONA SQUAD,

I'm sure it comes as no surprise to anyone that the Covid testing line has seen a tremendous spike in activity. In the early morning hours it was not much of a problem, however, as noon time approached it became a traffic hazard. For today we were able to rearrange the hours for Special Officers Friedman and Harte, however, I am limited as to the amount of hours our part-time special officers can legally work and I cannot offer S.P.O. Aliano overtime unless every regular officer who is available turns down the overtime. Moving forward for the next couple of weeks I would imagine that the lines are going to be pretty long, at the time of this email we have about 70 cars lined up stretching from the parking lot out onto Harding Plaza. We will not let them stretch onto Maple Avenue or Rock Road, and also must ensure that buses can get through. Rush hour should be a bit of a challenge, luckily this testing site closes at 6:00 PM and our special officers will stay till that time if needed.

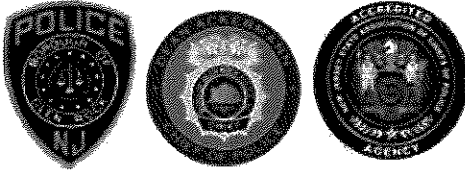

This is going to pose a challenge as we are at minimum staffing for the rest of the year and are going to have to explore our options. If the testing group can station an employee in the parking lot at the northernmost entrance to the Harding Plaza commuter lot (across from the bus stop) to coordinate their line that would help tremendously. Beyond that, once things start backing up into the street we are going to incur the expense of having either a regular or special officer there depending upon availability. Do we know if this site will be open on Christmas Eve and Christmas Day? Are there any changes in hours for the remainder of the year. Clearly this is going to be an unanticipated cost.

Please let me know what your thoughts are on this as I will have to have Lieut. Riggio start scheduling at least through the remainder of this week.

Thanks,

Aliano overtime unless every regular officer who is available turns down the overtime. Moving forward for the next couple of weeks I would imagine that the lines are going to be pretty long, at the time of this email we have about 70 cars lined up stretching from the parking lot out onto Harding Plaza. We will not let them stretch onto Maple Avenue or Rock Road, and also must ensure that buses can get through. Rush hour should be a bit of a challenge, luckily this testing site closes at 6:00 PM and our special officers will stay till that time if needed.

This is going to pose a challenge as we are at minimum staffing for the rest of the year and are going to have to explore our options. If the testing group can station an employee in the parking lot at the northernmost entrance to the Harding Plaza commuter lot (across from the bus stop) to coordinate their line that would help tremendously. Beyond that, once things start backing up into the street we are going to incur the expense of having either a regular or special officer there depending upon availability. Do we know if this site will be open on Christmas Eve and Christmas Day? Are there any changes in hours for the remainder of the year. Clearly this is going to be an unanticipated cost.

Please let me know what your thoughts are on this as I will have to have Lieut. Riggio start scheduling at least through the remainder of this week.

Thanks,

Dean Ackermann

Subject: COVID Testing Line

CORONA SQUAD,

I'm sure it comes as no surprise to anyone that the Covid testing line has seen a tremendous spike in activity. In the early morning hours it was not much of a problem, however, as noon time approached it became a traffic hazard. For today we were able to rearrange the hours for Special Officers Friedman and Harte, however, I am limited as to the amount of hours our part-time special officers can legally work and I cannot offer S.P.O. Aliano overtime unless every regular officer who is available turns down the overtime. Moving forward for the next couple of weeks I would imagine that the lines are going to be pretty long, at the time of this email we have about 70 cars lined up stretching from the parking lot out onto Harding Plaza. We will not let them stretch onto Maple Avenue or Rock Road, and also must ensure that buses can get through.
