

Public Services Librarian for the Sciences, Rowan University, Glassboro, NJ

Post Date:	
Job Number:	
Category:	Library
Facility:	Rowan Main Campus
Department:	Rowan University Libraries
Status:	Regular Full-time
Internal/External:	External
Deadline Date:	1/31/17
Salary:	Competitive
Location:	Glassboro, NJ

The Public Services Librarian for the Sciences will have instructional, reference and collection development responsibilities within Campbell Library; and will build partnerships and collaborations across Rowan University as liaison to the departments of Biological Sciences, Translational Biomedical Science, Chemistry & Biochemistry, and Health & Exercise Science.

This tenure track position will report to the Director of Public Services and serve as a member of the Research and Instructional Services Department. The successful candidate for this position may be hired at the rank of Librarian III or Librarian II depending on qualifications.

The librarian in this position will:

- Design and deliver a dynamic reference and instruction program for the sciences that emphasizes the integration of digital resources, promotes inquiry and critical thinking, and strives to produce information literate and technically proficient self-directed learners
- Actively build partnerships with faculty and library colleagues to develop programs and services that support research and scholarship in the life sciences
- Carry out collection management responsibilities for assigned departments and programs in the sciences
- Collaborate with other librarians on the main campus in the delivery of classroom based *library instruction and individual research support for students and faculty*
- Develop web-based research guides, instructional materials, and web pages to help users in science research
- Partner with librarians across the multi-campus environment: Rowan University School of Osteopathic Medicine (RUSOM) and Cooper Medical School of Rowan University (CMSRU)
- Serve on library committees, represent the library on university committees, and participate in consortium, state, regional and national activities of relevant organizations
- Pursue appropriate presentation and publication opportunities expected for a library faculty member on the tenure track
- Carry out special projects or serve on ad hoc committees at the request of the Director of Public Services
