Good Morning. Hope you are having a nice weekend. How is the water at your house? Did you have any issue with discoloration?

Good morning....I have not had any issues with that although have seen the comments on Facebook the last couple of days

Thank you, we had an issue the other night for sure, but a guy down the street from you says he's had problems for 3 days

He's had problems for 3 days.

I will ask my friends down the street

67 Linden no problems.... but my friends in 103 Linden said it has been a problem for 4 days

Thank you. Great information.

3 days not 4
