

DIVERSION

(Law Enforcement, Family Crisis
Intervention Unit, and Family Court)

- Definition & Rationale
- Required Data & Methodology
- Data Worksheets
- Analysis Questions

DIVERSION DEFINITION & RATIONALE

The Diversion stage of the juvenile justice system offers alleged juvenile offenders an opportunity to avoid arrest and/or prosecution by providing alternatives to the formal juvenile justice system process. The goal of Diversion is to provide services and/or informal sanctions to youth who have begun to engage in low level delinquent behavior in an effort to prevent youth from continuing on a delinquent pathway. Youth who do not successfully complete a diversion program may ultimately have their case referred for formal processing by the juvenile court. Given this goal, Diversion programs developed through the comprehensive planning process should clearly focus on providing services and/or informal sanctions that address the known causes and correlates of delinquency.

Diversion Process

In New Jersey, juveniles are dealt with informally through one or more of the following: Law Enforcement Station House Adjustments, Family Crisis Intervention Units (FCIU), Family Court Juvenile Conference Committees, or Family Court Intake Service Conferences.

Law enforcement officers might divert a youth suspected of a delinquent act if, in lieu of making an arrest, the officer chooses to dismiss the youth with a warning and reprimand, or to refer the youth to a social service agency. This process is known as a station house adjustment.

Youth who are accused of committing a delinquent act directly tied to family dysfunction may be diverted, with their families, to the Family Crisis Intervention Unit. The FCIU can provide services to youth and their families to resolve the immediate crisis leading to delinquency, thereby preventing the juvenile and his or her family from entering the formal court system.

Diversions within Family Court occur after a complaint has been filed, but prior to the case being formally heard by a judge. At this point, youth may be diverted to either a Juvenile Conference Committee (JCC) or to an Intake Service Conference (ISC). First and second time offenders charged with low level delinquent offenses may be diverted first to the JCC - a committee of volunteers from the community who attempt to settle the complaint. Complaints not resolved at the JCC level are referred to an Intake Service Conference. An ISC is a meeting between the youth and an intake officer who attempts to settle the case. Complaints not resolved at the ISC may be referred to a judge for formal disposition.

Diversion Programs

Diversion programs are the structured services and sanctions typically provided to youth and/or their families at any point in the Diversion process. A law enforcement agency or the court might operate a Diversion program directly or the youth might participate in a program operated by a contracted service provider.

Diversion data describe trends in the extent and nature of cases diverted in your County that reflect the causes and correlates of delinquent activity. By understanding the volume of the existing types of diversion cases and the factors associated with involvement in delinquency,

DIVERSION REQUIRED DATA & METHODOLOGY

- All data are county-specific unless otherwise indicated.
- Round all percentages to one decimal place.
- Cells in the data tables are identified with a letter/number combination, where the letter identifies the column and the number identifies the row (e.g., A1 = Column A, Row 1).

LAW ENFORCEMENT

Required Data	Juvenile cases handled within department and released, referred to juvenile court or probation department, referred to welfare agency, referred to other police agency, and referred to criminal or adult court for calendar years 2012, 2014, and 2015.
Source	Uniform Crime Report 2012, 2014, and 2015, located at www.njsp.org/info/stats.html .
Methods	<u>Table 1. Police Disposition of Juveniles Taken into Custody by Disposition Type</u> ➤ <i>Number (Columns A, C, E).</i> Insert the number of dispositions for each disposition type and the number of total police disposition of juveniles for each year. ➤ <i>Percent of Total Dispositions (Columns B, D, F).</i> Calculate the percent of each disposition type and the County's total police disposition of juveniles for each year. To obtain the percent, divide the number of disposition type by the total police disposition of juveniles and multiply by 100. Formula 1 is an example of how to calculate the percent of the County's total juveniles handled within department and released in 2015. <u>Formula 1.</u> $\frac{\text{Number Handled and Released 2015 (A1)}}{\text{Total Disposition 2015 (A6)}} = \frac{\quad}{\quad} \times 100 = \text{\% Handled and Released 2015 (B1)}$ ➤ <i>Percent Change (Column G).</i> Calculate the percent change for each disposition type and the County's total police disposition of juveniles using Formula 2. <u>Formula 2.</u> $\frac{\text{Most Recent Year \# (2015) - Prior Year \# (2012)}}{\text{Prior Year \# (2012)}} = \frac{\quad}{\quad} \times 100 = \text{\% Change 2012-2015}$
Data Checks	➤ In <i>Table 1</i>, the figures in Row 1 through Row 5 should add up to the figure in Row 6 for each of the three years (but not for percent change).

Data Checks	➤ In <i>Table 2</i>, the figures in Row 1 through Row 6 should add up to the figure in Row 7 for each of the three years (but not for percent change). In <i>Table 3</i>, the figures in Row 1 and Row 2 should add up to the figure in Row 3 for each of the three years (but not for percent change). In <i>Table 4</i>, the figures in Row 1 through Row 3 should add up to the figure in Row 4 for each of the three years (but not for percent change). ➤ For example <i>Table 3</i>, A1 (juveniles/family crisis) + A2 (out-of-home) = A3 (total petitions filed), and B1 (% juveniles/family crisis) + B2 (% out-of-home) = 100% (total petitions filed).
--------------------	---

FAMILY COURT

Required Data	Total juveniles diverted from Family Court for calendar years 2012 and 2015.
Source	Administrative Office of the Courts, 2012 and 2015 (JJC will provide data to the Counties).
Methods	<u><i>Table 5. Juvenile Court Referral (New Filings)</i></u> ➤ <i>Number (Columns A, and B)</i>. Insert the total number of juveniles diverted for each year. ➤ <i>Percent Change (Column C)</i>. Calculate the percent change in the County's total juveniles diverted between 2015 and 2012 (use Formula 2).

DIVERSION ANALYSIS QUESTIONS

- When answering questions regarding trends, describe *whether* any change has occurred, the *direction* of any change (e.g., increase/up, decrease/down), and the *size* of any change (e.g., small, moderate, large).
- When answering questions regarding rank orders, draw comparisons between categories (e.g., using terms like least/smallest, most/largest).

NATURE & EXTENT OF DIVERTED CASES

LAW ENFORCEMENT STATION HOUSE ADJUSTMENTS

- For Questions 1-2, use Table 1 (Police Disposition of Juveniles Taken into Custody by Disposition Type).

1. Look at the Total Police Disposition of Juveniles (Row 6) and describe the overall change in police disposition of juveniles between 2012 and 2015.

There were a total of 446 police dispositions of juveniles in 2012 and a total of 297 in 2015. The total decrease of 149 total dispositions.

2. Look at Cases Handled within Department and Released (Row 1) and describe the overall change in police diversion of juveniles between 2012 and 2015.

There were a total of 35 cases handled in 2012 and a total of 14 in 2015. The total decrease of 21 total cases handled within the department and released represents a decrease of 60%.

FAMILY CRISIS INTERVENTION UNITS

- For Questions 3-7, use Table 2 (FCIU Caseload by Category, 2012 and 2015).

3. Look at the FCIU Total Caseload (Row 7) and describe the overall change in the FCIU caseload between 2012 and 2015.

In 2012, there were (151) total cases. In 2015, there were (182) total cases. The difference of (+31) cases represented an increase of 20.5% between 2012 and 2015 total FCIU caseload.

4. Insert into the chart below the FCIU caseloads beginning with the category that has the greatest number of cases.

Ranking of FCIU Caseload Categories for 2015		
Rank	Category	Number
1	Other	91
2	Serious conflict between parent/guardian and juvenile	53
3	Serious threat to the well-being/physical safety of juvenile	32
4	Truancy	4
5	Unauthorized absence by a juvenile for more than 24 hours	2
6	Disorderly/Petty Disorderly Persons offense diverted to FCIU	0

5. Insert into the chart below the % Change in Number of Cases column (Column G), between 2012 and 2015, from largest to smallest.

Ranking of FCIU Caseload Categories between 2012 and 2015			
Rank	Category	% Change	Number
1	Other	+133.3%	91
2	Truancy	-42.9%	4
3	Serious conflict between parent/guardian and juvenile	-26.4%	53
4	Serious threat to the well-being/physical safety of juvenile	+3.2%	32
5	Unauthorized absence by a juvenile for more than 24 hours	0.0%	2
6	Disorderly/Petty Disorderly Persons offense diverted to FCIU	0.0%	0

6. Using the information in the ranking charts above, what does this information tell you about your county's overall FCIU caseload in 2015? How has FCIU caseloads changed since 2012?

'Other' (+133.3%) and serious threats (+3.2%) showed the only increases while all categories either decreased, or showed no change.

➤ **For Question 7, use Table 3 (FCIU Petitions Filed by Petition Type).**

7. Look at the Total Petitions Filed (Row 3), and describe the overall change in FCIU filings between 2012 and 2015.

In 2012, there were a total of 6 FCIU petitions. In 2015, there were a total of (5) petitions constituting a decrease of (1) filing (-16.7%).

➤ **For Questions 8-11, use Table 4a (FCIU Referrals by Referral Type).**

8. Look at the Total Referrals (Row 4) and describe the overall change in FCIU referrals between 2012 and 2015.

In 2012 there were 65 referrals. In 2015, there were (36) referrals for a decrease of (-29) total referrals (-44.6%).

9. Insert into the chart below the referral types beginning with the category that has the greatest number of cases.

Ranking of FCIU Referral Types for 2015		
Rank	Referral Type	Number
1	Referrals made to Substance Abuse Program	18
2	Referrals made to Other Outside Agencies	18
3	Referrals made to DYFS	0

10. Insert into the chart below the FCIU referral types between 2012 and 2015, from largest to smallest.

Ranking of FCIU Referral Types between 2012 and 2015			
Rank	Referral Type	% Change	Number
1	Referrals made to Substance Abuse Program	1700.0%	18
2	Referrals made to Other Outside Agencies	-70.5%	18
3	Referrals made to DYFS	+100.0%	0
4			
5			
6			

11. Using the information in the ranking chart above, what does this information tell you about your county's overall FCIU Referrals to Juvenile Court between 2012 and 2015? How has FCIU Referral change since 2012?

Substance abuse referrals increased significantly (1700.0%) from (0) in 2012, (1) in 2014, and (18) in 2015.

JUVENILE COURT REFERRALS (NEW FILINGS)

12. Using the data in Table 4b, describe the overall change in referral to juvenile court by race and ethnicity between 2012 and 2015.

The number of referrals in 2012 (+243) decreased from 2015 (+219) for a total of (-24) less referrals. This represents an overall decrease of (-9.9%).

13. Insert into the chart below the referrals to juvenile court by race/ethnicity beginning with the group that has the greatest number of referrals.

Ranking of Referrals to Juvenile Court by Race/Ethnicity, 2015		
Rank	Race/Ethnicity	Number
1	Black	112
2	White	75
3	Hispanic	26
4	Other	6

14. Insert into the chart below the % change in Referrals to Juvenile Court between 2012 and 2015 by Race/Ethnicity, beginning with the group that had the greatest % change.

Ranking of Referrals to Juvenile Court by Race/Ethnicity, 2012 and 2015		
Rank	Race/Ethnicity	% Change
1	Other	+200.0%
2	White	-29.2%
3	Hispanic	+18.2%
4	Black	-0.09%

15. Using the information in the ranking charts above, what does this information tell you about referrals to juvenile court by race and ethnicity between 2012 and 2015? How have referrals to juvenile court changed since 2012?

Juveniles identifying as 'Other' (+200.0%) and Hispanic (+18.2%) increased from 2012-2015. All other categories decreased.

Disproportionate Minority Contact And Racial And Ethnic Disparities

16. Using the data in Table 4c (Total Referrals to Juvenile Court compared to Juvenile Arrests by Race/Ethnicity), compare and describe the number of Juvenile Arrests to the number of Referrals to Juvenile Court by Race/Ethnicity between 2012 and 2015.

In 2012, there were (445) juvenile arrests with (243) referrals to court. In 2015 there were (297) Juveniles arrests with (219) referrals to court.

FAMILY COURT DIVERSIONS

➤ **For Question 17, use data from Table 5a (Total Juveniles Diverted from Family Court).**

17. Using the data in Table 5a (Cell E5) describes the overall change in Family Court Diversions between 2012 and 2015.

There was an overall decrease of (24) less total Family Court cases diverted from 2012-2015 for a decrease of (-21.6%).

18. Using the data in Table 5a, describe the overall change in Juvenile Cases diverted by race and ethnicity between 2012 and 2015.

Juvenile referrals for those identified as black from 2012 showed (43) referrals and (43) total referrals for a (0.0%) change in 2015. Those identified as 'other' increased from (1) referral in 2012 up to (2) referrals for a total increase of (100.0%) in 2015.

Juveniles identifying as Hispanic showed a decrease with (10) referrals in 2012 versus (7) for a total categorical decrease of (-30.0%) in 2015. Juveniles identified as white showed a decrease of (57) referrals in 2012 against (35) referrals for a total categorical decrease of (-38.6%) in 2015. Overall, Juvenile Cases Diverted by Race/Ethnicity decreased (-21.6%) from 2012-2015.

19. Insert into the chart below the number of cases diverted by Race/Ethnicity in 2015, beginning with the group that had the greatest number of cases diverted.

Ranking of Juvenile Cases Diverted by Race/Ethnicity, 2015		
Rank	Race/Ethnicity	Number
1	Black	43
2	White	35
3	Hispanic	7
4	Other	2

20. Insert into the chart below the % change in Juvenile Cases Diverted between 2012 and 2015 by Race/Ethnicity, beginning with the group that had the greatest % change.

Ranking of Juvenile Cases Diverted by Race/Ethnicity, 2015		
Rank	Race/Ethnicity	% Change
1	Other	+100.0%
2	White	-38.6%
3	Hispanic	-30.0%
4	Black	0.0%

21. Using the information in the ranking charts above, what does this information tell you about juvenile case diverted by race and ethnicity between 2012 and 2015? How has Juvenile Cases Diverted changed since 2012?

Juvenile diversions in general are decreasing. The single outlier was 'other' that increased (+100.0%) was due to the additional of one single case from 2012-2015.

Disproportionate Minority Contact And Racial And Ethnic Disparities

22. Using the data in Table 5b (Total Juvenile Cases Diverted compared to Juvenile Arrests by Race/Ethnicity), compare and describe the number of Juvenile Arrests to the number of Juvenile Cases Diverted by Race/Ethnicity between 2012 and 2015.

The percentage of change from 2012-2015 in race and ethnicity shows a (0%) change in case diversions despite the decrease in proportional arrests for black juveniles. The data shows a total of (46) less arrests for black juveniles from 2012-2015 with the total percent of cases diverted as (43) for both 2012 and 2015. This implicates a disproportionate decrease in diversions in 2015 compared to other scopes and races/ethnicities.

IMPLICATIONS FOR DIVERSION PLAN

Extent of Need – Law Enforcement Station House Adjustments

23. Taken collectively, what do the answers to Question 1 (changes in overall police disposition) and Question 2 (police diversion of juveniles) tell you about your County's overall need for station house adjustment programs?

There has been a significant decrease in police dispositions of diversions since 2012-2015 displaying a need for increased use and reporting of station house adjustments.

Other Data Regarding Extent and Nature of Need - Law Enforcement Station House Adjustments

24. Was additional data, not provided by the JJC, used in your county's planning process? (If other data was used submit a copy in Chapter 13.)

What does any other available data tell you about how your County's overall need for station house adjustment programs and which offense categories seem reasonable to address through your station house adjustment programs? Are there additional data that relates Disproportionate Minority Contact or Racial And Ethnic Disparities?

Currently, only the Salem County Sheriff department is recording station house adjustments. They recorded a total of (+2) in 2016 for two black juveniles and (+1) in 2017 for a single white juvenile. There is an implication of need from the data available to increase station house adjustments throughout Salem County.

Extent of Need - Family Crisis Intervention Units

25. Taken collectively, what do the answers to Question 3 (changes in overall FCIU caseload), Question 7 (changes in FCIU petitions filed), and Question 8 (changes in FCIU referrals) tell you about how your County's overall need for an FCIU and programs used by the FCIU has changed in recent years?

The increase of (+31) FCIU cases and the decrease of (-29) total referrals (-44.6%) indicates that the need for the FCIU continues to grow.

Nature of Need- Family Crisis Intervention Units

26. Based on the answers to Question 6 (change in nature of FCIU caseload) and Question 11 (changes in the nature of FCIU referrals), which types of crisis seem reasonable to address through your County's FCIU diversion programs?

The tremendous increase in substance abuse (+1700.0%) and FCIU crisis categorized as 'other' (+133.3%) show the greatest need to be addressed by the FCIU.

Other Data Regarding Extent and Nature of Need -- Family Crisis Intervention Units

27. Was additional data, not provided by the JJC, used in your county's planning process? (If other data was used submit a copy in Chapter 13.)

What does any other available data tell you about how your County's overall need for an FCIU and programs used by the FCIU has changed in recent years and which types of crisis seem reasonable to address through your County's FCIU diversion programs? Are there additional data that relates Disproportionate Minority Contact or Racial And Ethnic Disparities?

Yes. Kids Count and the Uniform Crime Report. (See Chapter 13).

Extent of Need - Family Court Diversions

28. What does the answer to Question 17 tell you about your County's overall need for Family Court diversion programs?

There was an overall decrease of (24) less total Family Court cases diverted from 2012-2015 for a decrease of (-21.6%).

Other Data Regarding Extent and Nature of Need - Family Court Diversions

29. Was additional data, not provided by the JJC, used in your county's planning process? (If other data was used submit a copy in Chapter 13.)

What does any other available data tell you about your County's overall need for Family Court diversion programs and the types of offenses/behaviors seem reasonable to address through your County's Family Court diversion programs? Are there additional data that relates Disproportionate Minority Contact or Racial and Ethnic Disparities?

Diversion programs need to be more effectively tailored to the juvenile population they target.

Extent of Need – Referrals to Juvenile Court and Juvenile Cases Diverted

30. Taken collectively, what do the answers to Question 12 (overall referral to juvenile court) and Question 18 (overall change in Juvenile cases diverted), tell you about how your County's overall Referrals to Juvenile Court and Juvenile Cases Diverted by race/ethnicity changed in recent years?

The number of referrals in 2012 (243) decreased from 2015 (219) for a total of (-24) less. The overall amount of blacks diverted did not change while all others categories decreased. This may implicate a racial disparity amongst black juveniles especially since overall juvenile population decreased from 2012-2015.

Other Data Regarding Extent and Nature of Need - Juvenile Court Diversions

31. Was additional data, not provided by the JJC, used in your county's planning process? (If other data was used submit a copy in Chapter 13.)

What does any other available data tell you about your County's overall need for Family Court diversion programs and the types of offenses/behaviors seem reasonable to address through your County's Family Court diversion programs? Are there additional data that relates Disproportionate Minority Contact or Racial And Ethnic Disparities?

Yes. Kids Count and the Uniform Crime Report. (See Chapter 13).

RECOMMENDATIONS

Law Enforcement Station House Adjustments

32. Looking at your answers to Questions 23 and 24, state the need and/or service gap to be addressed. Cite the data that supports the need and/or service gap. List your recommendations for your County's Law Enforcement Station House Adjustment programs?

State need and/or service gap to be addressed	Cite the data that indicates the need and/or service gap exists	Recommended service/program activity to address the need and/or service gap
More comprehensive reporting and information sharing amongst Salem County Police Departments.	Only 1 reported Station House Report between the years of 2012-2015.	Encourage all police departments in Salem County to comply with the reporting and enforcing of Station House Adjustments especially with black juveniles

Comments:

Family Crisis Intervention Units

33. Looking at your answers to Questions 25, 26 and 27, state the need and/or service gap to be addressed. Cite the data that supports the need and/or service gap. List your recommendations for your County's Family Crisis Intervention Unit programs?

State need and/or service gap to be addressed	Cite the data that indicates the need and/or service gap exists	Recommended service/program activity to address the need and/or service gap
NEED For More referrals with increased capacity.	Lack of referrals to FCIU FCIU is currently working to reduce juvenile referrals referrals .	Continued monitored follow-ups with referrals and services rendered.
NEED For Intense Focus on Substance Abuse referrals.	PLL Poin't 1700.00% spike in substance abuse.	

Comments:

Family Court Diversions

34. Looking at your answers to Questions 28 and 29, state the need and/or service gap to be addressed. Cite the data that supports the need and/or service gap. List your recommendations for your County's Family Court Diversion programs?

State need and/or service gap to be addressed	Cite the data that indicates the need and/or service gap exists	Recommended service/program activity to address the need and/or service gap
Need for better alternative services and diversion plans for juveniles.	Reduction of 21.6% of cases diverted.	Implement alternative diversion plans for juveniles that best fit their personal and cultural needs.
		Maintain available results.

Comments:

35. Looking at your answers to Questions 30 and 31 what recommendations or strategies would your county make with regards to Diversion policy and practice through the lens of race and ethnicity? What recommendations or strategies would your county consider to ensure similar outcomes for similarly situated youth?

Comments:

Taking a closer look at Station House Adjustments and the proper continuing education training for police officers may offer the entire scope of diversion a totally different outlook. With the proper tools and training, officers will be better equipped in understanding the differences in the cultures of the population they serve.

DIVERSION DATA WORKSHEETS

NATURE & EXTENT OF DIVERTED CASES

LAW ENFORCEMENT

Table 1. Police Disposition of Juveniles Taken into Custody by Dispositions Type, 2012, 2014 and 2015

Div Table # 2
IAC Plan 15-17

4. Insert into the chart below the FCIU caseloads beginning with the category that has the greatest number of cases.

Ranking of FCIU Caseload Categories for 2012		
Rank	Category	Number
1	Serious Conflict parent/child	72
2	Other	39
3	Serious Threat well being	31
4	Truancy	7
5	Unauthorized Absence	2
6	Disorderly	0

5. Insert into the chart below the % Change in Number of Cases column (Column G), between 2009 and 2012, from largest to smallest.

Ranking of FCIU Caseload Categories between 2009 and 2012			
Rank	Category	% Change	Number
1	Truancy	+133	4
2	Serious Conflict parent/child	+121.4	10
3	Unauthorized Absence	-50	2
4	Other	-23.5	12
5	Serious Threat to well being	0	0
6	Disorderly	0	0

- .. Using the information in the ranking charts above, what does this information tell you about your county's overall FCIU caseload in 2012? How has FCIU caseloads changed since 2009?

The overall caseload for 2012 demonstrates an increase in Truancy (133%) and Serious Conflict parent/child (121.4). Reductions took place in Unauthorized Absence (-50%) and Other (-23.5%)

- For Question 7, use Table 3 (FCIU Petitions Filed by Petition Type).

7. Look at the Total Petitions Filed (Row 3), and describe the overall change in FCIU filings between 2009 and 2012.

There was a 57.1% reduction in filings from 14 to 6.

- For Questions 8-11, use Table 4 (FCIU Referrals by Referral Type).

- 4.) These figures exclude Transferred in Cases

Div Table 4a.
Iac Plan 15-17

8. Look at the Total Referrals (Row 4) and describe the overall change in FCIU referrals between 2009 and 2012.

Total referrals decreased by 53.2%.

9. Insert into the chart below the referral types beginning with the category that has the greatest number of cases.

Ranking of FCIU Referral Types for 2012		
Rank	Referral Type	Number
1	Outside Agencies	61
2	DCP&P formerly DYFS	4
3	Substance Abuse	0

10. Insert into the chart below the FCIU referral types between 2009 and 2012, from largest to smallest.

Ranking of FCIU Referral Types between 2009 and 2012			
Rank	Referral Type	% Change	Number
1	Outside Agencies	-49.2	59
2	DCP&P formerly DYFS	-76.5	13
3	Substance Abuse	-100	2
4			
5			
6			

11. Using the information in the ranking chart above, what does this information tell you about your county's overall FCIU Referrals to Juvenile Court between 2009 and 2012? How has FCIU Referral change since 2009?

Referrals decreased for each category and for the total number of referrals 74 (-53.2%) from 2009 to 2012

JUVENILE COURT REFERRALS (NEW FILINGS)

12. Using the data in Table 5, describe the overall change in referral to juvenile court by race and ethnicity between 2009 and 2012.

Div Table 4b
JAC Plan 15-17

There was an overall reduction in referrals to juvenile court by all racial and ethnic groups.

1. Insert into the chart below the referrals to juvenile court by race/ethnicity beginning with the group that has the greatest number of referrals.

Ranking of Referrals to Juvenile Court by Race/Ethnicity, 2012		
Rank	Race/Ethnicity	Number
1	Black	113
2	White	106
3	Hispanic	22
4	Other	2

14. Insert into the chart below the % change in Referrals to Juvenile Court between 2009 and 2012 by Race/Ethnicity, beginning with the group that had the greatest % change.

Ranking of Referrals to Juvenile Court by Race/Ethnicity, 2009 and 2012		
Rank	Race/Ethnicity	% Change
1	Black	-39.6
2	White	-27.4
3	Hispanic	-4.3
4	Other	-60.0

15. Using the information in the ranking charts above, what does this information tell you about referrals to juvenile court by race and ethnicity between 2009 and 2012? How have referrals to juvenile court changed since 2009?

Referrals to Juvenile Court has decreased across all racial and ethnic categories between 2009-2012, the Other category decreased by 60%, Blacks by 39.6%, Whites by 27.4% and Hispanics by 4.3%.

Disproportionate Minority Contact And Racial And Ethnic Disparities

16. Using the data in Table 6 (Total Referrals to Juvenile Court compared to Juvenile Arrests by Race/Ethnicity), compare and describe the number of Juvenile Arrests to the number of Referrals to Juvenile Court by Race/Ethnicity between 2009 and 2012.

These decreases cut across all racial and ethnic categories with exception of increased arrests of Hispanic (94.1%) and Other (16.7%) categories.

FAMILY COURT DIVERSIONS

➤ For Question 17, use data from Table 7 (Total Juveniles Diverted from Family Court).

17. Using the data in Table 7 (Cell E5) describes the overall change in Family Court Diversions between 2009 and 2012.

There was an 18.8% reduction in the total cases diverted.

18. Using the data in Table 7, describe the overall change in Juvenile Cases diverted by race and ethnicity between 2009 and 2012.

*There were reductions in the number of cases diverted for Blacks (43) at -35.0% and Whites (57) at -5%; while Hispanics remained the same (10) at 0.0%.
The only increase was for 1 case in the Other category at 100%.*

19. Insert into the chart below the number of cases diverted by Race/Ethnicity in 2009, beginning with the group that had the greatest number of cases diverted.

Ranking of Juvenile Cases Diverted by Race/Ethnicity, 2012		
Rank	Race/Ethnicity	Number
1	White	57
2	Black	43
3	Hispanic	10
4	Other	1

20. Insert into the chart below the % change in Juvenile Cases Diverted between 2009 and 2012 by Race/Ethnicity, beginning with the group that had the greatest % change.

Ranking of Juvenile Cases Diverted by Race/Ethnicity, 2012		
Rank	Race/Ethnicity	% Change
1	Other	+100
2	Black	-35.8
3	White	-5.0
4	Hispanic	0.0

DETENTION

- Definition & Rationale
- Required Data & Methodology
- Data Worksheets
- Analysis Questions

DETENTION/DETENTION ALTERNATIVE DEFINITION & RATIONALE

The Detention phase/component of juvenile justice includes detention, the temporary care of juveniles and the provision of Detention Alternative Programs.

Detention

“Detention” is defined as the temporary care of juveniles in physically restricting facilities pending court disposition (N.J.A.C. 13:92-1.2).

An objective of detention is to provide secure custody for those juveniles who are deemed a threat to the physical safety of the community and/or whose confinement is necessary to insure their presence at the next court hearing (N.J.A.C. 13:92-1.3). For the purpose of this plan a limited amount of funding may be provided to support court ordered evaluations for adjudicated youth who reside in the detention center, if all other resources have been exhausted.

Detention Alternatives

Detention Alternative Programs provide supervision to juveniles who would otherwise be placed in a secure detention facility while awaiting their adjudicatory hearing, expanding the array of pre-adjudication placement options available to the judiciary. Detention Alternative Programs/Services are not to be provided in the detention center. These programs are designed to provide short-term (typically 30 – 60 days) supervision sufficient to safely maintain appropriate youth in the community while awaiting the final disposition of their case. As such, these programs help to reduce the overall detention population and relieve detention overcrowding and its related problems where it exists.

Detention data describe the number of juveniles placed in detention, the characteristics of those juveniles, and the types of offenses for which they are detained. By understanding the nature and extent of the detained population and the extent to which detention is used and the characteristics of the youth, planners can better identify the content and scope of Detention Alternative Programs needed in their Counties. As such, Counties will be better equipped to make informed decisions regarding the allocation of resources to Detention Alternative Programs, including those disseminated by the Juvenile Justice Commission (State/Community Partnership, Family Court Services, Juvenile Detention Alternatives Initiative (JDAI) – Innovations Funding, and Title IIB). It should be noted, however, that the Detention data collected through this Comprehensive Plan represent only a portion of the data that a County might collect as part of the overall Detention Alternative Program planning process. Counties involved in the JDAI are encouraged to incorporate any information gathered through the work of their local steering committees and subcommittees.

DETENTION REQUIRED DATA & METHODOLOGY
--

- All data are county-specific unless otherwise indicated.
- Round all percentages to one decimal place.
- Cells in the data tables are identified with a letter/number combination, where the letter identifies the column and the number identifies the row (e.g., A1 = Column A, Row 1).

DETENTION

Required Data	➤ Number of juveniles admitted to the county detention center in 2012 and 2015, by gender, race/ethnicity, and age. ➤ Number of referrals to juvenile court (new complaints docketed) in 2012 and 2015, by race/ethnicity. ➤ Average daily population in detention in 2012 and 2015. ➤ Most serious current offense for juveniles admitted to detention in 2012, by type and by degree (see note below under Sources). ➤ Municipality of residence for juveniles admitted to detention in 2012 (see note below under Sources). ➤ Age of juveniles admitted to detention in 2012 (see note below under Sources). ➤ Juveniles admitted to YSC-funded detention alternatives, by gender, race/ethnicity, and age (2015), and also problem areas, service interventions needed, and service interventions provided (2012 and 2015).
Sources	Juvenile Justice Commission: <i>New Jersey Juvenile Detention Alternatives Initiative (JDAI) 2015 Annual Data Report</i> Administrative Office of the Courts, Family Automated Case Tracking System. Juvenile Justice Commission: JAMS Data Packet. Data collected locally (non-JDAI sites). ➤ NOTE: Counties not active in JDAI in 2015 will need to work with the detention center housing their youth to obtain data on all youth admitted to detention in 2015, in terms of offense (by type), municipality of residence, and age. The figures should not include youth admitted to commitment program status, in counties where this distinction is applicable. For offense type, use the following categories:

Methods
(Cont.)

- *Percent of Referrals (New Complaints Docketed) to Juvenile Court Admitted to Detention (Columns C and F).* Calculate the percent of referrals (new complaints docketed) to juvenile court that were admitted to detention by race/ethnicity for each year using Formula 2.
- *Percent Change (Column G and H).* Calculate the percent change for referrals (new complaints docketed) to juvenile court and detention admissions between 2012 and 2015 using Formula 1.

Formula 2.

$$\frac{\text{White Juveniles Admitted to Detention 2015 (B1)}}{\text{White Juveniles Referred to Court 2015 (A1)}} = \underline{\hspace{2cm}} \times 100 = \% \text{ of Referrals Admitted to Detention (C1)}$$

Table 3. Juvenile Detention Length of Stay, Daily Population and Capacity Utilization

- *Number (Columns A, B).* From the JJC “Data for Detention Section of Comprehensive Plan” report, insert the average daily population in detention for 2012 and 2015.
- *Percent Change (Column C).* Calculate the percent change in average daily population from 2012 to 2015 using Formula 1.

Data
Checks

In Table 1, the figures in Row 1 through Row 4 should add up to the figure in Row 5 for each of the three years. For example, A1 (White) + A2 (Black) + A3 (Hispanic) + A4 (Other) = A5 (Total Admissions).

DETENTION ANALYSIS QUESTIONS

- When answering questions regarding trends, describe *whether* any change has occurred, the *direction* of any change (e.g., increase/up, decrease/down), and the *size* of any change (e.g., small, moderate, large).
- When answering questions regarding rank orders, draw comparisons between categories (e.g., using terms like least/smallest, most/largest).

NATURE & EXTENT OF DETAINED POPULATION

JUVENILE DETENTION ADMISSIONS & AVERAGE DAILY POPULATION

- For Questions 1-5, use Table 1 (Juvenile Detention Admissions by Race/Ethnicity and Gender).

1. Using the data in Table 1 (Cell I5), describe the overall change in juvenile detention admissions between 2012 and 2015.

The overall change in Juvenile Detention Admissions by Race/Ethnicity has decreased (-36.7%) from 2012-2015.

2. Insert into the chart below detention admissions by race/ethnicity, beginning with the group that had the greatest number of admissions for 2015 (Column F).

Ranking of Detention Admissions by Race/Ethnicity for 2015		
Rank	Race/Ethnicity	Number
1	Black	22
2	Hispanic	9
3	White	7
4	Other	0

3. Insert into the chart below detention admissions by gender, beginning with the group that had the greatest number of admissions in 2015 (Cells D5 & E5).

Ranking of Detention Admissions by Gender for 2015		
Rank	Gender	Number
1	Male	30
2	Female	8

4. Insert into the chart below the % change in admissions by race/ethnicity (Column I), beginning with the groups that had the greatest number of detention admissions between 2012 and 2015.

Ranking of % Change in Detention Admissions by Race/Ethnicity between 2012 and 2015			
Rank	Group	% Change	Number
1	Black	-48.8%	22
2	White	-30.0%	7
3	Hispanic	+28.6%	9
4	Other	0.0%	0

5. Using the information in the ranking charts above, what does this information tell you about your county's juvenile detention admissions by race/ethnicity and gender in 2015? How have admissions by race/ethnicity and gender changed since 2012?

From 2012-2015, Hispanic juveniles show the largest increase in Detention Admissions (+28.6%) categorically. Although juveniles identifying as Black have the most juveniles in detention (22), they also constitute the largest percentage decrease since 2012 (-48.8%). Juveniles identifying as White account for a decrease of (-30.0%) while those who identify as 'Other' have no change or Detention Admissions overall.

Disproportionate Minority Contact and Racial And Ethnic Disparities

6. Using the data in Table 2, describe admissions to detention as a percentage of referrals to juvenile court for each racial/ethnic group in 2012 and 2015 (Columns C & F). Also compare changes in this figure from 2012 to 2015, in percentage points, across each racial/ethnic group (Column G).

2012:

Juveniles identifying as White had (10) Detention Admissions (9.4%) with (106) referrals to court. Juveniles identifying as Black had (43) Detention Admissions (38.1%) with (113) referrals to court.

Juveniles identifying as Hispanic had (7) Detention Admissions (31.8%) with (22) referrals to court. Juveniles identifying as Other had (0) Detention Admissions (0.0%) with (2) referrals to court.

2015:

Juveniles identifying as White had (7) Detention Admissions (9.3%) with (75) referrals to court with a percentage change from 2012 of (-29.2%) Referrals to court and (-30.0%) decrease in Detention Admissions.

Juveniles identifying as Black had (7) Detention Admissions (22) with (112) referrals to court with a percentage change from 2012 of (-0.9%) Referrals to court and (-48.8%) decrease in Detention Admissions.

Juveniles identifying as Hispanic had (9) Detention Admissions (34.6%) with (26) referrals to court with a percentage change from 2012 of (+18.2%) Referrals to court and (+28.6%) decrease in Detention Admissions.

Juveniles identifying as Other had (0) Detention Admissions (0.0%) with (6) referrals to court with a percentage change from 2012 of (+200.0%) Referrals to court and (0.0%) decrease in Detention Admissions.

7. Using the data in Table 3, describe how the length of stay, average daily population and approved capacity utilization in detention has changed between 2012 and 2015.

Due to Salem County not having a localized detention facility, this information is not available. Six total facilities were used at various times with one closing in 2015. The facilities that were available but not necessarily used were:

*Cumberland JDC (Closed 2015)
Gloucester County JDC
Burlington JDC
Camden JDC
Atlantic County JDC
Warren County JDC*

Due to the unique nature of Salem's detained juveniles being moved around and the closing of a facility, complete records could not be obtained locally, by JDAI, or the JJC.

ADDITIONAL CHARACTERISTICS OF YOUTH IN DETENTION

- **For Questions 8-11, use data from the JJC “Data for Detention Section of Comprehensive Plan” report (JDAI sites), or from data collected locally (non-JDAI sites).**

8. Insert into the chart below the top three municipalities of residence for youth admitted to detention in 2015, beginning with the municipality with the highest frequency.

Ranking of Municipality where Juveniles Resides, 2015			
Rank	Municipality	Frequency	Percent
1	Data Unavailable	*	*
2	Data Unavailable	*	*
3	Data Unavailable	*	*

9. Describe the age of youth admitted to detention in 2015, including the age category with the most youth, and the average age.

Salem County age of youth admitted to detention in 2015 data unavailable.

10. Insert into the chart below the top ten offense types for youth admitted to detention in 2015, beginning with the offense type with the highest frequency.

Ranking of Most Serious Current Offense, by Type, 2015			
Rank	Category	Frequency	Percent
1	Data Unavailable	*	*
2	Data Unavailable	*	*
3	Data Unavailable	*	*
4	Data Unavailable	*	*
5	Data Unavailable	*	*
6	Data Unavailable	*	*
7	Data Unavailable	*	*
8	Data Unavailable	*	*
9	Data Unavailable	*	*
10	Data Unavailable	*	*

11. Insert into the chart below the degrees of the offenses for which youth were admitted to detention in 2015, beginning with the degree with the highest frequency.

Ranking of Most Serious Current Offense, by Degree, 2015			
Rank	Degree	Frequency	Percent

1	Data Unavailable	*	*
2	Data Unavailable	*	*
3	Data Unavailable	*	*
4	Data Unavailable	*	*
5	Data Unavailable	*	*
6	Data Unavailable	*	*

12. Describe the typical youth in detention by discussing the most common characteristics of the population by drawing on your answers for question 5 and for questions 8 through 11 (municipality, age, offense). Please use the information from all 5 answers in your response.

Detention Data Unavailable.

CHARACTERISTICS OF YOUTH SERVED BY YSC-FUNDED DETENTION ALTERNATIVES

- **For Questions 13-20, use JAMS data tables from the JAMS packet.**

13. Looking at the “Total” in Table 1 for each program on the detention point of the continuum (Total Intakes by Program, 2012 & 2015), describe how admissions to detention alternative programs have changed from 2012 to 2015.

Salem County JAMS Data Unavailable.

14. Looking at the total for each gender in Table 2 (Total Intakes by Gender, 2015) and the “Total” column in Table 3 (Total Intakes by Race, 2015), and comparing this information with your answer to Question 5 (detention admissions by race/ethnicity and gender), describe any differences or similarities between juvenile detention admissions and admissions to detention alternative programs, in terms of the gender and race/ethnicity of youth admitted.

Salem County JAMS Data Unavailable.

15. Looking at Table 4 (Average Age by Program, 2015) and comparing this information with your answer to Question 9 (age at admission), describe any differences or

similarities between the age of youth placed in detention and the age of youth placed in detention alternative programs.

Salem County JAMS Data Unavailable.

16. Insert into the chart below the top 10 Problem Areas for youth admitted to detention alternatives ("Total" column of Table 6), beginning with the Problem Area affecting the largest number of youth, for 2012 and 2015.

Ranking of Problem Areas by Program					
2012			2015		
Rank	Problem Areas	Total	Rank	Problem Areas	Total
1	Personality/Behavior	20	1	<i>Comparison Data Unavailable.</i>	*
2	Family Circumstance/Poverty	11	2		
3	Substance Abuse	5	3		
4	Attitude/Orientation	3	4		
5	Education	2	5

21. How has the ranking of Service Interventions Provided changed between 2012 and 2015? Describe in terms of those Service Interventions Provided that have moved up in rank the most.

Comparison Data Unavailable.

IMPLICATIONS FOR JUVENILE DETENTION PLAN

Extent of Need

22. Taken collectively, what do the answers to Question 1 (overall change in detention admissions), Question 7 (change in average daily population), and Question 13 (change in detention alternative admissions) tell you about how your County's overall need for secure detention beds and detention alternative programs has changed in recent years?

Salem County Detention data unavailable.

Nature of Need

23. Based on the answers to Question 5 (detention admissions by race/ethnicity and gender), Question 12 (description of the typical detained youth), Question 14 (race/ethnicity and gender of youth admitted to detention as compared to youth admitted to detention alternatives), Question 15 (age of youth admitted to detention as compared to age of youth admitted to detention alternatives), Questions 16 and 17 (top ten problem areas and change in problem areas), Questions 18 and 19 (interventions needed but not available), and Questions 20 and 21 (interventions provided), what are the characteristics of youth and the service needs that you must account for or address programmatically through your County's juvenile detention plan?

Salem County Detention data unavailable.

24. Looking at your answer to Question 6, what does this information tell you collectively about the status of disproportionate minority contact and racial/ethnic disparities at this point of the juvenile justice continuum within your County?

Although detention overall has declined in 2015 (-36.7%), juveniles identifying as Hispanic showed an overall increase of referrals to court (26) and percent admitted to detention with a total increase of (34.6%) over 2012. All other detention statistics decreased across the board from 2012.

Other Data Regarding Extent and Nature of Need

25. Was additional data, not provided by the JJC, was used in your county's planning process? (If other data was used submit a copy in Chapter 13.) If so, what does that data tell you about how your County's overall need for secure detention and detention alternative programs has changed in recent years and about the needs and characteristics of youth that should be addressed through your county's juvenile detention plan? Are there additional data that relates Disproportionate Minority Contact or Racial and Ethnic Disparities?

No other data was used in the county planning process for detention.

RECOMMENDATIONS

29. Looking at your answers to Questions 22, 23, and 25, state the need and/or service gap to be addressed. Cite the data that supports the need and/or service gap. List your recommendations for your County's juvenile detention plan.

State need and/or service gap to be addressed	Cite the data that indicates the need and/or service gap exists	Recommended service/program activity to address the need and/or service gap
Use of Detention Alternatives Programs for Hispanic Youth.	Use of detention has declined with exception to Hispanic juveniles. overall in 2 states.	Continued use of In-Home detention alternative programs.
Refusal of Salem High-School to accept students on GPS Alternative Detention Programs.	Eleven juveniles completed Detention Alternative Programs in 2012. How many kids 2012-15?	Decreased use of GPS bracelets and increase of In-Home Detention Alternative Programs.
	Ack will Allen VP.	

Comments:

30. Looking at your answers to Questions 24 and 25, what recommendations or strategies would your county make with regards to Juvenile Detention policy and practice through the lens of race and ethnicity? What recommendations or strategies would your county consider to ensure similar outcomes for similarly situated youth?

Comments:

Due to the small amount of juveniles in detention, better tracking systems and In-home detention programs need increased applications in Salem County.

Subject: Salem County Juvenile Detention Admission by Race and Gender, 2012, 2014. *Hello and Please Assist*
Importance: High

Good Morning All,

My name is Frank Carozza and I am the new Youth Services Coordinator for Salem County. I was hoping that someone here could point me in the right direction concerning some information I need for our 2020 Comprehensive Plan. Gina Blevins (JDAI) and Greg Wolf (Family Court) did not have the information needed below. Gina gave me your contacts so I can reach out to you all to see if you could help. Since Salem County doesn't have a juvenile detention facility, we typically send juveniles to either Atlantic County or Camden county for detention. At our last regional coordinator meeting, Safia Baker mentioned that someone should have this information somewhere in the universe. This is the last bit of information that we need to proceed, and time is unfortunately against us. I took the 2012 figures from our last plan. I haven't been able to locate the 2014-2015 data. Does anyone here possibly have what I need below?

Thank You All,

Det: Table 1

Hello Frank,

This is the only information I have that will help you. We started holding Salem County Residents in 2015 so this is the data I have. I hope it helps.

Gloria

Gina:

Can you please send over the data needed for Salem Comprehensive Plan (Detention section Question #'s 10-11) so we can submit our final plan revisions?

Thanks,

- *Frank Carozza*

Detention Analysis
Question # 16
2012 plan

No data on admissions to Detention Alternative Programs in 2009. For 2012 there were 11 admissions to Alternative Programs with 11 completing the program that year.

14. Looking at the total for each gender in Table 2 (Total Intakes by Gender, 2012) and the "Total" column in Table 3 (Total Intakes by Race, 2012), and comparing this information with your answer to Question 5 (detention admissions by race/ethnicity and gender), describe any differences or similarities between juvenile detention admissions and admissions to detention alternative programs, in terms of the gender and race/ethnicity of youth admitted.

Data on admissions to Detention Alternative Programs by Gender (9 males, 2 females) and Race/Ethnicity (3 African American, 5 White, 1 Inter Racial and 2 Unknown). Data shows fewer African Americans in Detention Alternative programs than Detention.

15. Looking at Table 4 (Average Age by Program, 2012) and comparing this information with your answer to Question 9 (age at admission), describe any differences or similarities between the age of youth placed in detention and the age of youth placed in detention alternative programs.

Data on the average age of youth placed in detention not available. The average age of youth for in home detention was 16 years of age.

16. Insert into the chart below the top 10 Problem Areas for youth admitted to detention alternatives ("Total" column of Table 6), beginning with the Problem Area affecting the largest number of youth, for 2009 and 2012.

Ranking of Problem Areas by Program					
2009			2012		
Rank	Problem Areas	Total	Rank	Problem Areas	Total
1	Personality / Behavior	46	1	Personality / Behavior	20
2	Family Circumstance / Poverty	38	2	Family Circumstance / Poverty	11
3	Attitude / Orientation	35	3	Substance Abuse	5
4	Education	21	4	Attitude / Orientation	3
5	Substance Abuse	18	5	Education	2
6	Peer Relations	17	6	Vocational Skills / Employment	1
7	Teen Pregnancy / Parenting	6	7		

Def: Andy Cis
20 (2012 Plan)

Insert into the chart below the top 10 Service Interventions Provided for youth admitted to detention alternative programs ("Total" column of Table 7), beginning with the Service Intervention most often provided, for 2009 and 2012.

Ranking of Service Intervention Provided				
2009		2012		
Service Intervention Provided	Total	Rank	Service Intervention Provided	Total
Advocacy	17	1	Counseling / Individual	8
Intensive Supervision	17	2	Academic Education	4
Supervision	17	3	Supervision	4
Counseling / Individual	8	4	Anger Management	3
Intensive In-Home Service	6	5	Decision Making Skills	3
Counseling / Family	1	6	Intensive Supervision	2
		7	Role Model / Mentor	2
		8	Case Management	1
		9	Advocacy	1
		10	Counseling / Family	1

How has the ranking of Service Interventions Provided changed between 2009 and 2012? Describe in terms of those Service Interventions Provided that have moved up in rank the most.

There are fewer use of 10 Service Intervention provided in 2012 (28) compared to only 6 in 2009 (66). Advocacy, Intensive Supervision and Supervision have been reduced while Individual Counseling has an increase in importance if not in use.

IMPLICATIONS FOR JUVENILE DETENTION PLAN

Detention Analysis # 18 (2012 Plan)

8	Vocational Skills	4	8		
			9		
10			10		

17. How has the ranking of Problem Areas changed between 2009 and 2012? Describe in terms of those Problem Areas that have moved up in rank the most.

Personality/Behavior and Family Circumstance continue to be the top ranked problem area.

18. Insert into the chart below the top 10 Service Interventions Needed, But Not Available, for youth admitted to detention alternative programs ("Total" column of Table 8), beginning with the Service Intervention most often needed, for 2009 and 2012.

Ranking of Service Intervention Needed					
2009			2012		
Rank	Service Intervention Needed	Total	Rank	Service Intervention Needed	Total
	Advocacy	17	1	Urine Monitoring	10
	Intensive Supervision	17	2	Electronic Monitoring	9
	Supervision	17	3	Other	7
	Counseling / Individual	8	4	Counseling / Individual	6
	Intensive In-Home Service	6	5	GED Prep	4
	Counseling / Family	1	6	Anger Management	2
			7	Sp. Day School / Alternative	2
			8	Academic Education	1
			9	Substance Abuse Eval.	1
			10	Substance Abuse Treatment	1

9. How has the ranking of Service Intervention Needed changed between 2009 and 2012? Describe in terms of those Service Interventions Needed that have moved up in rank the most.

Urine Monitoring and Electronic Monitoring were the top Intervention need in 2012 and were not monitored in 2009, there is a more diverse number of Interventions needed in 2012 than in 2009.

DETENTION DATA WORKSHEETS

Table 1. Juvenile Detention Admission by Race and Gender, 2012, 2014 and 2015.

Race	2012			2014			2015			% Change in Admissions by Race and Gender 2012-2015
