The request was closed. A violation letter has been sent to the homeowner regarding the work done at the property. We will follow procedures in order to have the homeowner bring the property into compliance. If you have any further questions, feel free to contact me at extension 2360. Brian Dunwoody-Howell

I believe there are many issues at this location:

- 1- Construction without permits.
- 2- Grade changes causing water runoff onto my property.
- 3- Pond and waterfall construction causing runoff into the street which will be cause icing conditions in the winter.
- 4-Construction and grade changes in a drainage and conservation easement dedicated to the Township of Howell
