FYI – just had a shouting match over the phone with Antonio about the sign - he insisted it's not a billboard or sign because it's on a truck. I said if it isn't removed I will see him in court and let the Judge decide after I show pictures. He said he will remove it from the truck and mount it on the business sign on the property – I told him a zoning permit is required for any new sign and I will not approve that because the Sign Code only allows signs identifying the business on a property.

I finally hung up on him because he wouldn't stop yelling and there was no more to be said. He redialed my number, but luckily our phone has a blocking feature so I blocked him. The natives are restless!

John

Antonio called regarding the sign at Pavilion pizza and asked if you could please contact him at [REDACTED] or [REDACTED]
